

### SCHEDULE 3

Regulations 4 and 25

#### BEST AVAILABLE TECHNIQUES

1. The specified matters for Part A installations are—
  - (a) the use of low-waste technology,
  - (b) the use of less hazardous substances,
  - (c) the furthering of recovery and recycling of substances generated and used in the process and of waste, where appropriate,
  - (d) comparable processes, facilities or methods of operation which have been tried with success on an industrial scale,
  - (e) technological advances and changes in scientific knowledge and understanding,
  - (f) the nature, effects and volume of the emissions concerned,
  - (g) the commissioning dates for new or existing installations or mobile plant,
  - (h) the length of time needed to introduce the best available technique,
  - (i) the consumption and nature of raw materials (including water) used in the process and the energy efficiency of the process,
  - (j) the need to prevent or reduce to a minimum the overall impact of the emissions on, and risks to, the environment,
  - (k) the need to prevent accidents and to minimise the consequences for the environment, and
  - (l) information published by public international organisations.
2. The specified matters for Part B installations and mobile plant are as set out in subparagraphs (d) to (h) of paragraph 1.
