
SCOTTISH STATUTORY INSTRUMENTS

2008 No. 298

The Action Programme for Nitrate Vulnerable
Zones (Scotland) Regulations 2008

PART 2

Storage of solid manure

9. Subject to regulation 10 the storage of solid manure must—
- (a) be only on an impermeable surface which prevents drainage to the water environment; and
 - (b) either—
 - (i) be covered by a waterproof covering; or
 - (ii) have a run-off facility with a means of collecting, storing and recovering run-off water and particulate matter.
