- (5) Where paragraph (6) applies, the actuary must adjust the requested assumptions to a best estimate basis by removing any margin for prudence provided the actuary is satisfied such adjustments are consistent with the principles that would be used by the trustees or managers of the scheme in calculating an initial cash equivalent under regulation 7B of the Occupational Pension Schemes (Transfer Values) Regulations (Northern Ireland) 1996(7) (initial cash equivalents for salary related benefits other than cash balance benefits not calculated by reference to final salary: assumptions and guidance) at the calculation date.

(3) For the purposes of this regulation, “all the amendments” means the proposed amendments and the amendments made by the previous use, or uses, of the power in relation to the same members in the same scheme as covered by the proposed amendments.
