

SCHEDULE 1

Article 3(a)

RECORDS IN RELATION TO THE PREVENTION,
CONTROL AND REDUCTION OF PARASITES

1. A record of all training undertaken by each person working there in relation to—
 - (a) parasite identification;
 - (b) counting of parasites;
 - (c) recording of such counts;
 - (d) biology and life-cycle of parasites; and
 - (e) symptoms of parasite infection in fish.
2. A record of the number of parasites counted in the course of a weekly count of parasites including—
 - (a) the name of each person making the count;
 - (b) the date of the count;
 - (c) the number of fish sampled per facility;
 - (d) the identification number of each facility from which a sample of fish is taken;
 - (e) the water temperature as measured at the half way point of the depth of the facility containing the fish sampled;
 - (f) the number of parasites counted on the fish sampled per facility and the stages of the life-cycle of the parasites counted, those stages for *Caligus elongatus* being mobiles and for *lepeophtheirus salmonis* being non-gravid mobiles and gravid females; and
 - (g) the reason for not conducting a weekly count of parasites in the event that such a count is not undertaken in any week.
3. A record of particulars relating to the administration of any medicinal product to farmed fish, which record shall be prepared as soon as practicable after administration of the product and including—
 - (a) the date of administration;
 - (b) the identity of the product;
 - (c) the concentration and amount of the product;
 - (d) the method of administration of the product;
 - (e) the identification number of all facilities which have been the subject of administration of the product; and
 - (f) the name of the person who administered the product.
4. A record of particulars relating to any other methods employed to control parasites or treat their impact including—
 - (a) the nature of the method employed;
 - (b) the date the method was employed;
 - (c) the identification number of all facilities which were the subject of the method; and
 - (d) the name of the person employing such other method.

Status: This is the original version (as it was originally made).

5. In respect of any management area operated in accordance with the Code of Good Practice for Scottish Finfish Aquaculture⁽¹⁾ within which a person carries on the business of fish farming, a record of–

- (a) the name of each person who is a member of any group involved in co-ordinating a strategy for control and treatment of parasites;
- (b) the name of any person nominated to act as co-ordinator of a group referred to in sub-paragraph (a); and
- (c) any decision taken at a meeting held by a group referred to in sub-paragraph (a) regarding action to be taken in relation to prevention, control and reduction of parasites.

SCHEDULE 2

Article 3(b)

RECORDS IN RELATION TO CONTAINMENT, PREVENTION AND RECOVERY OF ESCAPE OF FISH

1. In relation to each facility, net, and mooring a record of–
 - (a) the name of the manufacturer;
 - (b) any special adaptations;
 - (c) the name of the supplier;
 - (d) the date of purchase;
 - (e) each inspection including–
 - (i) the name of the person conducting the inspection;
 - (ii) the date of each inspection;
 - (iii) the place of each inspection; and
 - (iv) the outcome of each inspection, and
 - (f) the date and result of each repair, equipment test and antifouling treatment carried out.
2. In relation to each net a record of–
 - (i) the mesh size;
 - (ii) the code which appears on the identification tag;
 - (iii) the place of use, storage and disposal; and
 - (iv) the depth of water between the bottom of the net and the seabed as measured at the mean low water spring.
3. In relation to each facility a record of–
 - (i) the date of construction;
 - (ii) the materials used in construction; and
 - (iii) its dimensions.
4. In relation to each mooring a record of–
 - (i) the date of installation;
 - (ii) the design and weight of the anchors; and

(1) The Code of Good Practice for Scottish Finfish Aquaculture was published by the Scottish Executive on 15th March 2006 and may be found on www.scottishsalmon.co.uk/dlDocs/CoGp.pdf.

- (iii) the length of the mooring ropes or chains.
- 5.** A record of any navigation markers deployed.
- 6.** In relation to any boat operations a record of–
 - (a) all training and qualifications of each person working there in the use of each boat;
 - (b) the type and size of each boat used for operations on the site; and
 - (c) the type and size of any propeller guard fitted to each boat used for operations on the site.
- 7.** In relation to any transfer of, or handling of, fish a record of–
 - (a) all training of each person working there in relation to containment and prevention of escape of fish, and recovery of escaped fish; and
 - (b) any assessment of the escape of fish carried out.
- 8.** A record of any anti-predator measures undertaken including–
 - (a) the type and location of each net, fence and scarer deployed;
 - (b) the use of lethal means by any person involved in operations on the site; and
 - (c) any assessment of risk of escape of fish carried out.
- 9.** A record of any contingency plan for preventing escapes of fish from fish farms and recovering any fish which have escaped prepared by a person carrying on the business of fish farming.
- 10.** In respect of sites at which fish are farmed in inland waters, being waters which do not form part of the sea or of any creek, bay or estuary or of any river as far as the tide flows–
 - (a) the type, method of and date of construction of any flood prevention or flood defence measures in place;
 - (b) the date of and results of any tests conducted on any such measures;
 - (c) the date of any incident where the site was flooded; and
 - (d) the water course height during any such flood incident.
- 11.** A record of–
 - (a) the date of any severe weather event which caused damage to any facility, net or mooring; and
 - (b) any action taken to rectify any such damage.
