The Department of the Environment, in exercise of the powers conferred upon it by Article 4(3) of the Waste and Contaminated Land (Northern Ireland) Order 1997(1) and having particular regard to the matters specified in Article 4(4) of that Order, makes the following Regulations.

Citation, commencement and interpretation

1. These Regulations may be cited as the Waste Management Licensing (Amendment) Regulations (Northern Ireland) 2016 and shall come into operation on 5th September 2016.

Amendment of the Waste Management Licensing Regulations (Northern Ireland) 2003

2. The Waste Management Licensing Regulations (Northern Ireland) 2003(**2**) are amended in accordance with regulation 3.

3.—(1) Part 1 of Schedule 2 is amended in accordance with paragraphs (2) to (8).

(2) For paragraph 12 substitute—

"12.—(1) Subject to the conditions specified in sub-paragraph (3), carrying on at any place, in respect of waste of a type identified by the six-digit EWC Code in Column 1 of Table 5 and referred to by the corresponding waste description in Column 2 of that Table, any of the activities specified in Column 3 of that Table in relation to that type of waste where the activity is carried on with a view to the recovery or re-use of the waste (whether or not by the person carrying on the activity specified in that Table).

(2) Subject to the conditions specified in sub-paragraph (3), the storage of waste of a type identified by the six-digit EWC Code in Column 1 of Table 5A and referred to by the corresponding waste description in Column 2 of that Table if the waste is to be reused or used for the purpose of—

⁽¹⁾ S.I. 1997/2778 (N.I.19) as amended

⁽²⁾ S.R. 2003 No. 493 as amended

- (a) an activity specified in Column 3 of Table 5; or
- (b) any other recovery operation.

(3) The specified conditions are that—

- (a) the total volume of each type of waste on site at any one time does not exceed the limits specified in Column 5 of Table 5 and Column 4 of Table 5A in relation to that type of waste;
- (b) the combined total volume of all wastes on site at any one time does not exceed $100m^3$ (whether before, during or after processing);
- (c) the waste arrives at the place where the activity is carried on unmixed with any other type of waste;
- (d) each type of waste is treated and stored separately;
- (e) no waste is stored for longer than 12 months;
- (f) the site has, and is operated in accordance with, planning permission, where such permission is required; and
- (g) the activity complies with the additional specified conditions in Column 4 of Table 5 and Column 3 of Table 5A."
