

SCHEDULE 2

CONDITIONS AND REQUIREMENTS TO BE COMPLIED WITH BY THE RAILWAY UNDERTAKING

9. Visual indicators and an audible alarm shall be provided at the control point. The indicators shall show when:

- (a) the main power supply is available;
- (b) all the barriers are fully raised;
- (c) all the barriers are fully lowered;
- (d) at least one of the intermittent red lights of the traffic light signals on each side of the railway is showing along the carriageway.
