

## SCHEDULE 2

### INFORMATION TO BE INCLUDED IN APPLICATIONS FOR CONSENT TO RELEASE OR MARKET GENETICALLY MODIFIED HIGHER PLANTS

#### PART II

##### INFORMATION RELATING TO THE PARENTAL OR RECIPIENT PLANT

3. The full name of the plant, that is—
  - (a) family name;
  - (b) genus;
  - (c) species;
  - (d) subspecies;
  - (e) cultivar/breeding line; and
  - (f) common name.
4. Information concerning—
  - (a) the reproduction of the plant, that is—
    - (i) the mode or modes of reproduction;
    - (ii) any specific factors affecting reproduction;
    - (iii) generation time; and
  - (b) the sexual compatibility of the plant with other cultivated or wild plant species including the distribution in Europe of the compatible species.
5. Information concerning the survivability of the plant, that is—
  - (a) its ability to form structures for survival or dormancy; and
  - (b) any specific factors affecting survivability.
6. Information concerning the dissemination of the plant, that is—
  - (a) the means and extent (such as an estimation of how viable pollen and/or seeds declines with distance where applicable) of dissemination; and
  - (b) any specific factors affecting dissemination.
7. The geographical distribution of the plant.
8. Where the application relates to a plant species which is not normally grown in the United Kingdom, a description of the natural habitat of the plant, including information on natural predators, parasites, competitors and symbionts.
9. Information concerning any other potential interactions, relevant to the genetically modified organism, of the plant with organisms in the ecosystem where it is usually grown, or elsewhere, including information on toxic effects on humans, animals and other organisms.
