

SCHEDULE 6

ADDITIONAL CONDITIONS THAT APPLY TO THE KEEPING OF PIGS

PART 5

Piglets

35. If necessary, piglets must be provided with a source of heat and a solid, dry and comfortable lying area away from the sow where all of them can rest at the same time.

36. The part of the total floor where the piglets are kept, and which is large enough to allow the animals to rest together at the same time, must be solid or covered with a mat or be littered with straw or any other suitable material.

37. Where a farrowing crate is used, the piglets must have sufficient space to be able to be suckled without difficulty.

38. Piglets must not be weaned from the sow at an age of less than 28 days unless the welfare or health of the sow or piglets would otherwise be adversely affected.

39. Piglets may be weaned up to 7 days earlier if they are moved into specialised housings which are emptied and thoroughly cleaned and disinfected before the introduction of a new group and which are separate from housing where sows (other than weaners) are kept.
