

## SCHEDULE 4

Restrictions on the landing in and movement within Northern Ireland of relevant material

## PART A

Relevant material, originating in third countries, which may only be landed in Northern Ireland if special requirements are complied with

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
1.	Plants, other than fruit or seeds, of conifers (Coniferales), originating in any country outside Europe	The plants must be accompanied by an official statement that they have been produced in a nursery and that the place of production is free from <i>Pissodes</i> spp. (non-European)
2.	Plants, other than seeds, of <i>Pinus</i> L., intended for planting, originating in any third country	The plants must be accompanied by an official statement that no symptoms of <i>Scirrhia acicula</i> (Dearn.) Siggers or <i>Scirrhia pinii</i> Funk and Parker have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
3.	Plants, other than seeds, of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr. or <i>Tsuga</i> Carr., intended for planting, originating in any third country	The plants must be accompanied by an official statement that no symptoms of <i>Melampsora medusa</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
4.	Plants, other than fruit or seeds, of <i>Quercus</i> L., originating in the USA	The plants must be accompanied by an official statement that they originate in an area known to be free from <i>Ceratocystis fagacearum</i> (Bretz) Hunt
5.	Plants, other than fruit or seeds, of <i>Castanea</i> Mill. or <i>Quercus</i> L., originating in any country outside Europe	The plants must be accompanied by an official statement that no signs of <i>Cronartium</i> spp. (non-European) have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
6.	Plants, other than seeds, of <i>Castanea</i> Mill. or <i>Quercus</i> L., intended for planting, originating in any third country	The plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) they originate in an area known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr; or</li> <li>(b) no symptoms of <i>Cryphonectria parasitica</i> (Murrill) Barr have been observed at the place of production or in its</li> </ul>

**Status:** This is the original version (as it was originally made).

Item	Description of relevant material	Requirement of landing
7.	Plants, other than seeds, of <i>Corylus</i> L., intended for planting, originating in Canada or the USA	<p>immediate vicinity since the beginning of the last complete cycle of vegetation</p> <p>The plants must be accompanied by an official statement that they have been grown in a nursery and:</p> <p>(a) originate in an area established in the country of export by the national plant protection organisation in that country as being free from <i>Anisogramma anomala</i> (Peck) E. Müller, in accordance with ISPM No. 4, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration”; or</p> <p>(b) originate in a place of production established in the country of export by the national plant protection organisation in that country as being free from <i>Anisogramma anomala</i> (Peck) E. Müller on official inspections carried out at the place of production or in its immediate vicinity since the beginning of the last three complete cycles of vegetation, in accordance with ISPM No. 10, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration” and declared free from <i>Anisogramma anomala</i> (Peck) E. Müller</p>
8.	Plants, other than fruit or seeds, but including cut branches with or without foliage, of <i>Fraxinus</i> L., <i>Juglans</i> <i>xmlns"=http://www.tso.co.uk/assets/namespaces/legislatio"n&gt;ailantifolia</i> Carr., <i>Juglans mandshurica</i> Maxim., <i>Ulmus Davidiana</i> Planch. or <i>Pterocarya rhoifolia</i> Siebold & Zucc., originating in Canada, China, Democratic People’s Republic of Korea, Japan, Mongolia, Republic of Korea, Russia, Taiwan or the USA	The plants must be accompanied by an official statement that they originate in an area recognised as being free from <i>Agrilus planipennis</i> Fairmaire for the purposes of point 11.4 of Section I of Annex IV Part A, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export(1)
9.	Plants of <i>Betula</i> L., other than fruit or seeds, but including cut branches of <i>Betula</i> L., with or without foliage, originating in any third country	The plants must be accompanied by an official statement that they originate in a country known to be free of <i>Agrilus anxius</i> Gory

(1) Part A of Annex IV to Council Directive 2000/29/EC (OJ No L 169, 10.7.2000, p. 1), as last amended by Regulation (EU) No 652/2014 (OJ No L 189, 27.6.2014, p. 1).

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
10.	Plants, other than seeds, of <i>Platanus</i> L., intended for planting, originating in Armenia, Switzerland or the USA	The plants must be accompanied by an official statement that no symptoms of <i>Ceratocystis platani</i> (J.M. Walter) Engelbr. & Harr. have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
11.	Plants, other than seeds, of <i>Populus</i> L., intended for planting, originating in any third country	The plants must be accompanied by an official statement that no symptoms of <i>Melampsora medusa</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
12.	Plants, other than fruit or seeds, of <i>Populus</i> L., originating in any country of the American continent	The plants must be accompanied by an official statement that no symptoms of <i>Mycosphaerella populorum</i> G.E. Thompson have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
13.	Plants, other than seeds, of <i>Ulmus</i> L., intended for planting, originating in any country in North America	The plants must be accompanied by an official statement that no symptoms of <i>Candidatus Phytoplasma ulmi</i> have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
14.	Plants, other than scions, cuttings, plants in tissue culture, pollen or seeds, of <i>Amelanchier</i> Medik., <i>Aronia</i> Medik., <i>Cotoneaster</i> Medik., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Malus</i> Mill., <i>Prunus</i> L., <i>Pyracantha</i> M. Roem., <i>Pyrus</i> L. or <i>Sorbus</i> L., intended for planting, originating in Canada or the USA	<p>The plants shall be accompanied by an official statement that:</p> <p>(a) they have been grown throughout their life in an area free from <i>Saperda candida</i> Fabricius, established by the national plant protection organisation in the country of origin in accordance with ISPM No. 4, and which is mentioned on the phytosanitary certificate or the phytosanitary certificate for re-export under the heading “Additional declaration”; or</p> <p>(b) they have been grown during a period of at least two years prior to export, or in the case of plants which are younger than two years, have been grown throughout their life, in a place of production established as free from <i>Saperda candida</i> Fabricius in accordance with ISOM No. 10:</p>

**Status:** This is the original version (as it was originally made).

Item	Description of relevant material	Requirement of landing
15.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., <i>Microcitrus</i> Swingle, <i>Naringi</i> Adans. or <i>Swinglea</i> Merr., originating in any third country	<p>(i) which is registered and supervised by the national plant protection organisation in the country of origin;</p> <p>(ii) which has been subjected annually to two official inspections for any signs of <i>Saperda candida</i> Fabricius carried out at appropriate times;</p> <p>(iii) where the plants have been grown in a site with complete physical protection against the introduction of <i>Saperda candida</i> Fabricius or with the application of appropriate preventive treatments and surrounded by a buffer zone with a width of at least 500 m in which the absence of <i>Saperda candida</i> Fabricius has been confirmed by official surveys carried out annually at appropriate times; and</p> <p>(iv) immediately prior to export, the plants, and in particular their stems, have been subjected to a meticulous inspection for the presence of <i>Saperda candida</i> Fabricius, which included destructive sampling, where appropriate</p> <p>The fruits shall be accompanied by an official statement that:</p> <p>(a) they originate in a country recognised as being free from <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i> in accordance with ISPM No. 4, and which has been previously notified in writing to the European Commission by the relevant national plant protection organisation;</p> <p>(b) they originate in an area established by the national plant protection organisation in the country of origin as being free as being free from <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i> in accordance with ISPM No. 4, and which is mentioned on the phytosanitary certificate or the phytosanitary certificate for re-export under the heading “Additional declaration” and has been previously notified in writing to the European Commission by the relevant national plant protection organisation;</p>

Item	Description of relevant material	Requirement of landing
		<p>(c) they originate in a place of production established by the national plant protection organisation in the country of origin as being free from <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i> in accordance with ISPM No. 10, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration”; or</p> <p>(d) they:</p> <p>(i) have been subjected to a treatment with sodium orthophenylphenate or any other effective treatment which is mentioned on the phytosanitary certificate or Phytosanitary certificate for re-export and which treatment method has been previously notified in writing to the European Commission by the relevant national plant protection organisation;</p> <p>(ii) originate in a site of production, which along with the immediate vicinity, are subject to appropriate treatments and cultural practices against <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>;</p> <p>(iii) are free from symptoms of <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>, as shown from official inspections carried out at appropriate times prior to export; and</p> <p>(iv) are traceable from information included in the phytosanitary certificate or phytosanitary certificate for re-export; or</p> <p>(e) in the case of fruits destined for industrial processing in the European Union they:</p> <p>(i) have been found free from symptoms of <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i> during official inspections carried out prior to export;</p>

**Status:** This is the original version (as it was originally made).

Item	Description of relevant material	Requirement of landing
16.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., originating in any third country	<p>(ii) originate in a site of production which, along with the immediate vicinity, is subject to appropriate treatments and cultural practices against <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>;</p> <p>(iii) are subject to a licence granted under article 41(1) of this Order authorising their movement within Northern Ireland and, where applicable, their processing and storage in Northern Ireland;</p> <p>(iv) are transported in individual packages bearing a label, which contains a traceability code and indicates that the fruits are destined for industrial processing; and</p> <p>(v) are traceable from information on traceability included in the phytosanitary certificate or phytosanitary certificate for re-export</p> <p>The fruits shall be:</p> <p>(a) free from peduncles and leaves and the packaging, any label attached to the packaging or any document normally used for trade purposes which accompanies the consignment must bear an appropriate origin mark (which may be a reference to the name of the country of origin);</p> <p>(b) accompanied by an official statement that:</p> <p>(i) they originate in a country recognised as being free from <i>Cercospora angolensis</i> Carv. et Mendes in accordance with ISPM No. 4, and which has been previously notified in writing to the European Commission by the relevant national plant protection organisation;</p> <p>(ii) they originate in an area recognised as being free from <i>Cercospora angolensis</i> Carv. Et Mendes in accordance with ISPM No. 4, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration” and has been</p>

Item	Description of relevant material	Requirement of landing
17.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., other than fruits of <i>Citrus aurantium</i> L., or <i>Citrus latifolia</i> Tanaka, originating in third countries, other than Argentina, Brazil, South Africa or Uruguay	<p>previously notified in writing to the European Commission by the relevant national plant protection organisation; or</p> <p>(iii) no symptoms of <i>Cercospora angolensis</i> Carv. et Mendes have been observed in the site of production and in its immediate vicinity since the beginning of the last cycle of vegetation, and none of the fruits harvested in the site of production has shown, in appropriate official examination, symptoms of this plant pest</p> <p>The fruits must be accompanied by an official statement that:</p> <p>(a) they originate in a country recognised as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with ISPM No. 4, and which has been previously notified in writing to the European Commission by the relevant national plant protection organisation;</p> <p>(b) they originate in an area established by the national plant protection organisation in the country of origin as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with ISPM No. 4, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration” and has been previously notified in writing to the European Commission by the relevant national plant protection organisation;</p> <p>(c) they:</p> <p>(i) originate in a place of production established by the national plant protection organisation in the country of origin as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with ISPM No. 10, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration”; and</p>

**Status:** This is the original version (as it was originally made).

Item	Description of relevant material	Requirement of landing
		<p>(ii) have been found free of symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa by official inspection of a representative sample defined in accordance with ISPM No. 31;</p> <p>(d) they:</p> <p>(i) originate in a site of production:</p> <p>(aa) subjected to appropriate treatments and cultural measures against <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa;</p> <p>(bb) in which official inspections have been carried out during the growing season since the beginning of the last cycle of vegetation, and no symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa have been detected in the fruits; and</p> <p>(cc) from which the harvested fruits have been found free of symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa during an official inspection, prior to export, of a representative sample, defined in accordance with ISPM No. 31; and</p> <p>(ii) are traceable from information on traceability included in the phytosanitary certificate or the phytosanitary certificate for re-export;</p> <p>(e) in the case of fruits destined for industrial processing in the European Union they:</p> <p>(i) have been found free of symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa prior to export during an official inspection of a representative sample defined in accordance with ISPM No. 31;</p> <p>(ii) originate in a site of production which was subject to appropriate treatments against <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa at appropriate times and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration”;</p>

Item	Description of relevant material	Requirement of landing
18.	Fruits of <i>Citrus latifolia</i> Tanaka originating in Brazil, South Africa or Uruguay	<p>(iii) are subject to a licence granted under article 41(1) of this Order authorising their movement within Northern Ireland and, where applicable, their processing and storage in Northern Ireland;</p> <p>(iv) are transported in individual packages bearing a label which contains a traceability code and indicates that the fruits are destined for industrial processing; and</p> <p>(v) are traceable from information on traceability included in the phytosanitary certificate or phytosanitary certificate for re-export</p> <p>The fruits must be accompanied by an official statement that:</p> <p>(a) they originate in an area recognised as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa (all strains pathogenic to Citrus), as referred to in Article 3(2) of <a href="#">Decision 2006/473/EC</a>, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export;</p> <p>(b) no symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa (all strains pathogenic to Citrus) have been observed in the field of production or in its immediate vicinity since the beginning of the last cycle of vegetation, and none of the fruits harvested in the field of production has shown, in appropriate official examination, symptoms of this plant pest; or</p> <p>(c) the fruits originate in a field of production subjected to appropriate treatments against <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa (all strains pathogenic to Citrus), and none of the fruits harvested in the field of production has shown, in appropriate official examination, symptoms of this plant pest</p>
19.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., other than fruits of <i>Citrus aurantium</i> L. or <i>Citrus latifolia</i> Tanaka, which originate in Argentina,	<p>The fruits shall:</p> <p>(a) originate in a country recognised as free from <i>Phyllosticta citricarpa</i> (McAlpine)</p>

**Status:** This is the original version (as it was originally made).

Item	Description of relevant material	Requirement of landing
	Brazil, South Africa or Uruguay and are not destined exclusively for industrial processing into juice	<p>Van der Aa, in accordance with ISPM No. 4 provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission; or</p> <p>(b) be accompanied by an official statement that they originate in an area established by the national plant protection organisation in the country of origin as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with ISPM No. 4 and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration” and has been previously notified in writing to the European Commission by the relevant national plant protection organisation;</p> <p>(c) in the case of fruits originating in Brazil, be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration” that they meet the requirements specified in Articles 4 and 7(a) and (b) of Decision (EU) 2016/715;</p> <p>(d) in the case of fruits originating in South Africa or Uruguay, be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration” that they meet the requirements specified in Articles 5 and 7 of Decision (EU) 2016/715; or</p> <p>(e) in the case of fruits originating in Argentina, be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration” that they meet the requirements specified in Articles 5a and 7 of Decision (EU) 2016/715</p>
20.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., other than fruits of <i>Citrus aurantium</i> L. or <i>Citrus latifolia</i> Tanaka, which originate in Argentina, Brazil, South Africa or Uruguay and are destined exclusively for industrial processing into juice in the European Union	<p>The fruits shall:</p> <p>(a) be accompanied by an official statement that:</p> <p>(i) they originate in a country recognised as free from <i>Phyllosticta citricarpa</i></p>

Item	Description of relevant material	Requirement of landing
		<p>(McAlpine) Van der Aa, in accordance with ISPM No. 4 provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned or to the Commission; or</p> <p>(ii) they originate in an area established by the national plant protection organisation in the country of origin as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with ISPM No. 4, and which is mentioned on the phytosanitary certificate or the phytosanitary certificate for re-export under the heading “Additional declaration” and has been previously notified in writing to the European Commission by the relevant national plant protection organisation; or</p> <p>(iii) they:</p> <p>(aa) originate in a place of production established by the national plant protection organisation in the country of origin as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with ISPM No. 10, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “Additional declaration”; and</p> <p>(bb) have been found free of symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa by official inspection of a representative sample defined in accordance with ISPM No. 31; or</p> <p>(b) they:</p> <p>(i) originate in a site of production subjected to appropriate treatments and cultural measures against <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa, and</p> <p>(ii) official inspections have been carried out in the site of production during the growing season since the beginning of the last cycle of vegetation, and no symptoms</p>

**Status:** This is the original version (as it was originally made).

Item	Description of relevant material	Requirement of landing
21.	Fruits of <i>Capsicum</i> (L.), <i>Citrus</i> L., other than <i>Citrus limon</i> (L.) Osbeck. or <i>Citrus auranti-foia</i> (Christm.) Swingle, <i>Prunus persica</i> (L.) Batsch or <i>Punica granatum</i> L., originating in any country of the African continent, Cape Verde, Saint Helena, Madagascar, La Reunion, Mauritius or Israel	<p data-bbox="858 385 1337 443">of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa; or</p> <p data-bbox="858 479 1337 604">(c) in the case of fruits introduced into the European Union under the derogation specified in Article 8 of Decision (EU) 2016/715, the fruits must be:</p> <p data-bbox="858 640 1337 730">(i) accompanied by a phytosanitary certificate which includes an official statement:</p> <p data-bbox="858 766 1337 1016">(aa) that they originate in a place of production officially registered with the national plant protection organisation in the country of origin and their movement from the place of production to the point of export to the European Union has been officially registered, as required by Article 10 of Decision (EU) 2016/715; and</p> <p data-bbox="858 1052 1337 1240">(bb) which, under the heading “Additional declaration”, includes the statements and the registered production code specified in Articles 9(1) and 10 of Decision (EU) 2016/715 and the information specified in Article 9(2) of that Decision;</p> <p data-bbox="858 1276 1337 1335">(ii) packaged and labelled in accordance with Article 17 of that Decision; and</p> <p data-bbox="858 1370 1337 1559">(iii) subject to a licence granted under article 41 of this Order authorising their introduction into, and movement within Northern Ireland and, where applicable, their processing and storage in Northern Ireland</p> <p data-bbox="858 1581 1337 1639">The fruits shall be accompanied by an official statement that:</p> <p data-bbox="858 1675 1337 1800">(a) they originate in a country recognised as being free from <i>Thaumatotibia leucotreta</i> (Meyrick) in accordance with ISPM No. 4;</p> <p data-bbox="858 1836 1337 2020">(b) they originate in an area established by the national plant protection organisation in the country of origin as being free from <i>Thaumatotibia leucotreta</i> (Meyrick) in accordance with ISPM No. 4, and which is mentioned on the phytosanitary</p>

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
22.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., originating in any third country where Tephritidae (non-European) are known to occur on these fruits	<p>certificate or phytosanitary certificate for re-export under the heading “Additional declaration”;</p> <p>(c) they:</p> <p>(i) originate in a place of production established by the national plant protection organisation in the country of origin as being free from <i>Thaumatotibia leucotreta</i> (Meyrick) in accordance with ISPM No. 10 and information on their traceability has been included in the phytosanitary certificate or phytosanitary certificate for re-export; and</p> <p>(ii) are free from that plant pest as shown from official inspections carried out in the place of production at appropriate times during the growing season, which included a visual examination on representative samples of fruit; or</p> <p>(d) in the case of fruits which have been subjected to an effective cold treatment or any other effective treatment to ensure freedom from <i>Thaumatotibia leucotreta</i> (Meyrick) which has previously been notified in writing to the European Commission by the relevant national plant protection organisation, they have been subjected to such a treatment, and the treatment data is indicated in the phytosanitary certificate or phytosanitary certificate for re-export</p> <p>The fruits must be accompanied by an official statement that:</p> <p>(a) they originate in an area known to be free from Tephritidae (non-European);</p> <p>(b) no signs of Tephritidae (non-European) have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation, on official inspections carried out at least monthly during the three months prior to harvesting, and none of the fruits harvested at the place of production has shown, in appropriate</p>

(non-European populations) and are shipped in transparent containers under sterile conditions</p>
85.	Seeds of <i>Helianthus annuus</i> L., originating in any third country	<p>The seeds must be accompanied by an official statement that:</p> <p>(a) they originate in an area known to be free from <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni; or</p> <p>(b) other than those that have been produced on varieties resistant to all races of <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni present in the area of production, they have been subjected to an appropriate treatment against <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni</p>
86.	Seeds of <i>Solanum lycopersicum</i> L., originating in any third country	The seeds must be accompanied by an official statement that they have been

**Status:** This is the original version (as it was originally made).

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
		<p>obtained by means of an appropriate acid extraction method and:</p> <p>(a) they originate in an area where <i>Clavibacter michiganensis</i> ssp. <i>michiganensis</i> (Smith) Davis et al., <i>Xanthomonas campestris</i> pv. <i>vesicatoria</i> (Doidge) Dye or Potato spindle tuber viroid are not known to occur;</p> <p>(b) no symptoms of the diseases caused by those plant pests have been observed on the plants at the place of production during their complete cycle of vegetation; or</p> <p>(c) the seeds have been subjected to official testing for at least those plant pests on a representative sample and using appropriate methods, and have been found free from those plant pests</p>
87.	Seeds of <i>Medicago sativa</i> L., originating in any third country	<p>The seeds must be accompanied by an official statement that:</p> <p>(a) no symptoms of <i>Ditylenchus dipsaci</i> (Kühn) Filipjev have been observed at the place of production since the beginning of the last complete cycle of vegetation and no <i>Ditylenchus dipsaci</i> (Kühn) Filipjev has been revealed by laboratory tests on a representative sample;</p> <p>(b) fumigation has taken place prior to export; or</p> <p>(c) the seeds have been subjected to an appropriate physical treatment against <i>Ditylenchus dipsaci</i> (Kühn) Filipjev and have been found to be free of <i>Ditylenchus dipsaci</i> (Kühn) Filipjev after laboratory tests on a representative sample</p>
88.	Seeds of <i>Medicago sativa</i> L., originating in any third country where <i>Clavibacter michiganensis</i> ssp. <i>insidiosus</i> Davis et al. is known to occur	<p>The seeds must be accompanied by an official statement that:</p> <p>(a) <i>Clavibacter michiganensis</i> ssp. <i>insidiosus</i> David et al. has not been known to occur on the farm or in its immediate vicinity since the beginning of the last 10 years;</p> <p>(b) either:</p>

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
		<p>(i) the crop belongs to a variety recognised as being highly resistant to <i>Clavibacter michiganensis</i> ssp. <i>insidiosus</i> Davis <i>et al.</i>;</p> <p>(ii) it has not yet started its fourth complete cycle of vegetation from sowing when the seed was harvested, and there was not more than one preceding seed harvest from the crop; or</p> <p>(iii) the content of inert matter which has been determined in accordance with the rules applicable for the certification of seed marketed in the European Union, does not exceed 0.1% by weight;</p> <p>(c) no symptoms of <i>Clavibacter michiganensis</i> ssp. <i>insidiosus</i> Davis <i>et al.</i> have been observed at the place of production, or on any <i>Medicago sativa</i> L. crop adjacent to it, during the last complete cycle of vegetation or, where appropriate, the last two cycles of vegetation; and</p> <p>(d) the crop has been grown on land on which no previous <i>Medicago sativa</i> L. crop has been present during the last three years prior to sowing</p>
89.	Seeds of <i>Oryza sativa</i> L., originating in any third country	<p>The seeds must be accompanied by an official statement that:</p> <p>(a) they have been officially tested by appropriate nematological tests and have been found free from <i>Aphelenchoides besseyi</i> Christie; or</p> <p>(b) they have been subjected to an appropriate hot water treatment or other appropriate treatment against <i>Aphelenchoides besseyi</i> Christie</p>
90.	Seeds of <i>Phaseolus</i> L., originating in any third country	<p>The seeds must be accompanied by an official statement that:</p> <p>(a) they originate in an area known to be free from <i>Xanthomonas campestris</i> pv. <i>phaseoli</i> (Smith) Dye; or</p> <p>(b) a representative sample of the seeds has been tested and found free from</p>

**Status:** This is the original version (as it was originally made).

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
		<i>Xanthomonas campestris</i> pv. <i>phaseoli</i> (Smith) Dye
91.	Seeds of <i>Zea mays</i> L., originating in any third country	The seeds must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) they originate in an area known to be free from <i>Erwinia stewartii</i> (Smith) Dye; or</li> <li>(b) a representative sample of the seeds has been tested and found free from <i>Erwinia stewartii</i> (Smith) Dye</li> </ul>
92.	Seeds of the genera <i>Triticum</i> , <i>Secale</i> or <i>XTriticosecale</i> from Afghanistan, India, Iraq, Mexico, Nepal, Pakistan, South Africa or the USA where <i>Tilletia indica</i> Mitra is known to occur	The seeds must be accompanied by an official statement that they originate in an area where <i>Tilletia indica</i> Mitra is known not to occur, and the name of the area must be mentioned on the phytosanitary certificate or the phytosanitary certificate for re-export
93.	Grain of the genera <i>Triticum</i> , <i>Secale</i> or <i>XTriticosecale</i> from Afghanistan, India, Iraq, Mexico, Nepal, Pakistan, South Africa or the USA where <i>Tilletia indica</i> Mitra is known to occur	The grain must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) it originates in an area where <i>Tilletia indica</i> Mitra is known not to occur, and the name of the area must be mentioned on the phytosanitary certificate or the phytosanitary certificate for re-export under the heading “place or origin”; or</li> <li>(b) no symptoms of <i>Tilletia indica</i> Mitra have been observed on the plants at the place of production during their last complete cycle of vegetation and representative samples of the grain have been taken both at the time of harvest and before shipment and have been tested and found free from <i>Tilletia indica</i> Mitra, which must be evidenced by a statement “tested and found free from <i>Tilletia indica</i> Mitra” on the phytosanitary certificate or phytosanitary certificate for re-export under the heading “name of produce”</li> </ul>
94.	Susceptible plants within the meaning of Article 1(2) of <a href="#">Decision 2002/757/EC</a> originating in the USA	The plants must be accompanied by a phytosanitary certificate or a phytosanitary certificate for re-export which includes: <ul style="list-style-type: none"> <li>(a) an official statement under the heading “Additional declaration” that they:</li> </ul>

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
		(i) meet the requirements in point 1a(a) or 1a(b) of Annex 1 to <a href="#">Decision 2002/757/EC</a> ; and
		(ii) have been found free from non-European isolates of <i>Phytophthora ramorum</i> Werres, De Cock & Man in't Veld sp. nov.; and
		(b) where point 1a(a) of that Annex applies, the name of the area in which they originate under the heading "place of origin"
95.	Specified plants within the meaning given in Article 1(2) of <a href="#">Decision 2007/433/EC</a> originating in any third country	The plants must be accompanied by a phytosanitary certificate or a phytosanitary certificate for re-export which includes an official statement under the heading "Additional declaration" that they: <ul style="list-style-type: none"> <li>(a) originate in a place of production which is registered and supervised by the national plant protection organisation in the country of origin; and</li> <li>(b) meet the requirements specified in point 1(a), (b) or (c) of Annex 1 to <a href="#">Decision 2007/433/EC</a></li> </ul>
96.	Specified plants within the meaning of Article 1(a) of <a href="#">Decision 2012/138/EU</a> originating in China	The plants must be accompanied by a phytosanitary certificate or phytosanitary certificate for re-export which includes: <ul style="list-style-type: none"> <li>(a) an official statement under the heading "Additional declaration" in accordance with point 1 of Section 1(B) of Annex 1 to <a href="#">Decision 2012/138/EU</a>; and</li> <li>(b) where point 1(b) of that Section applies, the place of production of the plants must meet the requirements specified in Article 3(c) of <a href="#">Decision 2012/138/EU</a></li> </ul>
97.	Specified plants within the meaning of Article 1(a) of <a href="#">Decision 2012/138/EU</a> originating in any third country where <i>Anoplophora chinensis</i> (Forster) is known to be present, other than China	The plants must be accompanied by a phytosanitary certificate or phytosanitary certificate for re-export which includes: <ul style="list-style-type: none"> <li>(a) an official statement under the heading "Additional declaration" in accordance with point 1 of Section 1(A) of Annex 1 to <a href="#">Decision 2012/138/EU</a>; and</li> </ul>

**Status:** This is the original version (as it was originally made).

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
		(b) where point 1(a) of that Section applies, the name of the relevant pest-free area under the heading “place of origin”
98.	Tubers of <i>Solanum tuberosum</i> L., intended for planting, originating in any third country where <i>Epitrix cucumeris</i> (Harris), <i>Epitrix papa</i> sp. n, <i>Epitrix subcrinita</i> (Lec.) or <i>Epitrix tuberis</i> (Gentner) is known to be present	The tubers must be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration” in accordance with Section 1 of Annex 1 to <a href="#">Decision 2012/270/EU</a>
99.	Plants, other than seeds, intended for planting, which can only grow in water or soil that is permanently saturated with water and which originate in any third country	The plants must be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration” in accordance with Section 1 of Annex 1 to <a href="#">Decision 2012/697/EU</a>
100.	Live pollen of <i>Actinidia</i> Lindl. or plants, other than seeds, of <i>Actinidia</i> Lindl. intended for planting, originating in any third country	The live pollen or plants must be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration” in accordance with Section 1 of Annex 1 to <a href="#">Decision 2012/756/EU</a>
101.	Specified plants within the meaning of Article 1(c) of Decision (EU) 2015/789 originating in any third country, other than a third country where <i>Xyella fastidiosa</i> (Wells et al.) is known to be present	<p>The plants must:</p> <p>(a) originate in a third country which has been notified to the European Commission by the national plant protection organisation of the third country concerned as being a country where the specified organism is not present in accordance with Article 16(a) of Decision (EU) 2015/789; and</p> <p>(b) be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration”:</p> <p>(i) in accordance with Article 16(b) of that Decision; or</p> <p>(ii) in the case of plants, other than seeds, intended for planting, of <i>Coffea</i>, <i>Lavandula dentata</i> L., <i>Nerium oleander</i> L., <i>Olea europaea</i> L., <i>Polygala myrtifolia</i> L., or <i>Prunus dulcis</i> (Mill.) D.A. Webb, in accordance with Article 16(b) and the second subparagraph of Article 16 of that Decision.</p>

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
102.	Specified plants within the meaning of Article 1(c) of Decision (EU) 2015/789 originating in any third country where <i>Xylella fastidiosa</i> (Wells et al.) is known to be present	<p>The plants must be accompanied by a phytosanitary certificate which includes:</p> <p>(a) in the case of plants originating in an area which has been established as free from <i>Xylella fastidiosa</i> (Wells et al.) in accordance with ISPM No. 4 and has been notified to the European Commission by the relevant national plant protection organisation in accordance with Article 17(2)(a) of Decision 2015/789, the name of the area under the heading “place of origin”;</p> <p>(b) in the case of plants which originate in an area where <i>Xylella fastidiosa</i> (Wells et al.) is known to be present and have not been grown for their entire production cycle <i>in vitro</i>:</p> <p>(i) an official statement under the heading “Additional declaration” in accordance with Article 17(3) of that Decision; and</p> <p>(ii) the name of the site from which they originate under the heading “place of origin”;</p> <p>(c) in the case of plants which originate in an area where <i>Xylella fastidiosa</i> (Wells et al.) is known to be present and have been grown for their entire production cycle <i>in vitro</i>:</p> <p>(i) an official statement under the heading “Additional declaration” in accordance with Article 17(3a) of that Decision; and</p> <p>(ii) the name of the site from which they originate under the heading “place of origin”</p>
103.	Plants, other than seeds, of <i>Mangifera</i> L., originating in India	The plants must be accompanied by a phytosanitary certificate which includes an official statement under the heading “Additional declaration” describing the appropriate measures taken to ensure freedom from harmful organisms
104.	Specified plants within the meaning of Article 1(a) of Decision (EU) 2015/893 originating in any third country where	The plants must be accompanied by a phytosanitary certificate or a phytosanitary certificate for re-export which includes:

**Status:** This is the original version (as it was originally made).

<i>Item</i>	<i>Description of relevant material</i>	<i>Requirement of landing</i>
	<i>Anoplophora glabripennis</i> (Motschulsky) is known to be present	(a) an official statement under the heading “Additional declaration” that they meet the requirements specified in point (1)(a), (b) or (c) of Section 1(A) of Annex II to Decision (EU) 2015/893; and  (b) where point (1)(a) of that Section applies, the name of the relevant pest-free area under the heading “place of origin”
105.	Plants of <i>Fraxinus</i> L., intended for planting originating in any third country	The plants must be accompanied by a phytosanitary certificate which has been issued by the national plant protection organisation of the country from which the plants originate and which includes under the heading “Additional declaration” an official statement that the plants have been grown throughout their life in an area which has been established and is maintained as an area free from <i>Chalara fraxinea</i> T. Kowalski (including its teleomorph <i>Hymenoscyphus pseudoalbidus</i> ) in accordance with ISPM No. 4
