

## SCHEDULE 4

### CONTROL AND ERADICATION OF TSE IN SHEEP AND GOATS

#### **Restriction of a notified animal**

2.—(1) If notification is given to the Department under paragraph 1 in relation to a sheep or goat an inspector may, pending determination by a veterinary inspector of whether or not it is suspected of being affected with a TSE, serve a notice prohibiting the movement of that animal from the premises on which it was detained and the movement of any other sheep or goat onto or from those premises.

(2) Movements of animals restricted under this paragraph are only permitted in accordance with regulation 16.
