

## SCHEDULE 1

Article 4

### HARBOUR LIMITS

An area of the Inner Oitir Mhor in the Sound of Barra enclosed on its seaward sides by imaginary lines drawn:—

- (a) in an arc of radius 640 metres, (with centre at reference point NF 072179 803815), from a point on the north coast of Aird Mhor, (reference point NF 071639 804082) to a point on the northern shore of Lamalum, (reference point NF 072712 803563);
- (b) in a straight line from a point on the west shore of Lamalum, (reference point NF 072806 803222), to a point on the northern shore of Aird Mhor, (reference point NF 072554 803162),

and on its landward sides by the level of high water within the area so enclosed.

## SCHEDULE 2

Article 5

### WORKS

Work No. 1. A rubble mound breakwater, protected on its external faces by rock armour, commencing at reference point NF 072088 803889, curving for a distance of 150 metres in a generally east-north-easterly direction and then in a generally south-easterly direction and terminating at reference point NF 072227 803857.

Work No. 2. A slipway consisting of a reinforced concrete slab over rock fill on the bed of the sea, protected on its south face by rock armour and on its north face by a vertical concrete face, and a timber alignment structure, commencing at reference point NF 072119 803821 extending in a generally easterly direction for a distance of 97 metres and terminating at reference point NF 072216 803811.
