“the relevant last day” means—

- (b) otherwise, the last day of pensionable service.

Pensionable service

41. For the purpose of this Part, a person (P) who re-enters pensionable service after a gap in service not exceeding 5 years is taken to be in pensionable service during the gap.

Meaning of “leaver index adjustment”

42.—(1) The leaver index adjustment for an amount of accrued earned pension other than an amount of accrued club transfer earned pension is an amount calculated as follows—

Step 1

Add 1.6 to the percentage increase or decrease specified in the Treasury order in relation to the leaving year.

Step 2

Multiply the result at Step 1 by A/B

where—

A is the number of complete months in the period between the beginning of the leaving year and the end of the relevant last day; and

B is 12.

The resulting percentage is the leaver index percentage.

Step 3

The resulting amount is the leaver index adjustment.

(2) The leaver index adjustment for an amount of accrued club transfer earned pension is the adjustment that would apply under the sending scheme to an amount of accrued earned pension equal to the amount of accrued club transfer earned pension specified in the active member's account at the end of the relevant last day.

(3) In this regulation, "complete month" includes an incomplete month that consists of at least 16 days.
