(2) The use as raw materials of hides and skins submitted to tanning processes is prohibited.

(3) Raw materials shall be derived from bovine animals which have been slaughtered in a slaughterhouse and whose meat can be legally sold for human consumption.

(7) If raw material not in conformity with sub paragraphs (1) to (6) above is stored and/or processed in collection centres or tanneries supplying raw material for the purposes of these Regulations, it must be segregated throughout the period of receipt, storage, processing and dispatch from raw material in conformity with sub-paragraphs (1) to (6) above.

Transport and storage of raw materials

2.—(1) Raw materials destined for the production of collagen shall be transported under clean conditions using appropriate means of transport.

(2) Subject to sub paragraph (3) raw materials shall be transported and stored in a chilled or frozen state, unless they are processed within 24 hours of their dispatch.

(3) Salted, dried and limed hides and skins and hides and skins treated with alkali or acid may be transported and stored at ambient temperature.

(4) Storage rooms shall be kept in a satisfactory state of cleanliness and repair, so that they do not constitute a source of contamination for the raw materials.

(5) During transportation and at the time of delivery at collection centres and establishments producing collagen, raw materials shall be accompanied by a commercial document in accordance with the model laid down in Part 2 of this Schedule.

Establishments producing collagen

3.—(1) The production of collagen intended for human consumption shall take place in an establishment authorised under regulation 5 of the Collagen and Gelatine (Intra-Community Trade) (Scotland) (No. 2) Regulations 2003.

Manufacture of collagen

4.—(1) Collagen shall be produced by a process that ensures that the raw material is subjected to a treatment involving washing, pH adjustment using acid or alkali followed by one or more rinses, filtration and extrusion; or by an equivalent process approved by the Commission after consultation with the appropriate Scientific Committee.

(2) Collagen produced in accordance with sub paragraph (1) shall not undergo further processing other than a drying process.

(3) Collagen not intended for human consumption shall not be produced and stored in the same establishment as collagen intended for human consumption unless the collagen not intended for human consumption is produced and stored under the same conditions as set out in this Schedule.

(4) The use of preservatives other than those permitted under European Parliament and Council Directive [95/2/EC](#) on food additives other than colours and sweeteners⁽¹³⁾ (as that Directive is amended as at the date these Regulations are made) is prohibited.

Finished products

5.—(1) Appropriate measures, including tests, shall be carried out to ensure that, subject to sub paragraph (2), each production batch of collagen meets the microbiological and residues criteria set in the Table in Part 3 of this Schedule.

(2) Where the nature of a finished product is such that it would be inappropriate to require it to comply with the moisture and ash limits specified in Part 3 of this Schedule, those limits shall not apply to that product.

Wrapping, packaging, storage and transport

6.—(1) Collagen intended for human consumption must be wrapped, packaged, stored and transported under satisfactory hygiene conditions, and in particular—

- (a) bear an identification mark containing the name “United Kingdom” or initial letters “UK” followed by the registration number of the establishment and the initials “EC”;
- (b) carry the words “Collagen fit for human consumption in the United Kingdom”; and
- (c) bear the date of preparation and the batch number.

(3) Collagen must be accompanied during transportation by a commercial document which must bear—

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which apply in relation to Scotland only, amend the Bovines and Bovine Products (Trade) Regulations 1999 (S.I. [1999/1103](#), as amended by S.I. [1999/1554](#), S.S.I. [2000/62](#), [2000/184](#) and [2002/449](#) – “the BBPTR”). The BBPTR give effect to Commission Decisions [98/692/EC](#) (O.J. No. L 328, 4.12.98, p.28) and [98/564/EC](#) (O.J. No. L 273, 9.10.98, p.37) which amended Council Decision [98/256/EC](#) (O.J. No. L 113, 15.4.98, p.32). The Regulations amend the BBPTR to–

- lift the prohibition on the production of collagen derived from the hides and skins of bovine animals slaughtered in the United Kingdom and intended for human consumption in the United Kingdom (regulations 3 and 4). The prohibition on export of such collagen from Great Britain remains in force (regulation 4 of the BBPTR); and
- make consequential amendments to regulations 6(9) and 9(3) to enable use of such collagen in products for human consumption in the United Kingdom (regulations 4 and 5).

The Regulations also impose requirements on the production of collagen derived from the hide and/or skin of a bovine animal slaughtered in the United Kingdom and intended for human consumption in the United Kingdom until 1st January 2006 (regulation 6). The Regulations apply to such domestic production requirements that reflect those which, under Council Directive [92/118/EEC](#) **(14)** apply to production of collagen for human consumption for intra–Community trade. The Regulations–

- apply requirements relating to raw materials and establishments supplying them, transport and storage of raw materials, establishments producing collagen, manufacture of collagen, finished products, and wrapping, packaging, storage and transport of collagen intended for human consumption in the United Kingdom (Schedule, Part 1);
- require establishments producing collagen and collection centres and tanneries supplying the raw materials for such production to be authorised in accordance with regulations 4 and 5 of the Collagen and Gelatine (Intra–Community Trade) (Scotland) (No. 2) Regulations 2003

(14) (O.J. No. L 62, 15.3.93, p. 49, laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A(I) to Directive [89/662/EEC](#) and, as regards pathogens, to Directive [90/425/EEC](#), as last amended by Commission Regulation [\(EC\) No. 445/2004](#) (O.J. No. L72, 11.3.2004, p. 60).

(S.S.I. 2003/568) which implement the requirements of Commission Decision 2003/721/EC amending Council Directive 92/118/EEC (Schedule, Part 1); and

- provide that contravention of the requirements of regulation 6 is an offence, specify penalties for that offence, apply certain provisions of the Food Safety Act 1990 (1990 c. 16, amended by S.I. 2004/2990) for the purposes of regulations 6 and 7 and provide for the enforcement of regulation 6 by the relevant food authority (and/or the Scottish Ministers) (regulations 7, 8 and 9).

No Regulatory Impact Assessment has been prepared in respect of these Regulations.
