

SCHEDULE 4

ADDITIONAL CONDITIONS THAT APPLY TO THE KEEPING OF CALVES CONFINED FOR REARING AND FATTENING

Floors

9. Where calves are kept in a building, floors must—
 - (a) be smooth but not slippery so as to prevent injury to the calves;
 - (b) be so designed as not to cause injury or suffering to calves standing or lying on them;
 - (c) be suitable for the size and weight of the calves; and
 - (d) form a rigid, even and stable surface.
