

## SCHEDULE 4

Regulation 7(3)

### Particulars to be included in a consequences report

#### PART 1

##### Factual Information

1. The following factual information shall be provided in the operator's consequences report—
  - (a) the name and address of the operator;
  - (b) the postal address of the premises where the radioactive substance will be processed, manufactured, used or stored, or where the facilities for processing, manufacture, use or storage exist;
  - (c) the date on which it is anticipated that the work with ionising radiation will commence or, if it has already commenced, a statement to that effect.

#### PART 2

##### Recommendations

2. The operator shall include the following recommendations in the consequences report—
  - (a) the proposed minimum geographical extent from the premises to be covered by the off-site emergency plan arranged by the Executive; and
  - (b) the minimum distances to which urgent protective action may need to be taken, marking against each distance the timescale for implementation of the relevant action.
3. In relation to a minimum geographical extent recommended under paragraph 2, the operator shall also include within the consequences report—
  - (a) the recommended urgent protective actions to be taken within that zone, if any, together with timescales for the implementation of those actions; and
  - (b) details of the environmental pathways at risk in order to support the determination of food and water restrictions in the event of a radiation emergency.

#### PART 3

##### Rationale

4. The operator shall set out the rationale supporting each recommendation made in the consequences report.
5. In particular, the operator shall set out—
  - (a) the rationale for its recommendation on the minimum distances for which urgent protective action may need to be taken; and
  - (b) where the operator and the Executive have agreed that no off-site planning is required, and therefore no emergency planning is recommended, the rationale for that agreement.
