**The Contaminants in Food Regulations (Northern Ireland) 2009**

*Made* - - - - *28th May 2009*

*Coming into operation* - *1st July 2009*

The Department of Health, Social Services and Public Safety(a) makes the following Regulations in exercise of the powers conferred by Articles 15(1)(a), (e) and (f), 16(2), 25(1)(a) and (3), and 47(2) of the Food Safety (Northern Ireland) Order 1991(b), as read with paragraph 1A of Schedule 2 to the European Communities Act 1972(c).

These Regulations make provision for a purpose mentioned in section 2(2) of the European Communities Act 1972 and it appears to the Department of Health, Social Services and Public Safety that it is expedient for references to the Annex to the Community instrument as specified in regulation 2(4) to be construed as references to that Annex as it may be amended from time to time.

In accordance with Article 47(3A) of that Order, it has had regard to relevant advice given by the Food Standards Agency.

As required by Article 9 of Regulation (EC) No. 178/2002 of the European Parliament and of the Council laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety(d), there has been open and transparent public consultation during the preparation and evaluation of these Regulations.

## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations, revoke and re-enact with changes the Contaminants in Food Regulations (Northern Ireland) 2007 (S.R. 2007 No. 66 as amended) (“the 2007 Regulations”). They make provision for the execution and enforcement of Commission Regulation (EC) No. 1881/2006 setting maximum levels for contaminants in foodstuffs (OJ No. L364, 20.12.2006, p.5) (“the Commission Regulation”).

The Commission Regulation, which consolidated and made further amendments to the provisions formerly contained in Commission Regulation (EC) No. 466/2001, was recently amended by —

- (a) Commission Regulation (EC) No. 565/2008 (OJ No. L160, 19.6.2008, p.20), which concerns maximum levels for dioxins and PCBs in fish liver; and
- (b) Commission Regulation (EC) No. 629/2008 (OJ No. L173, 3.7.2008, p.6), which concerns maximum permitted levels for certain heavy metals.

These Regulations also provide for the execution and enforcement of Commission Regulation (EC) No. 124/2009 (OJ No. L40, 11.2.2009, p.7) (“Regulation 124/2009”), which concerns maximum permitted levels for certain feed additives that may in specified circumstances occur in food.

The Regulations —

- (a) provide that it is an offence, (except in certain cases relating to food placed on the market before a date given in specified Community legislation) —
  - (i) to place on the market certain foods if they contain contaminants of any kind specified in the Commission Regulation or in Regulation 124/2009 at levels exceeding those specified,
  - (ii) to use food containing contaminants at levels in excess of those permitted by the Commission Regulation as ingredients in the production of certain foods,
  - (iii) to mix foods that do not comply with the maximum levels prescribed by the Commission Regulation or Regulation 124/2009 with foods which do comply,
  - (iv) to mix foods to which the Commission Regulation relates and which are intended for direct consumption or as food ingredients with foods to which the Commission Regulation relates and which are intended to be sorted or otherwise treated prior to consumption, or
  - (v) to detoxify by chemical treatment food containing mycotoxins in excess of the limits specified in the Commission Regulation (*regulation 3*);
- (b) specify the enforcement authorities (*regulation 4*);
- (c) provide for the application of specified provisions of the Food Safety (Northern Ireland) Order 1991 for the purposes of these Regulations (*regulation 5*);
- (d) make a consequential amendment to the Food Safety (Sampling and Qualifications) Regulations (Northern Ireland) 1991 (*regulation 6*), the effect being to disapply the sampling and analysis provisions of those Regulations only to the extent that those matters are regulated by the Community instruments mentioned in paragraph (a) to (f) below.

The Commission Regulation specifies the Community methods of sampling and analysis that are required to be used for the official control of levels of the substances covered by it. Those methods are set out in —

- (a) Commission Directive 2001/22/EC laying down the sampling methods and the methods of analysis for the official control of the levels of lead, cadmium, mercury and 3-MCPD in foodstuffs (OJ No. L77, 16.3.2001, p.14), as corrected by Commission Decision 2001/873/EC (OJ No. L325, 8.12.2001, p.34), and as amended by Commission Directive 2005/4/EC (OJ No. L19, 21.1.2005, p.50);

- (b) Commission Directive 2004/16/EC laying down the sampling methods and the methods of analysis for the official control of the levels of tin in canned foods (OJ No. L42, 13.2.2004, p.16);
- (c) Commission Directive 2005/10/EC laying down the sampling methods and the methods of analysis for the official control of the levels of benzo(a)pyrene in foodstuffs (OJ No. L34, 8.2.2005, p.15);
- (d) Commission Regulation (EC) No. 401/2006 laying down the methods of sampling and analysis for the official control of the levels of mycotoxins in foodstuffs (OJ No. L70, 9.3.2006, p.12);
- (e) Commission Regulation (EC) No. 1882/2006 laying down methods of sampling and analysis for the official control of levels of nitrates in certain foodstuffs (OJ No. L364, 20.12.2006, p.25);
- (f) Commission Regulation (EC) No. 1883/2006 laying down methods of sampling and analysis for the official control of levels of dioxins and dioxin-like PCBs in certain foodstuffs (OJ No. L364, 20.12.2006, p.32).
