

SCHEDULE 4

WASTE FRAMEWORK DIRECTIVE

PART 1

GENERAL

Matters to be covered by permits

8. When a pollution control authority grants or modifies a permit, and the activities authorised by the permit include the treatment of waste, the pollution control authority must ensure that the permit covers—

- (a) the types and quantities of waste to be treated;
- (b) for each type of operation permitted, the technical and any other requirements relevant to the site;
- (c) the safety and precautionary measures to be taken;
- (d) the treatment site;
- (e) such monitoring and control operations as may be necessary;
- (f) such closure and after-care provisions as may be necessary;
- (g) the treatment method to be used for each type of operation;
- (h) the relevant operation code from Part II or III of this Schedule, where applicable; and
- (i) for each type of operation permitted, the maximum annual capacity to treat or dispose of waste.

Changes to legislation:

There are currently no known outstanding effects for the The Waste Management Licensing (Scotland) Regulations 2011, Paragraph 8.
