

SCHEDULE

STANDARDS FOR GOOD AGRICULTURAL AND ENVIRONMENTAL CONDITION

PART 2

Standards for Good Agricultural and Environmental Condition

Minimum land management reflecting site specific conditions to limit erosion

5.—(1) A beneficiary must prevent the erosion of the banks of watercourses, at watering points or feeding areas, from overgrazing or heavy poaching by livestock.

(2) In the case of late harvested crops where agronomic or weather conditions prevent the subsequent crop or cover from being sown, a beneficiary must put in place measures to limit soil erosion.

(3) In this paragraph, “heavy poaching” means the cutting up of turf to a significant degree as a result of trampling by livestock.
