

SCHEDULE 3

Labelling and loose sales

PART 3

Additional requirements for official labels for specific species

Additional requirements for cereal seed

11.—(1) An official label for C1 and C2 naked barley must include the words “minimum germination capacity 75%”.

(2) An official label for basic cereal seed of varieties that are hybrids or inbred lines must include—

- (a) for basic seed where the hybrid or inbred line to which the seed belongs has been accepted on to the National List or the Common Catalogue, the name under which it has been officially accepted, with or without reference to the final variety, and if the seed is intended solely as a component for final varieties the word “component”;
- (b) for basic seed in other cases the name of the component to which the basic seed belongs, which may be given in code form, accompanied by a reference to the final variety, with or without reference to its function (male or female) by the word “component”.

(3) An official label for certified cereal seed (CS, C1 or C2) of varieties that are hybrids or inbred lines must include the word “hybrid” after the variety.

(4) Where seed is marketed as being of the higher voluntary standard the label must contain the letters HVS.
