Designation of competent authority

3. The Department and the Executive acting jointly are designated as the competent authority in Northern Ireland for the purposes of Article 3(11) of the EU Ship Recycling Regulation.

Authorisation of ship recycling facilities

4.—(1) The Department's functions in relation to a permit for a ship recycling facility include ensuring compliance with Articles 13 [^{F3}to 15] of the EU Ship Recycling Regulation, but the Department must only exercise any such functions relating to health and safety with the consent of the Executive.

(2) A condition relating to health and safety to ensure compliance with Articles 13 [^{F4}to 15] of the EU Ship Recycling Regulation may be imposed in a permit for a ship recycling facility.

(3) A power to serve a suspension notice in relation to a permit for a ship recycling facility includes the power to serve a notice where the competent authority considers that the operation of the ship recycling facility involves a serious risk to health and safety.

Obligations of the competent authority and the Secretary of State

6A.—(1) In respect of a ship recycling facility in Northern Ireland, the competent authority must inform the Secretary of State without delay of—

- (a) the permitting of a ship recycling facility for inclusion on the European List;
- (b) the suspension or withdrawal of a permit of a ship recycling facility that is included on the European List.

(2) The Secretary of State must carry out the functions of the Member State referred to in Article 14(2) of the EU Ship Recycling Regulation, and must inform the European Commission in accordance with Article 14(3) and 14(4) of that Regulation.]

EXPLANATORY NOTE

(This note is not part of the Regulations)

The EU Regulation No. 1257/2013 of the European Parliament and of the Council on ship recycling (O.J. No. L 330, 10.12.2013, p. 1) (“the EU Regulation”) implements the Hong Kong International Convention for the safe and environmentally sound recycling of ships (“the Convention”). The Convention, once it is in force, will set global standards for ship recycling. Articles 13 and 14 of the EU Regulation establish requirements for ship recycling facilities that recycle ships within its scope. Once the EU Regulation applies, ships sailing under the flag of a Member State that exceed 500 gross tonnes (excluding warships and naval auxiliary or other ships owned or operated by the Member State and used on government non-commercial service) will only be able to be recycled at a facility if it is included on the European List of facilities established under the EU Regulation.

These Regulations implement Articles 13 and 14 of EU Regulation and provide for facilities located in Northern Ireland to be authorised in accordance with the EU Regulation so that they may be added to the European List.

These Regulations designate the Department of the Environment and the Health and Safety Executive for Northern Ireland as the joint competent authority in Northern Ireland for the purposes of the EU Regulation.

These Regulations provide for the competent authority to authorise ship recycling facilities located in Northern Ireland for the purposes of the EU Regulation.

These Regulations provides for the notification of facilities to be included on the European List. They also ensure that facilities that are currently authorised to recycle ships will only be authorised to accept ships within the scope of the EU Regulation if their existing permit has been brought into line with their requirements.

These Regulations amend the Waste Management Licensing Regulations (Northern Ireland) 2003 (S.R.2003 No.493) to allow health and safety conditions to be included in a permit issued for ship recycling.

Changes to legislation:

There are currently no known outstanding effects for the The Ship Recycling Facilities Regulations (Northern Ireland) 2015.
