2007 No. 194

**The Animals and Animal Products (Import
and Export) (Scotland) Regulations 2007**

PART III

THIRD COUNTRIES

Post-import controls

25.—(1) Where a veterinary inspector knows or suspects that import conditions (including requirements for the quarantine of imported animals) have not been complied with or there is doubt as to the identity of an animal, they may carry out any veterinary checks on that animal that they deem appropriate.

(2) If the checks confirm that import conditions were not complied with, then the provisions of regulation 22 shall apply as they apply at a border inspection post and, in the case of the exercise of a power to place the animals in quarantine or to isolate them, a veterinary inspector may additionally require the placing in quarantine or isolation of other animals which have been in contact with the imported animals.
