2007 No. 19

The Tweed Regulation Order 2007

Installation, maintenance etc.

19.—(1) The operator of a dam or off-take shall carry out any work necessary to comply with this Order in such manner as to ensure the minimum practicable interruption to the passage of salmon.

(2) The operator of a dam or off-take shall carry out any maintenance of it or of any fish pass, sluice, by-wash or screen in such manner as to ensure the minimum practicable interruption to the passage of salmon.
