- (b) a responsible authority elsewhere in the United Kingdom; ^{F1}...
- (c) a responsible authority in [^{F2}a member State; or]
- [^{F3}(d) a competent authority outside the United Kingdom if the Department is satisfied that those growing trials are of equivalent standards to those carried out by, or on behalf of, the Department.]

(3) The Department may register a variety that has been marketed within the European Union prior to September 2012 with an officially recognised description.

Duration and renewal of acceptance **N.I.**

4.—(1) Registration of a variety is valid—

- (a) in the case of a genetically modified variety, for the period for which the genetically modified organism of which the variety ^{F7}consists—
 - (i) is authorised for cultivation pursuant to Regulation [\(EC\) No 1829/2003](#) or the GMO regulations, or
 - (ii) has, before the day on which exit day falls, been authorised for cultivation pursuant to Directive [2001/18/EC](#); or]
- (b) in any other case until the end of the 30th calendar year from the date of registration.

(2) Subject to sub-paragraphs (3) and (4), the department may, on the basis of a written application, renew the registration of a variety for a further period of 30 years provided—

- (a) the requirements of distinctness, uniformity and stability are still satisfied in respect of the variety;

(b) there is still material of that variety available.

(3) In the case of a genetically modified variety, registration may only be renewed for the period for which the genetically modified organism concerned continues to be authorised for the cultivation pursuant to ^{F8}... or Regulation (EC) No 1829/2003.

(4) The Department may renew the registration in the absence of a written application where satisfied renewal serves to preserve genetic diversity and sustainable production.
