

SCHEDULE 3

BEST AVAILABLE TECHNIQUES

1. The specified matters for Part A installations are—
 - (a) the use of low-waste technology,
 - (b) the use of less hazardous substances,
 - (c) the furthering of recovery and recycling of substances generated and used in the process and of waste, where appropriate,
 - (d) comparable processes, facilities or methods of operation which have been tried with success on an industrial scale,
 - (e) technological advances and changes in scientific knowledge and understanding,
 - (f) the nature, effects and volume of the emissions concerned,
 - (g) the commissioning dates for new or existing installations or mobile plant,
 - (h) the length of time needed to introduce the best available technique,
 - (i) the consumption and nature of raw materials (including water) used in the process and the energy efficiency of the process,
 - (j) the need to prevent or reduce to a minimum the overall impact of the emissions on, and risks to, the environment,
 - (k) the need to prevent accidents and to minimise the consequences for the environment, and
 - (l) information published by public international organisations.
