

## SCHEDULE 2

### MONITORING

#### PART 4

##### MACRO-ALGAE AND MARINE PHYTOPLANKTON

7. Where any bathing water profile indicates a tendency for proliferation of macro-algae or marine phytoplankton, SEPA must carry out such investigations at that bathing water as are necessary to—

- (a) determine whether such proliferation constitutes a health risk to bathers; and
- (b) allow adequate management measures to be put in place in accordance with regulation 15.
