

### SCHEDULE 3

#### CAC material

##### **CAC material: rootstocks not belonging to a variety**

**2.—(1)** CAC material consisting of rootstocks not belonging to a variety may only be marketed if it fulfils the following conditions—

- (a) it is true to the description of its species;
- (b) it is found by the supplier on visual inspection, or where there is doubt, by sampling and testing, to be substantially free from the pests listed in Tables IA, IB and II in schedule 6; and
- (c) on visual inspection, it is found to be substantially free from defects including injuries, discolouration, scar tissue or dessication that affect the quality and usefulness of the plant as propagating material.

(2) The visual inspections mentioned in sub-paragraph (1)(b) may not be conducted during cryopreservation.
