EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Infant Formula and Follow-on Formula (Scotland) Regulations 2007, in order to implement Commission Directive 2013/46/EU amending [Directive 2006/141/EC](#) with regard to protein requirements for infant formulae and follow-on formulae (OJ L 230, 29.8.2013, p.16).

Regulation 2(3), (5) and (6) enables the use of goats' milk proteins in the manufacture of infant formula and follow-on formula.

Regulation 2(4) lowers the minimum protein levels permitted in follow-on formula manufactured from protein hydrolysates to bring it in line with infant formula.
