- (b) in relation to the opening balance of club transfer earned pension for a scheme year, the adjustment that would apply to the opening balance of that amount of earned pension under the sending scheme for the previous scheme year;

“AP index adjustment” means, in relation to the opening balance of additional pension for a scheme year, the percentage increase or decrease in prices specified in an order made by the Department of Finance and Personnel under section 9(2) of the 2014 Act in relation to the previous scheme year;

“the relevant last day” means—

- (a) for a member who has made a partial retirement application, the day before the entitlement day for a partial retirement pension; and

Pensionable service

2. For the purpose of this Schedule, a person who re-enters pensionable service after a break in service not exceeding 5 years is taken to be in pensionable service during the break.

Meaning of “leaver index adjustment”

3.—(1) The leaver index adjustment for an amount of accrued earned pension other than an amount of club transfer accrued earned pension is an amount calculated as follows—

Step 1

Add 1.5 to the percentage increase or decrease in prices specified in an order made by the Department of Finance and Personnel under section 9(2) of the 2014 Act in relation to the leaving year.

Step 2

Multiply the result at Step 1 by

$$\frac{A}{B}$$

where—

A is the number of complete months in the period between the beginning of the leaving year and the end of the relevant last day; and

B is 12.

The resulting percentage is the leaver index percentage.

Step 3

Multiply the amount of accrued earned pension by the leaver index percentage.

The resulting amount is the leaver index adjustment.

(2) The leaver index adjustment for an amount of club transfer accrued earned pension is the adjustment that would apply under the sending scheme to an amount of accrued earned pension equal to the amount of club transfer accrued earned pension specified in the active member’s account at the end of the relevant last day.

5.—(1) The amount of full retirement earned pension is the sum of—

- (a) the amount of accrued earned pension calculated under paragraph 28(2); and
- (b) the leaver index adjustment for that amount.

Meaning of “full retirement additional pension”

6.—(1) The amount of full retirement additional pension is the sum of—

- (a) the amount of accrued additional pension calculated under paragraph 28(3); and
