

## SCHEDULE 1

Regulation 2(2)

Descriptions of development for the purposes of the definition of “Schedule 1 development”

### Interpretation

In this Schedule—

“airport” means an airport which complies with the definition in the 1944 Chicago Convention setting up the International Civil Aviation Organisation (Annex 14)(1);

“express road” means a road which complies with the definition in the European Agreement on Main International Traffic Arteries of 15 November 1975(2);

“nuclear power station” and “other nuclear reactor” do not include an installation from the site of which all nuclear fuel and other radioactive contaminated materials have been permanently removed; and development for the purpose of dismantling or decommissioning a nuclear power station or other nuclear reactor shall not be treated as development of the description mentioned in paragraph 2(b) of this Schedule.

### Descriptions of development

The carrying out of development to provide any of the following—

1. Crude-oil refineries (excluding undertakings manufacturing only lubricants from crude oil) and installations for the gasification and liquefaction of 500 tonnes or more of coal or bituminous shale per day.

2

(a) Thermal power stations and other combustion installations with a heat output of 300 megawatts or more; and

(b) Nuclear power stations and other nuclear reactors (except research installations for the production and conversion of fissionable and fertile materials, whose maximum power does not exceed 1 kilowatt continuous thermal load).

3

(a) Installations for the reprocessing of irradiated nuclear fuel.

(b) Installations designed—

(i) for the production or enrichment of nuclear fuel,

(ii) for the processing of irradiated nuclear fuel or high-level radioactive waste,

(iii) for the final disposal of irradiated nuclear fuel,

(iv) solely for the final disposal of radioactive waste,

(v) solely for the storage (planned for more than 10 years) of irradiated nuclear fuels or radioactive waste in a different site than the production site.

4

(a) Integrated works for the initial smelting of cast-iron and steel;

(b) Installations for the production of non-ferrous crude metals from ore, concentrates or secondary raw materials by metallurgical, chemical or electrolytic processes.

---

(1) See Command Paper 6614

(2) See Command Paper 6993

5. Installations for the extraction of asbestos and for the processing and transformation of asbestos and products containing asbestos—

- (a) for asbestos–cement products, with an annual production of more than 20,000 tonnes of finished products;
- (b) for friction material, with an annual production of more than 50 tonnes of finished products; and
- (c) for other uses of asbestos, utilisation of more than 200 tonnes per year.

6. Integrated chemical installations, that is to say, installations for the manufacture on an industrial scale of substances using chemical conversion processes, in which several units are juxtaposed and are functionally linked to one another and which are—

- (a) for the production of base organic chemicals;
- (b) for the production of basic inorganic chemicals;
- (c) for the production of phosphorous–, nitrogen– or potassium–based fertilisers (simple or compound fertilisers);
- (d) for the production of basic plant health products and of biocides;
- (e) for the production of basic pharmaceutical products using a chemical or biological process;
- (f) for the production of explosives.

7

- (a) Construction of lines for long–distance railway traffic and of airports with a basic runway length of 2,100 metres or more;
- (b) Construction of motorways and express roads;
- (c) Construction of a new road of four or more lanes, or realignment and/or widening of an existing road of two lanes or less so as to provide four or more lanes, where such new road, or realigned and/or widened section of road would be 10 kilometres or more in a continuous length.

8

- (a) Inland waterways and ports for inland–waterway traffic which permit the passage of vessels of over 1,350 tonnes;
- (b) Trading ports, piers for loading and unloading connected to land and outside ports (excluding ferry piers) which can take vessels of over 1,350 tonnes.

9. Waste disposal installations for the incineration, chemical treatment (as defined in Annex I to Directive [2008/98/EC](#)), of the European Parliament and of the Council on waste and repealing certain directives<sup>(3)</sup>, under heading D9) or landfill of hazardous waste (as defined in regulation 6 of the Hazardous Waste Regulations (Northern Ireland) 2005)<sup>(4)</sup>.

10. Waste disposal installations for the incineration or chemical treatment (as defined in Annex I to Directive [2008/98/EC](#) under heading D9) of non-hazardous waste with a capacity exceeding 100 tonnes per day.

11. Groundwater abstraction or artificial groundwater recharge schemes where the annual volume of water abstracted or recharged is equivalent to or exceeds 10 million cubic metres.

12

---

<sup>(3)</sup> O.J. No. L312, 22.11.08, p.3.

<sup>(4)</sup> [S.R. 2005 No. 300](#)

- (a) Works for the transfer of water resources, other than piped drinking water, between river basins where the transfer aims at preventing possible shortages of water and where the amount of water transferred exceeds 100 million cubic metres per year;
  - (b) In all other cases, works for the transfer of water resources, other than piped drinking water, between river basins where the multi-annual average flow of the basin of abstraction exceeds 2,000 million cubic metres per year and where the amount of water transferred exceeds 5% of this flow.
13. Waste water treatment plants with a capacity exceeding 150,000 population equivalent as defined in Article 2 point (6) of Directive [91/271/EEC](#)(**5**).
14. Extraction of petroleum and natural gas for commercial purposes where the amount extracted exceeds 500 tonnes per day in the case of petroleum and 500,000 cubic metres per day in the case of gas.
15. Dams and other installations designed for the holding back or permanent storage of water, where a new or additional amount of water held back or stored exceeds 10 million cubic metres.
16. Pipelines with a diameter of more than 800 millimetres and a length of more than 40 kilometres:
- for the transport of gas, oil or chemicals, or
  - for the transport of carbon dioxide streams for the purposes of geological storage, including associated booster stations.
17. Installations for the intensive rearing of poultry or pigs with more than—
- (a) 85,000 places for broilers or 60,000 places for hens;
  - (b) 3,000 places for production pigs (over 30 kg); or
  - (c) 900 places for sows.
18. Industrial plants for—
- (a) the production of pulp from timber or similar fibrous materials;
  - (b) the production of paper and board with a production capacity exceeding 200 tonnes per day.
19. Quarries and open-cast mining where the surface of the site exceeds 25 hectares, or peat extraction where the surface of the site exceeds 150 hectares.
20. Construction of overhead electrical power lines with a voltage of 220 kV or more and a length of more than 15 kilometres.
21. Installations for storage of petroleum, petrochemical or chemical products with a capacity of 200,000 tonnes or more.
22. Any change to or extension of development listed in this Schedule where such a change or extension itself meets the thresholds, if any, or description of development set out in this Schedule.
23. Storage sites pursuant to Directive [2009/31/EC](#) of the European Parliament and of the Council of 23 April 2009 on the geological storage of carbon dioxide(**6**).
24. Installations for the capture of carbon dioxide streams for the purposes of geological storage pursuant to Directive [2009/31/EC](#) from installations covered by this Schedule, or where the total yearly capture of carbon dioxide is 1.5 megatonnes or more.

---

(6) O.J. No. L140, 5.6.2009, p.114

## SCHEDULE 2

Regulation 2(2)

Descriptions of development and applicable thresholds and criteria  
for the purposes of the definition of “Schedule 2 development”

## 1. In the Table below—

“area of the works”, includes any area occupied by apparatus, equipment, machinery, materials, plant, spoil heaps or other facilities or stores required for construction or installation;

“floorspace”, means floorspace in a building or buildings;

“waterway” and “underground strata” have the meanings assigned to them by Article 2(2) of the Water (Northern Ireland) Order 1999(7).

2. The Table below sets out the descriptions of development and applicable thresholds and criteria for the purposes of classifying development as Schedule 2 development.

Column 1	Column 2
Description of development	Applicable thresholds and criteria
<b>The carrying out of development to provide any of the following—</b>	
1. Agriculture and aquaculture	
(a) Projects for the use of uncultivated land or semi-natural areas for intensive agricultural purposes;	The area of the development exceeds 0.5 hectare.
(b) Water management projects for agriculture, including irrigation and land drainage projects;	The area of the works exceeds 1 hectare.
(c) Intensive livestock installations (unless included in Schedule 1);	The area of floorspace exceeds 500 square metres.
(d) Intensive fish farming;	The installation resulting from the development is designed to produce more than 10 tonnes of dead weight fish per year.
(e) Reclamation of land from the sea.	All development.
2. Extractive industry	
(a) Quarries, open-cast mining and peat extraction (unless included in Schedule 1);	All development (except the construction of buildings or other ancillary structures where the floorspace does not exceed 1,000 square metres).
(b) Underground mining;	
(c) Extraction of minerals by fluvial or marine dredging;	All development.
(d) Deep drillings, in particular—	(i) In relation to any type of drilling the area of the works exceeds 1 hectare; or (ii) in relation to geothermal drilling and drilling for the storage of nuclear waste material only, drilling is to be undertaken
(i) geothermal drilling;	
(ii) drilling for the storage of nuclear waste material;	
(iii) drilling for water supplies;	

(7) [S.I. 1999 No. 662 \(N.I. 6\)](#) as amended by [S.I. 2006 No. 3336 \(N.I. 21\)](#)

<b>Column 1</b>	<b>Column 2</b>
<b>Description of development</b>	<b>Applicable thresholds and criteria</b>
with the exception of drillings for investigating the stability of the soil;	within 100 metres of any waterway or water in underground strata.
(e) Surface industrial installations for the extraction of coal, petroleum, natural gas and ores, as well as bituminous shale.	The area of the development exceeds 0.5 hectare.
<b>3. Energy industry</b>	
(a) Industrial installations for the production of electricity, steam and hot water (unless included in Schedule 1);	The area of the development exceeds 0.5 hectare.
(b) Industrial installations for carrying gas, steam and hot water;	The area of the works exceeds 1 hectare.
(c) Transmission of electrical energy by overhead cables (unless included in Schedule 1);	(i) The nominal voltage of the electric line exceeds 33kV; and (ii) the purpose of the line is the provision of a supply to more than one consumer; (iii) where the modification of an existing line is proposed, it is outside the tolerances specified in the Overhead Lines (Exemption) Regulations (Northern Ireland) 1992 (S.R. 1992 No. 118).
(d) Surface storage of natural gas; (e) Underground storage of combustible gases; (f) Surface storage of fossil fuels;	(i) the area of any building, deposit or structure exceeds 500 square metres; or (ii) a building, deposit or structure is to be sited within 100 metres of any waterway or water in underground strata.
(g) Industrial briquetting of coal and lignite;	The area of floorspace exceeds 1,000 square metres.
(h) Installations for the processing and storage of radioactive waste (unless included in Schedule 1);	(i) The area of floorspace exceeds 1,000 square metres; or (ii) the installation resulting from the development will require an authorisation or the variation of an authorisation under the Radioactive Substances Act 1993.
(i) Installations for hydroelectric energy production;	The installation is designed to produce more than 0.5 megawatts.
(j) Installations for the harnessing of wind power for energy production (wind farms).	(i) the development involves the installation of more than 2 turbines; or (ii) the hub height of any turbine or height of any other structure exceeds 15 metres.
(k) Installations for the capture of carbon dioxide streams for the purposes of geological storage pursuant to Directive	All development

*Status: This is the original version (as it was originally made).*

Column 1 Description of development	Column 2 Applicable thresholds and criteria
2009/31/EC from installations not included in Schedule 1.	
4. Production and processing of metals	
<ul style="list-style-type: none"> <li>(a) Installations for the production of pig iron or steel (primary or secondary fusion) including continuous casting;</li> <li>(b) Installations for the processing of ferrous metals—               <ul style="list-style-type: none"> <li>(i) hot-rolling mills;</li> <li>(ii) smitheries with hammers;</li> <li>(iii) application of protective fused metal coats.</li> </ul> </li> <li>(c) Ferrous metal foundries;</li> <li>(d) Installations for the smelting, including the alloyage, of non-ferrous metals, excluding precious metals, including recovered products (refining, foundry casting, etc.);</li> <li>(e) Installations for surface treatment of metals and plastic materials using an electrolytic or chemical process;</li> <li>(f) Manufacture and assembly of motor vehicles and manufacture of motor-vehicle engines;</li> <li>(g) Shipyards;</li> <li>(h) Installations for the construction and repair of aircraft;</li> <li>(i) Manufacture of railway equipment;</li> <li>(j) Swaging by explosives;</li> <li>(k) Installations for the roasting and sintering of metallic ores.</li> </ul>	<p>The area of floorspace exceeds 1,000 square metres.</p>
5. Mineral industry	
<ul style="list-style-type: none"> <li>(a) Coke ovens (dry coal distillation);</li> <li>(b) Installations for the manufacture of cement;</li> <li>(c) Installations for the production of asbestos and the manufacture of asbestos-based products (unless included in Schedule 1);</li> <li>(d) Installations for the manufacture of glass including glass fibre;</li> <li>(e) Installations for smelting mineral substances including the production of mineral fibres;</li> <li>(f) Manufacture of ceramic products by burning, in particular roofing tiles, bricks,</li> </ul>	<p>The area of floorspace exceeds 1,000 square metres.</p>

<b>Column 1</b>	<b>Column 2</b>
<b>Description of development</b>	<b>Applicable thresholds and criteria</b>
refractory bricks, tiles, stoneware or porcelain.	
6. Chemical industry (unless included in Schedule 1)	
(a) Treatment of intermediate products and production of chemicals; (b) Production of pesticides and pharmaceutical products, paint and varnishes, elastomers and peroxides;	The area of floorspace exceeds 1,000 square metres.
(c) Storage facilities for petroleum, petrochemical and chemical products.	(i) The area of any building or structure exceeds 0.05 hectare; or (ii) more than 200 tonnes of petroleum, petrochemical or chemical products is to be stored at any one time.
7. Food industry	
(a) Manufacture of vegetable and animal oils and fats; (b) Packing and canning of animal and vegetable products; (c) Manufacture of dairy products; (d) Brewing and malting; (e) Confectionery and syrup manufacture; (f) Installations for the slaughter of animals; (g) Industrial starch manufacturing installations; (h) Fish-meal and fish-oil factories; (i) Sugar factories.	The area of floorspace exceeds 1,000 square metres.
8. Textile, leather, wood and paper industries	
(a) Industrial plants for the production of paper and board (unless included in Schedule 1); (b) Plants for the pre-treatment (operations such as washing, bleaching, mercerisation) or dyeing of fibres or textiles; (c) Plants for the tanning of hides and skins; (d) Cellulose-processing and production installations.	The area of floorspace exceeds 1,000 square metres.
9. Rubber industry	
Manufacture and treatment of elastomer-based products.	The area of floorspace exceeds 1,000 square metres.
10. Infrastructure projects	
(a) Industrial estate development projects;	The area of the development exceeds 0.5 hectare.

*Status: This is the original version (as it was originally made).*

<b>Column 1</b> <b>Description of development</b>	<b>Column 2</b> <b>Applicable thresholds and criteria</b>
(b) Urban development projects, including the construction of shopping centres and car parks; (c) Construction of intermodal transshipment facilities and of intermodal terminals (unless included in Schedule 1);	
(d) Construction of railways (unless included in Schedule 1);	The area of the works exceeds 1 hectare.
(e) Construction of airfields (unless included in Schedule 1);	(i) The development involves an extension to a runway; or (ii) the area of the works exceeds 1 hectare.
(f) Construction of roads (unless included in Schedule 1);	The area of the works exceeds 1 hectare.
(g) Construction of harbours and port installations, including fishing harbours (unless included in Schedule 1);	The area of the works exceeds 1 hectare.
(h) Inland–waterway construction (unless included in Schedule 1), canalisation and flood–relief works; (i) Dams and other installations designed to hold water or store it on a long–term basis (unless included in Schedule 1); (j) Tramways, elevated and underground railways, suspended lines or similar lines of a particular type, used exclusively or mainly for passenger transport;	The area of the works exceeds 1 hectare.
(k) Oil and gas pipeline installations and pipelines for the transport of carbon dioxide streams for the purposes of geological storage (unless included in Schedule 1); (l) Installations of long–distance aqueducts;	(i) The area of the works exceeds 1 hectare; or, (ii) in the case of a gas pipeline, the installation has a design operating pressure exceeding 7 bar gauge.
(m) Coastal work to combat erosion and maritime works capable of altering the coast through the construction, for example, of dykes, moles, jetties and other sea defence works, excluding the maintenance and reconstruction of such works;	All development.
(n) Ground water abstraction and artificial ground water recharge schemes (unless included in Schedule 1); (o) Works for the transfer of water resources between river basins (unless included in Schedule 1).	The area of the works exceeds 1 hectare.

<b>Column 1</b>	<b>Column 2</b>
<b>Description of development</b>	<b>Applicable thresholds and criteria</b>
11. Other projects	
(a) Permanent racing and test tracks for motorised vehicles;	The area of the development exceeds 1 hectare.
(b) Installations for the disposal of waste (unless included in Schedule 1);	(i) The disposal is by incineration; or (ii) the area of the development exceeds 0.5 hectare; or (iii) the installation is to be sited within 100 metres of any waterway or water in underground strata or, marine waters.
(c) Waste-water treatment plants (unless included in Schedule 1);	The area of the development exceeds 1,000 square metres.
(d) Sludge-deposition sites; (e) Storage of scrap iron, including scrap vehicles;	(i) The area of the deposit or storage exceeds 0.5 hectare; or (ii) a deposit is to be made or scrap stored within 100 metres of any waterway or water in underground strata or, marine waters.
(f) Test benches for engines, turbines or reactors; (g) Installations for the manufacture of artificial mineral fibres; (h) Installations for the recovery or destruction of explosive substances; (i) Knackers' yards.	The area of floorspace exceeds 1,000 square metres.
12. Tourism and leisure	
(a) Ski-runs, ski-lifts and cable-cars and associated developments;	(i) The area of the works exceeds 1 hectare; or (ii) the height of any building or other structure exceeds 15 metres.
(b) Marinas;	The area of the enclosed water surface exceeds 1,000 square metres.
(c) Holiday villages and hotel complexes outside urban areas and associated developments; (d) Theme parks;	The area of the development exceeds 0.5 hectare.
(e) Permanent camp sites and caravan sites.	The area of the development exceeds 1 hectare.
13	
(a) Any change to or extension of development of a description listed in paragraphs 1 to 12 of column 1 of this table, where that development is already authorised, executed or in the process of being executed.	The thresholds and criteria in the corresponding part of column 2 of this table applied to the development as changed or extended are met or exceeded and in such a case the change or extension may have significant adverse effects on the environment;

*Status: This is the original version (as it was originally made).*

<b>Column 1</b>	<b>Column 2</b>	
<b>Description of development</b>	<b>Applicable thresholds and criteria</b>	
(b) Any change to or extension of development of a description listed in Schedule 1 (other than a change or extension falling within paragraph 22 of that Schedule) where that development is already authorised, executed or in the process of being executed.	The thresholds and criteria in column 2 of the paragraph of this table indicated below applied to the development as changed or extended are met or exceeded and in such a case the change or extension may have significant adverse effects on the environment.

	24 3 (k)
(c) Development of a description mentioned in Schedule 1, undertaken exclusively or mainly for the development and testing of new methods or products and not used for more than two years.	All development

## SCHEDULE 3

Regulation 2(2) definition of “selection criteria”

Selection criteria referred to in Article 4.3 of the Directive

**1. Characteristics of development**

The characteristics of development must be considered having regard, in particular, to—

- (a) the size of the development;
- (b) the cumulation with other development;
- (c) the use of natural resources;
- (d) the production of waste;
- (e) pollution and nuisances;
- (f) the risk of accidents, having regard in particular to substances or technologies used.

**2. Location of development**

The environmental sensitivity of geographical areas likely to be affected by development must be considered, having regard, in particular, to—

- (a) the existing land use;
- (b) the relative abundance, quality and regenerative capacity of natural resources in the area;
- (c) the absorption capacity of the natural environment, paying particular attention to the following areas—
  - (i) wetlands;
  - (ii) coastal zones;
  - (iii) mountain and forest areas;
  - (iv) nature reserves and parks;
  - (v) areas classified or protected under EEA states’ legislation; areas designated by EEA states pursuant to Council Directive 2009/147/EC on the conservation of wild birds<sup>(8)</sup> and Council Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and flora<sup>(9)</sup>;

<sup>(8)</sup> O.J. No. L 20, 26.1.2010, p7<sup>(9)</sup> O.J. No. L206, 22.7.92, p.7

*Status: This is the original version (as it was originally made).*

- (vi) areas in which the environmental quality standards laid down in Community legislation have already been exceeded;
- (vii) densely populated areas;
- (viii) landscapes of historical, cultural or archaeological significance.

### **3. Characteristics of the potential impact**

The potential significant effects of development must be considered in relation to criteria set out under paragraphs 1 and 2 above, and having regard in particular to—

- (a) the extent of the impact (geographical area and size of the affected population);
- (b) the transfrontier nature of the impact;
- (c) the magnitude and complexity of the impact;
- (d) the probability of the impact;
- (e) the duration, frequency and reversibility of the impact.

## SCHEDULE 4

Regulation 2 (2) – definition of  
“environmental statement”

### Matters for Inclusion in Environmental Statement

## PART 1

1. Description of the development, including in particular—
  - (a) a description of the physical characteristics of the whole development and the land–use requirements during the construction and operational phases;
  - (b) a description of the main characteristics of the production processes, for instance, nature and quantity of the materials used;
  - (c) an estimate, by type and quantity, of expected residues and emissions (water, air and soil pollution, noise, vibration, light, heat, radiation, etc.) resulting from the operation of the proposed development.
2. An outline of the main alternatives studied by the applicant or appellant and an indication of the main reasons for his choice, taking into account the environmental effects.
3. A description of the aspects of the environment likely to be significantly affected by the development, including, in particular, population, fauna, flora, soil, water, air, climatic factors, material assets, including the architectural and archaeological heritage, landscape and the inter-relationship between the above factors.
4. A description of the likely significant effects of the development on the environment, which should cover the direct effects and any indirect, secondary, cumulative, short, medium and long-term, permanent and temporary, positive and negative effects of the development, resulting from:
  - (a) the existence of the development;
  - (b) the use of natural resources;
  - (c) the emission of pollutants, the creation of nuisances and the elimination of waste,

and the description by the applicant or appellant of the forecasting methods used to assess the effects on the environment.

5. A description of the measures envisaged to prevent, reduce and where possible offset any significant adverse effects on the environment.

6. A non-technical summary of the information provided under paragraphs 1 to 5 of this Part.

7. An indication of any difficulties (technical deficiencies or lack of know-how) encountered by the applicant or appellant in compiling the required information.

## PART 2

1. A description of the development comprising information on the site, design and size of the development.

2. A description of the measures envisaged in order to avoid, reduce and, if possible, remedy significant adverse effects.

3. The data required to identify and assess the main effects which the development is likely to have on the environment.

4. An outline of the main alternatives studied by the applicant or appellant and an indication of the main reasons for his choice, taking into account the environmental effects.

5. A non-technical summary of the information provided under paragraphs 1 to 4 of this Part.

## SCHEDULE 5

Regulation 45(3)

### Saving and transitional provisions

## PART 1

### Modifications of Statutory Rules

#### **The Planning (Environmental Impact Assessment) Regulations (Northern Ireland) 1999**

<i>Provision of Regulation to be modified</i>	<i>Modification</i>
Regulation 1 (Citation and commencement)	None
Regulation 2(2) (Interpretation)	After “the 1991 Order” insert ““the 2011 Act” means the Planning Act (Northern Ireland) 2011;”  After “the Commission” insert ““council” means a district council;”  In the definition of “local advertisement (b)” for “where the Department, or the Commission” substitute “where the Department, council, or the Commission”
Regulation 3 (Directions)	None

*Status: This is the original version (as it was originally made).*

<i>Provision of Regulation to be modified</i>	<i>Modification</i>
Regulation 3A	None
Regulation 4(1) (Prohibition on the grant of planning permission or subsequent consent without consideration of environmental information)	In each instance for the words “by the Department” substitute “by a council or the Department”.
Regulation 4(2)	For the words “The Department or the Commission” substitute “A council, the Department or the Commission”.
	After paragraph (2) insert “(3) Paragraph (2) applies to a council where an application to which these Regulations apply is to be treated as having been made to it under the 2011 Act by virtue of paragraph 2 of Schedule 2 to the Planning (2011 Act) (Commencement No. 3) and (Transitional Provisions) Order (Northern Ireland) 2015.”
Regulation 5(1) (Confirmation that development is EIA development)	None
Regulation 5(2)(a)	None
Regulation 5(2)(b)	In each instance for the words “by the Department” substitute “by the council or by the Department”.
Regulation 5A (1) (Appeals under Article 32 or Article 33)	For the words “on the Department” substitute “on the council or on the Department”.
Regulation 5A(2) to (4)	None
Regulation 6 (Pre-application determination as to need for environmental impact assessment and opinion as to content of environmental statement)	None
Regulation 7(1) (Procedure to facilitate preparation of environmental statements)	For the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 7(2)	None
Regulation 7(3)	For the words “the Department” substitute “the council or, as the case may be, the Department”.
	In sub-paragraph (3)(b)(i) for the words “the district council” substitute “such district councils as are”.
Regulation 8(1) (Provision of information)	For the words “by the Department” substitute “by the council or, as the case may be, the Department”.
Regulation 8(2)	For the words “by the Department” substitute “by the council or, as the case may be, the Department”.

<i>Provision of Regulation to be modified</i>	<i>Modification</i>
	None
Regulation 9 (Application made to the Department without prior determination as to need for environmental impact assessment or without an environmental statement)	In the heading for the words “the Department” substitute “the council or the Department”.
Regulation 9(1) to (5)	For the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 9(6)	For the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 9(6)(a) and (b)	For the words “the Department’s” substitute “the council’s or, as the case may be, the Department’s”.
Regulation 9(7)	For the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 9(7A)	None
Regulation 9(8)	In each instance for the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 9(9)	In the first instance for the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 9(10)	In the second instance for the words “the Department’s” substitute “the council’s or, as the case may be, the Department’s”.
	For the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 10 (Extension of the period for Department’s decision on an application for planning permission or subsequent application)	In the heading for the words “for Department’s” substitute “for council’s or Department’s”.
Regulation 10(a)	None
Regulation 10(b)	In (bb) for the words “the Department” substitute “the council or, as the case may be, the Department”.
Regulation 10(c)	None
Regulation 11 (Application of Article 31 of the 1991 Order)	None

## PART 2

### The Planning (Environmental Impact Assessment) Regulations (Northern Ireland) 1999 as modified

#### **Interpretation**

2.—(1) The Interpretation Act (Northern Ireland) 1954 shall apply to these regulations as it applies to a Measure of the Northern Ireland Assembly.

(2) In these regulations—

“the 2011 Act” means the Planning Act (Northern Ireland) 2011;”

“council” means a district council;”

“local advertisement”, in relation to a notice, means—

- (a) by publication of the notice in at least one newspaper circulating in the locality in which the land to which the application or appeal relates is situated; and
- (b) where the Department, council or the Commission maintain a website for the purpose of advertisement of applications, by publication of the notice on the website;

#### **Prohibition on the grant of planning permission or subsequent consent without consideration of environmental information**

4.—(1) This regulation applies—

- (a) to every application for planning permission for EIA development received by a council or the Department on or after the commencement of these Regulations; and
- (b) to every subsequent application in respect of EIA development received by a council or the Department on or after the commencement of these Regulations but which was not determined by 1st October 2008;

and for the purposes of this paragraph, the date of receipt of an application by a council or the Department shall be determined in accordance with Article 11 (time periods for decisions) of the General Development Order as applied by regulation 10.

(2) A council, the Department or the Commission, as the case may require, shall not grant planning permission or subsequent consent pursuant to an application to which this regulation applies unless they have first taken the environmental information into consideration, and they shall state in their decision that they have done so.

(3) Paragraph (2) applies to a council where an application to which these Regulations apply is to be treated as having been made to that council under the 2011 Act by virtue of paragraph 2 of Schedule 2 to the Planning (2011 Act) (Commencement No. 3) and (Transitional Provisions) Order (Northern Ireland) 2015.

#### **Confirmation that development is EIA development**

5.—(1) Subject to any direction of the Department under regulation 3, the occurrence of an event mentioned in paragraph (2) shall determine, for the purposes of these regulations, that development is EIA development.

(2) The events referred to in paragraph (1) are—

- (a) the submission by the applicant or appellant, in relation to that development, of a statement referred to by the applicant or appellant as an environmental statement for the purposes of these regulations; or

- (b) the determination by the council or by the Department, or following a hearing by the Commission, confirmation by the council or by the Department, that the development is EIA development.

**“Appeals under Article 32 or Article 33**

5A.—(1) Where an appeal is made to the Commission under Article 32 or 33 of the 1991 Order, the functions conferred on the council or on the Department by Part III to Part VI of these Regulations shall be exercisable by the Commission in respect of that appeal.

(2) For the purposes of paragraph (1), regulation 9 (6) shall be amended as follows—

“**(6)** An appellant receiving a notification pursuant to paragraph (3) shall, within 4 weeks from the date of the determination, inform the Commission, in writing, that he—

- (a) accepts the Commission’s determination and proposes to provide an environmental statement; or
- (b) does not accept the Commission’s determination.”.

(3) For the purposes of paragraph (1), regulation 9 (7A) does not apply.

(4) For the purposes of paragraph (1), the phrase “and the deemed refusal shall not give rise to an appeal to the Commission by virtue of Article 32 (appeals) or Article 33 (appeal in default of planning decision)” contained in regulation 9(7), 9(8) and 15(2A) shall not have effect.”

**Procedure to facilitate preparation of environmental statements**

7.—(1) A developer may give the council or, as the case may be, the Department notice in writing under this paragraph that he intends to submit an environmental statement.

(2) A notice under paragraph (1) shall include or be accompanied by the information necessary to identify the land and the nature and purpose of the development, and shall indicate the main environmental consequences to which the person giving notice proposes to refer in his environmental statement.

(3) Where the council or, as the case may be, the Department receives—

- (a) such a notice as is mentioned in paragraph (1); or
- (b) such a statement as is mentioned in regulation 6(10)(a);

it shall notify—

- (i) such district councils as are in the area in which the land to which the proposal relates is situated of the details of the proposed development; and
- (ii) such other authorities likely to be concerned by the proposed development by reason of their specific environmental responsibilities,

of the name and address of the developer and of the duty imposed on them by regulation 8(1) to make information available to the developer; and

- (iii) inform the developer in writing of the names and addresses of the bodies so notified.

**Provision of information**

8.—(1) Subject to paragraph (2), any body notified by the council or, as the case may be, the Department pursuant to regulation 7(3) shall, if requested by the developer, or may without such request, enter into consultation with him with a view to ascertaining whether the body has information in its possession which he or they consider relevant to the preparation of the environmental statement, and shall make that information available to him.

(2) Paragraph (1) shall not require the disclosure by a body of information which is capable of being treated as confidential or must be so treated under regulation 5 of the Environmental Information Regulations (Northern Ireland) 1993(10).

**Application made to the council or the Department without prior determination as to need for environmental impact assessment or without an environmental statement**

9.—(1) Where it appears to the council or, as the case may be, the Department that an application for planning permission or a subsequent application—

- (a) is a Schedule 1 application or a Schedule 2 application;
- (b) has not been the subject of a determination as to whether the application is or is not an EIA application; or in the case of a subsequent application has been the subject of a determination before planning permission was granted to the effect that it is not EIA development; and
- (c) is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these regulations,

it shall make a determination as to whether the application is for EIA development, taking into account the selection criteria.

(2) If the council or, as the case may be, the Department considers that it has not been provided with sufficient information to make a determination, it shall notify the applicant of the particular points on which it requires further information.

(3) Where an EIA application, including an application determined as such under paragraph (1), is not accompanied by an environmental statement or a statement referred to by the applicant as an environmental statement, the council or, as the case may be, the Department shall notify the applicant in writing that the submission of such a statement is required, giving clearly and precisely the full reasons for its view.

(4) Subject to paragraph (5), the council or, as the case may be, the Department shall make a determination under paragraph (1) and, where necessary, notify the applicant in accordance with paragraph (3) within 4 weeks from the date of receipt of the application or such longer period as may be agreed in writing with the applicant.

(5) Where additional information is requested under paragraph (2), the council or, as the case may be, the Department shall notify the applicant of its determination within a period of 4 weeks from the date of receipt of the additional information.

(6) An applicant receiving a notification pursuant to paragraph (3) shall, within 4 weeks from the date of the determination, inform the council or, as the case may be, the Department, in writing, that he—

- (a) accepts the council's or, as the case may be, the Department's determination and proposes to provide an environmental statement; or
- (b) does not accept the council's or, as the case may be, the Department's determination and proposes to seek a hearing before the Commission.

(7) If the applicant does not inform the council or, as the case may be, the Department in writing in accordance with paragraph (6), the permission or subsequent consent sought shall be deemed to be refused at the end of the relevant 4 week period; and the deemed refusal shall not give rise to an appeal to the Commission by virtue of Article 32 (appeals) or Article 33 (appeal in default of planning decision).

---

(10) S.R. 1993 No. 49 as amended by S.R. 1998 No. 238

*Status: This is the original version (as it was originally made).*

“(7A) Where, following receipt of a notification pursuant to paragraph (3), an applicant proposes to seek a hearing before the Commission, he shall by notice in writing inform the Commission to such effect within 4 weeks from the date of the notification.”

(8) Where the council or, as the case may be, the Department determines, or following a hearing by the Commission confirms, that an environmental statement is required, the statement shall be submitted within 6 months from the date of determination or such extended period as may be agreed in writing between the applicant and the council or, as the case may be, the Department, and if not so submitted, the application for planning permission or subsequent application shall be deemed to be refused and the deemed refusal shall not give rise to an appeal to the Commission by virtue of Article 32 (appeals) or Article 33 (appeal in default of planning decision).

(9) Where, following a hearing by the Commission, the council or, as the case may be, the Department withdraws its determination that an environmental statement is required, the period within which the application for planning permission or subsequent application is to be determined shall be calculated from the date of notice to the applicant of the council’s or, as the case may be, the Department’s withdrawal.

(10) Where the council or, as the case may be, the Department makes a determination under paragraph (1) that an environmental statement is required or confirms a determination under paragraph (8), regulations 7(3) and 8 shall apply.

#### **Extension of the period for council’s or Department’s decision on an application for planning permission or subsequent application**

10. Where an application for planning permission or subsequent application is an EIA application, Articles 11 and 12 of the General Development Order shall have effect as if—

- (a) for the reference in paragraph (2)(a) of Article 11 and in Article 12 to a period of 2 months from the date the application was received there were substituted a reference to a period of 16 weeks; and
- (b) after paragraph (3)(b) of Article 11 there were inserted—
  - “(ba) the environmental statement required to be submitted in respect of the application has been submitted, together with the documents required to accompany that statement; and
  - (bb) in the case of an application falling within regulation 9 (1) where the council or, as the case may be, the Department has requested further information in order to make a determination under regulation 9 (2), when that information was received; and
  - (bc) where evidence verifying information in the environmental statement has been requested, when that evidence was received; and”;
- (c) the date when an application is received for the purposes of Article 12 were the date when each of the events referred to in Article 11 (3) (ba) to (bc) has occurred in relation to that application.

#### **Publicity where an environmental statement is submitted**

11. Where an environmental statement is submitted, the developer shall make it available to the public, and the council or, as the case may be, the Department shall, when it receives the environmental statement—

- (a) publish notice of the application for planning permission or subsequent application by local advertisement, allowing the public a period of 4 weeks from the date on which the notice is first published, in which to make representations;

- (b) state in the notice that-
  - (i) the application for planning permission or subsequent application is accompanied by an environmental statement; and,
  - (ii) in the case of a subsequent application, that a copy of the planning permission and supporting documents for the development in respect of which the application has been made may be inspected by members of the public at all reasonable hours at the relevant office of the council or, as the case may be, the Department;
- (c) give in the notice, a postal address (within the locality in which the land proposed to be developed is situated) at which copies of the environmental statement may be obtained from the developer, so long as stocks last, and if a charge is to be made for a copy, state the amount of the charge; and
- (d) where it is aware of any particular person who is or is likely to be affected by, or has an interest in, the application for planning permission or subsequent application, and who is unlikely to become aware of it by means of a local advertisement, send a notice to such person containing the details set out in paragraphs (a) – (c) and the address of the relevant office of the council or, as the case may be, the Department.

#### **Availability of copies of environmental statement**

12. A developer who submits an environmental statement shall—
- (a) ensure that a reasonable number of copies are made available at the address given in the notice pursuant to regulation 12(c); and
  - (b) provide the council or, as the case may be, the Department with sufficient copies of it, or parts thereof, to enable the council or, as the case may be, the Department to comply with regulation 14 and 3 additional copies.

#### **Consultation where environmental statement submitted**

13.—(1) Where the council or, as the case may be, the Department receives an environmental statement in relation to a proposed development, it shall consult the councils and bodies mentioned in regulation 7(3) and inform them that they may make representations.

(2) The council or, as the case may be, the Department shall give not less than 4 weeks notice to bodies consulted under paragraph (1) that environmental information is to be taken into account in determining the application for planning permission or subsequent application.

#### **Further information and evidence relating to environmental statement**

- 14.—(1) Where the council or, as the case may be, the Department is of the opinion that—
- (a) the applicant could have provided further information about any of the matters mentioned in Schedule 4; and
  - (b) that further information is reasonably required to give proper consideration to the likely environmental effects of the proposed development,

it may request the applicant, by notice in writing, to submit such further information.

(2) The council or, as the case may be, the Department may, by notice in writing, require an applicant to produce such evidence as it may reasonably call for to verify any information in his environmental statement.

“(2A) On receipt of a request under paragraphs (1) and (2) the applicant shall submit the further information or evidence within three months from the date of the request or such extended period as may be agreed in writing between the applicant and the council or, as

*Status: This is the original version (as it was originally made).*

the case may be, the Department, and if not so submitted the application shall be deemed to be refused and the deemed refusal shall not give rise to an appeal to the Commission by virtue of Article 32 (appeals) or Article 33 (appeal in default of planning decision).”

(3) Regulations 12 to 14 shall apply where such further information and any other information is received by the council or, as the case may be, the Department in relation to an environmental statement, as if references to “environmental statement” were references to “further information and any other information”.

### **Duty to inform the public of decisions**

17.—(1) Where an EIA application is determined, the council or, as the case may be, the Department shall inform the public of the decision by local advertisement or by such other means as are reasonable in the circumstances.

(2) Where, after environmental information has been taken into consideration, an EIA application is determined by the Commission, the Commission shall—

- (a) notify the council of its decision; and
- (b) provide the council with a copy of a statement containing—
  - (i) the contents of the decision and the conditions attached thereto;
  - (ii) the main reasons for the decision and the considerations on which the decision was based including, if relevant, information about the participation of the public;
  - (iii) a description, where necessary, of the main measures to avoid, reduce and, if possible, offset the major adverse effects of the development; and
  - (iv) information regarding the right to challenge the validity of the decision and the procedures for doing so.

(3) The council shall, as soon as reasonably practicable after receipt of the notification under paragraph (2), comply with paragraph (1) as if the decision so notified was a decision of the council.

### **Development likely to have significant effects on the environment in another EEA state**

18.—(1) Where—

- (a) it comes to the attention of the council or, as the case may be, the Department that proposed development is the subject of an EIA application and is likely to have significant effects on the environment in another EEA state; or
- (b) another EEA state likely to be significantly affected by such development so requests,

the council or, as the case may be, the Department shall—

- (i) publish a notice in the Belfast Gazette giving the address of the proposed development, stating that it is accompanied by an environmental statement and that it is likely to have significant effects on the environment of another EEA state and giving an address at which further information may be obtained;
- (ii) send to the EEA state as soon as possible and no later than the date of publication of the notice referred to in paragraph (i), the particulars mentioned in paragraph (2) and, if the council or, as the case may be, the Department thinks fit, the information referred to in paragraph (3); and
- (iii) give the EEA state a reasonable time in which to indicate whether it wishes to participate in the procedure for which these regulations provide.

(2) The particulars referred to in paragraph (1)(ii) are —

- (a) a description of the development, together with any available information on its possible significant effect on the environment in another EEA state; and
  - (b) information on the nature of the decision which may be taken.
- (3) Where a EEA state indicates in accordance with paragraph (1)(iii), that it wishes to participate in the procedure for which these regulations provide, the council or, as the case may be, the Department shall send to that EEA state—
- (a) a copy of the application concerned;
  - (aa) a copy of any planning permission relating to the development;
  - (b) a copy of any environmental statement in respect of the development to which that application relates; and
  - (c) relevant information regarding the procedure under these regulations,
- unless that information has already been provided to the EEA state earlier in accordance with paragraph (1)(ii).
- (4) The council or, as the case may be, the Department shall also—
- (a) arrange for the particulars and information referred to in paragraphs (2) and (3) and any further information and any other information to be made available, within a reasonable time, to the authorities referred to in Article 6.1 of the Directive and to the public concerned in the territory of the EEA state likely to be significantly affected; and
  - (b) ensure that those authorities and the public concerned are given an opportunity, before planning permission or subsequent consent for the development is granted, to forward to the council or, as the case may be, the Department, within a reasonable time, their opinion on the information supplied.
- (5) The council or, as the case may be, the Department shall in accordance with Article 7.4 of the Directive—
- (a) enter into consultations with the EEA state concerned regarding, inter alia, the potential significant effects of the development on the environment of that EEA state and the measures envisaged to reduce or eliminate such effects; and
  - (b) determine, in agreement with the other EEA state, a reasonable period of time for the duration of the consultation period.
- (6) Where a EEA state has been consulted in accordance with paragraph (3), on the determination of the application concerned, the council or, as the case may be, the Department shall inform the EEA state and shall forward to it a statement of—
- (a) the content of the decision and any conditions attached thereto;
  - (b) the main reasons and considerations on which the decision is based including, if relevant, information about the participation of the public; and
  - (c) a description, where necessary, of the main measures to avoid, reduce and, if possible, offset the major adverse effects of the development.

#### **Projects in another EEA state likely to have significant transboundary effects**

19.—(1) Where the council or, as the case may be, the Department receives from another EEA state pursuant to Article 7.1 or 7.2 of the Directive information which the EEA state has gathered from the developer of a proposed project in that EEA state which is likely to have significant effects on the environment in Northern Ireland, the council or, as the case may be, the Department shall, in accordance with Article 7.4 of the Directive—

*Status: This is the original version (as it was originally made).*

- (a) enter into consultations with that EEA state regarding, inter alia, the potential significant effects of the proposed project on the environment in Northern Ireland and the measures envisaged to reduce or eliminate such effects; and
  - (b) determine in agreement with that EEA state a reasonable period, before development consent for the project is granted, during which members of the public in Northern Ireland may submit to the competent authority in that EEA state representations pursuant to Article 7.3(b) of the Directive.
- (2) The council or, as the case may be, the Department, in so far as it is concerned, shall also—
- (a) arrange for the information referred to in paragraph (1) to be made available, within a reasonable time, both to the authorities in Northern Ireland which it considers are likely to be concerned by the project by reason of their specific environmental responsibilities, and to the public concerned in Northern Ireland;
  - (b) ensure that those authorities and the public concerned in Northern Ireland are given an opportunity before development consent for the project is granted, to forward to the competent authority in the relevant EEA state, within a reasonable time, their opinion on the information supplied; and
  - (c) so far as it has received such information, notify those authorities and the public concerned of the content of any decision of the competent authority of the relevant EEA state; and in particular—
    - (i) any conditions attached to it;
    - (ii) the main reasons and considerations on which the decision was based including, if relevant, information about the participation of the public; and
    - (iii) a description of the main measures to avoid, reduce and, if possible, offset any major adverse effects that have been identified.

**Determination as to need for environmental statement, etc.**

22.—(1) Where it appears to the council or, as the case may be, the Department that the matters constituting the breach of planning control comprise Schedule 1 or Schedule 2 development, the council or, as the case may be, the Department shall, before the enforcement notice is issued, make a determination, taking into account the selection criteria, as to whether the development is or is not EIA development.

(2) Where it appears to the council or, as the case may be, the Department that the matters constituting the breach of planning control comprise or include EIA development it shall serve with a copy of the enforcement notice a notice (“regulation 22 notice”) which shall—

- (a) include a copy of the determination required by paragraph (1) and a written statement giving clearly and precisely full reasons for its conclusions; and
- (b) require a person who gives notice of an appeal under Article 69 (appeal against enforcement notice) to submit to the Commission with the notice sufficient copies of the environmental statement relating to the unauthorised development to enable the Commission to comply with regulation 25.

(3) The council or, as the case may be, the Department shall send a copy of the regulation 22 notice to—

- (a) the Commission;
- (b) such district councils as are in the area in which the land to which the unauthorised development relates is situated;
- (c) any other authorities likely to be concerned by the unauthorised development by reason of their specific environmental responsibilities; and

(d) any particular person of whom it is aware, who is likely to be affected by, or has an interest in, the regulation 22 notice.

(4) Where the council or, as the case may be, the Department serves the Commission with a copy of a regulation 22 notice it shall also provide it with a list of the other persons to whom, in accordance with paragraph (3), a copy of the notice has been or is to be sent.

(5) Where a person gives notice of appeal under Article 69 and the council or, as the case may be, the Department has served on that person a regulation 22 notice with which he does not agree, that person may by notice in writing, within 4 weeks of the service of the enforcement notice, inform the council or, as the case may be, the Department that he proposes to seek a hearing before the Commission.

(6) Where, in relation to paragraph (5), a person proposes to seek a hearing before the Commission, that person shall by notice in writing, inform the Commission to such effect within 4 weeks of the service of the enforcement notice.

### **Time period for submission of environmental statement**

23. Where the council or, as the case may be, the Department determines, or following a hearing by the Commission confirms that an environmental statement is required, it shall be submitted to the Commission within 6 months from the date of the determination or such extended period as may be agreed in writing between the applicant and the Commission and if not so submitted the deemed application for planning permission and the ground (a) appeal (if any) shall lapse at the end of that period.

### **Procedure where the Commission receives an environmental statement**

25.—(1) Where the Commission receives an environmental statement, or a statement referred to by the appellant as an environmental statement, in connection with an enforcement appeal it shall serve a copy on the council or, as the case may be, the Department and those bodies on whom a copy of the regulation 22 notice was served.

(2) The Commission shall give not less than 4 weeks notice to the council or, as the case may be, the Department and the bodies referred to in paragraph (1) that environmental information will be taken into consideration in determining the ground (a) appeal (if any) and inform them that they may make representations.

### **Further information and evidence respecting environmental statements**

26.—(1) Regulation 15(1) and (2) shall apply in relation to further information as if “the Commission” was substituted for “the council, or as the case may be, the Department” and the word “appellant” was substituted for the word “applicant”.

(2) If an appellant on whom notice has been given under paragraph (1) fails to provide the further information within the period specified in the notice, the deemed application and the ground (a) appeal (if any) shall lapse at the end of that period.

(3) Regulations 25 (procedure where the Commission receives an environmental statement) and 27 (publicity for environmental statements and decisions) shall apply in relation to further information received by the Commission in accordance with paragraph (1) as if references in those regulations to an environmental statement were references to the further information.

(4) The Commission shall send the council or, as the case may be, the Department a copy of any notice sent to the applicant under paragraph (1).

### **Publicity for environmental statements and decisions**

27.—(1) Where the Commission receives a copy of an environmental statement, or a statement submitted by the appellant referred to as an environmental statement either of which is accompanied by further information and any other information, in connection with an enforcement appeal it shall publish by local advertisement a notice stating—

- (a) the name of the appellant and that he has appealed to the Commission against the enforcement notice;
- (b) the address or location of the land to which the notice related and the nature of the development;
- (c) that a copy of the environmental statement and further information and any other information may be inspected by members of the public at all reasonable hours;
- (d) an address in the locality at which the statement and further information and any other information may be inspected and the latest date it will be made available for inspection, being a period of 4 weeks from the date of the first publication of the notice;
- (e) that any person wishing to make representations about any matter dealt with in the statement and further information and any other information should make them in writing, no later than 4 weeks after the date of the first publication of the notice; and
- (f) the address to which such representations are to be sent.

(2) Where the Commission determines the ground (a) appeal it shall inform the council or, as the case may be, the Department of its decision and the provisions of regulation 17 (duty to inform the public of decisions) shall apply to any grant of planning permission under Article 71 as they apply to a grant of planning permission under Part IV of the 1991 Order.

### **Involvement of other EEA states**

28. Regulation 18 (development likely to have significant effects on the environment in another EEA state) shall apply subject to the following modifications

- (a) for regulation 18(1)(a) substitute—
  - “(a) on the consideration of an appeal under Article 69 (appeal against enforcement notice), the Commission is of the opinion that matters which are alleged to constitute the breach of planning control comprise or include EIA development and the development has or is likely to have significant effects on another EEA state, it shall notify the council or, as the case may be, the Department; and”;
- (b) in regulation 18(1)(i) delete the word “proposed”;
- (c) in regulation 18(3)(a) for the words “a copy of the application concerned” substitute the words “a description of the development concerned”; and
- (d) in regulation 18(3)(b) for “that application” substitute “the deemed application under Article 71(3)”.

### **Availability of information in relation to determinations, opinions, decisions, etc.**

34. The council shall make available for public inspection at all reasonable hours at the place where—

- (1) a register pursuant to article 18 of the General Development Order is kept, a copy of —
  - (a) any determination or opinion given pursuant to regulation 6(1) or 9(1), notification under regulation 9(3), or determination confirmed or amended under regulation 35(2) together with the accompanying statement of reasons, the relevant request and the documents which accompanied it;

- (b) any environmental statement and further information and any other information received under these regulations; and
- (c) where environmental information has been taken into consideration in determining an application for planning permission or subsequent application or appeal, a statement containing—
  - (i) the content of the decision and any conditions attached thereto;
  - (ii) the main reasons and considerations on which the decision is based including, if relevant, information about the participation of the public;
  - (iii) a description, where necessary, of the main measures to avoid, reduce and, if possible, offset the major adverse effects of the development; and
  - (iv) information regarding the right to challenge the validity of the decision and the procedures for doing so.
- (2) a register pursuant to article 20 of the General Development Order is kept, a copy of—
  - (a) every regulation 22 notice served by the council or, as the case may be, the Department;
  - (b) every determination made by the council or, as the case may be, the Department in accordance with regulation 22(2) or notice confirmed or amended under regulation 35(2) in respect of a deemed application under Part VII;
  - (c) every environmental statement or additional information received by the council or, as the case may be, the Department by virtue of regulation 25(1); and
  - (d) every notice received by the council or, as the case may be, the Department under regulation 26(4).
- (3) a register kept pursuant to article 22 of the General Development Order is kept, a copy of any direction given by the Department pursuant to regulation 3 (a) and (b), and any information obtained under regulation 3A.
- (4) Where the registers kept under this regulation are kept using electronic storage, the council may make the registers available for inspection by the public on a website maintained by the council for that purpose.

#### **Hearing by the Commission in relation to the Department's determination**

35.—(1) Where a person seeks a hearing before the Commission under regulations 6(10), 9(6) or 22(5) it shall afford that person the opportunity of appearing before and being heard by the Commission

(2) Where a hearing is held, the council or, as the case may be, the Department shall consider the report of the Commission and may confirm, amend or withdraw its determination.
