

SCHEDULE 1

Regulations 3 and 5

SPECIFICATION OF MAPS, PLANS AND OTHER DRAWINGS

PART 1

REGISTER OF COMMUNITY INTERESTS  
IN LAND – SECTION 36(2)(f) OF THE ACT

1. Maps, plans or other drawings must—
  - (a) be drawn to a metric scale corresponding to a scale used by the Ordnance Survey for that land;
  - (b) be taxative and not demonstrative only;
  - (c) show the compass orientation of north;
  - (d) contain map grid reference numbers and sufficient surrounding details (fences, houses etc.) to enable the position of the land to be fixed accurately;
  - (e) show the boundaries of the land; and
  - (f) where measurements are given, give those measurements to one decimal place.
2. Where salmon fishings or mineral rights are the subject of the application to register a community interest in land, the land in respect of which the salmon fishings or mineral rights are exigible must be clearly marked on the map, plan or other drawing.

PART 2

DESCRIPTION OF AREA OF COMMUNITY

3. Maps or drawings must—
  - (a) be drawn to a metric scale corresponding to a scale used by the Ordnance Survey for that land;
  - (b) be taxative and not demonstrative only;
  - (c) show the compass orientation of north;
  - (d) contain map grid reference numbers and sufficient surrounding details (fences, houses etc.) to enable the position of the area of the community to be fixed accurately;
  - (e) show the boundaries of the area of the community; and
  - (f) where measurements are given, give those measurements to one decimal place.
