
EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Environmental Impact Assessment (Agriculture) Regulations (Northern Ireland) 2007 to correct a number of errors in drafting. In particular, these Regulations:

- (a) define the “EIA Directive”;
- (b) attract the provisions of the Interpretation Act (Northern Ireland) 1954; and
- (c) clarify the role of the appointed person with regard to appeals against stop notices issued by the Department of Agriculture and Rural Development.
