
STATUTORY RULES OF NORTHERN IRELAND

2016 No. 244

The Seed Marketing Regulations (Northern Ireland) 2016

PART 3

Marketing seed

Crop inspections

12. A crop inspection for certification must be carried out by a licensed crop inspector; except for the inspection of—

- (a) a crop intended for the production of pre-basic or basic seed; or
- (b) a crop producing seed when the entry of seed under regulation 11 was too late to allow the Department to grow a control plot,

when the inspection must be carried out by an official crop inspector appointed by the Department for the purpose of such an inspection.
