 - (ii) either all the inlet guide vanes or all the inlet guide nozzles; or
- (b) in the case of any other generating station all the boilers and turbines (driven by any means including wind, water, steam or gas) have been installed in the generating station after 31st December 1989 and were not used for the purpose of electricity generation prior to that date.

24. The following terms shall have the meanings given below where they appear in this Schedule:

- (a) “fossil fuel” has the meaning given by article 8(1)(a);

25. Paragraph 26 applies, where in respect of any generating station, the operator—

- (a) has given notice under a NIRO Order which, had that notice been given in respect of a station to which article 21 applies, would have constituted notice under article 21(2); and

Status: This is the original version (as it was originally made).

(b) has not done anything that, had it been done in respect of a station to which article 21 applies, would have constituted withdrawal of that notice under article 21(5).

26. In the case of a generating station referred to in paragraph 25 the reference to “month” in each place where it occurs in this Schedule shall be taken to be a reference to “obligation period” where “obligation period” has the meaning that it has in the NIRO Order under which the NIROC in question was issued.
