- (2) Particulars of any such change must be given in a note to the accounts in which the new format is first used, and the reasons for the change must be explained.
- 3.—(1) Any item required to be shown in a company's balance sheet or profit and loss account may be shown in greater detail than required by the particular format used.

5.—(1) Subject to sub-paragraph (2), the directors must not include a heading or sub-heading corresponding to an item in the balance sheet or profit and loss account format used if there is no amount to be shown for that item for the financial year to which the balance sheet or profit and loss account relates.

8. Amounts in respect of items representing assets or income may not be set off against amounts in respect of items representing liabilities or expenditure (as the case may be), or vice versa.

SECTION A
ACCOUNTING PRINCIPLES

Preliminary

10.—(1) The amounts to be included in respect of all items shown in a company's accounts must be determined in accordance with the principles set out in this Section.

(2) But if it appears to the company's directors that there are special reasons for departing from any of those principles in preparing the company's accounts in respect of any financial year they may do so, in which case particulars of the departure, the reasons for it and its effect must be given in a note to the accounts.

Accounting principles

11. The company is presumed to be carrying on business as a going concern.

12. Accounting policies must be applied consistently within the same accounts and from one financial year to the next.

13. The amount of any item must be determined on a prudent basis, and in particular—

- (a) only profits realised at the balance sheet date are to be included in the profit and loss account, and
- (b) all liabilities which have arisen in respect of the financial year to which the accounts relate or a previous financial year must be taken into account, including those which only become apparent between the balance sheet date and the date on which it is signed on behalf of the board of directors in accordance with section 414 of the 2006 Act (approval and signing of accounts).

14. All income and charges relating to the financial year to which the accounts relate must be taken into account, without regard to the date of receipt or payment.

15. In determining the aggregate amount of any item, the amount of each individual asset or liability that falls to be taken into account must be determined separately.

SECTION B
HISTORICAL COST ACCOUNTING RULES

Preliminary

16. Subject to Sections C and D of this Part of this Schedule, the amounts to be included in respect of all items shown in a company's accounts must be determined in accordance with the rules set out in this Section.

Fixed assets

General rules

17.—(1) The amount to be included in respect of any fixed asset must be its purchase price or production cost.

(2) This is subject to any provision for depreciation or diminution in value made in accordance with paragraphs 18 to 20.

Rules for depreciation and diminution in value

18. In the case of any fixed asset which has a limited useful economic life, the amount of—

- (a) its purchase price or production cost, or
- (b) where it is estimated that any such asset will have a residual value at the end of the period of its useful economic life, its purchase price or production cost less that estimated residual value,

must be reduced by provisions for depreciation calculated to write off that amount systematically over the period of the asset's useful economic life.

19.—(1) Where a fixed asset investment falling to be included under item B.III of either of the balance sheet formats set out in Part 1 of this Schedule has diminished in value, provisions for diminution in value may be made in respect of it and the amount to be included in respect of it may be reduced accordingly.

(2) Provisions for diminution in value must be made in respect of any fixed asset which has diminished in value if the reduction in its value is expected to be permanent (whether its useful economic life is limited or not), and the amount to be included in respect of it must be reduced accordingly.

(3) Any provisions made under sub-paragraph (1) or (2) which are not shown in the profit and loss account must be disclosed (either separately or in aggregate) in a note to the accounts.

20.—(1) Where the reasons for which any provision was made in accordance with paragraph 19 have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

(2) Any amounts written back in accordance with sub-paragraph (1) which are not shown in the profit and loss account must be disclosed (either separately or in aggregate) in a note to the accounts.

Development costs

21.—(1) Notwithstanding that an item in respect of “development costs” is included under “fixed assets” in the balance sheet formats set out in Part 1 of this Schedule, an amount may only be included in a company's balance sheet in respect of development costs in special circumstances.

(2) If any amount is included in a company's balance sheet in respect of development costs the following information must be given in a note to the accounts—

- (a) the period over which the amount of those costs originally capitalised is being or is to be written off, and
- (b) the reasons for capitalising the development costs in question.

Goodwill

22.—(1) The application of paragraphs 17 to 20 in relation to goodwill (in any case where goodwill is treated as an asset) is subject to the following.

(2) Subject to sub-paragraph (3), the amount of the consideration for any goodwill acquired by a company must be reduced by provisions for depreciation calculated to write off that amount systematically over a period chosen by the directors of the company.

(3) The period chosen must not exceed the useful economic life of the goodwill in question.

(4) In any case where any goodwill acquired by a company is shown or included as an asset in the company's balance sheet there must be disclosed in a note to the accounts—

- (a) the period chosen for writing off the consideration for that goodwill, and
- (b) the reasons for choosing that period.

Current assets

23. Subject to paragraph 24, the amount to be included in respect of any current asset must be its purchase price or production cost.

24.—(1) If the net realisable value of any current asset is lower than its purchase price or production cost, the amount to be included in respect of that asset must be the net realisable value.

(2) Where the reasons for which any provision for diminution in value was made in accordance with sub-paragraph (1) have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

Miscellaneous and supplementary provisions

Excess of money owed over value received as an asset item

25.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

- (a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and
- (b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Assets included at a fixed amount

26.—(1) Subject to sub-paragraph (2), assets which fall to be included—

- (a) amongst the fixed assets of a company under the item "tangible assets", or
- (b) amongst the current assets of a company under the item "raw materials and consumables",

may be included at a fixed quantity and value.

(2) Sub-paragraph (1) applies to assets of a kind which are constantly being replaced where—

- (a) their overall value is not material to assessing the company's state of affairs, and
- (b) their quantity, value and composition are not subject to material variation.

Determination of purchase price or production cost

27.—(1) The purchase price of an asset is to be determined by adding to the actual price paid any expenses incidental to its acquisition.

(2) The production cost of an asset is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the production of that asset.

(3) In addition, there may be included in the production cost of an asset—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the production of that asset, but only to the extent that they relate to the period of production, and
- (b) interest on capital borrowed to finance the production of that asset, to the extent that it accrues in respect of the period of production,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

- (4) In the case of current assets distribution costs may not be included in production costs.

28.—(1) The purchase price or production cost of—

- (a) any assets which fall to be included under any item shown in a company's balance sheet under the general item "stocks", and
- (b) any assets which are fungible assets (including investments),

may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as "first in, first out" (FIFO),
- (b) the method known as "last in, first out" (LIFO),
- (c) a weighted average price, and
- (d) any other method similar to any of the methods mentioned above.

(3) Where in the case of any company—

- (a) the purchase price or production cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph, and
- (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph,

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price or production cost before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

Substitution of original stated amount where price or cost unknown

29.—(1) This paragraph applies where—

- (a) there is no record of the purchase price or production cost of any asset of a company or of any price, expenses or costs relevant for determining its purchase price or production cost in accordance with paragraph 27, or
- (b) any such record cannot be obtained without unreasonable expense or delay.

(2) In such a case, the purchase price or production cost of the asset must be taken, for the purposes of paragraphs 17 to 24, to be the value ascribed to it in the earliest available record of its value made on or after its acquisition or production by the company.

SECTION C

ALTERNATIVE ACCOUNTING RULES

Preliminary

30.—(1) The rules set out in Section B are referred to below in this Schedule as the historical cost accounting rules.

(2) Those rules, with the omission of paragraphs 16, 22 and 26 to 29, are referred to below in this Part of this Schedule as the depreciation rules; and references below in this Schedule to the historical cost accounting rules do not include the depreciation rules as they apply by virtue of paragraph 33.

31. Subject to paragraphs 33 to 35, the amounts to be included in respect of assets of any description mentioned in paragraph 32 may be determined on any basis so mentioned.

Alternative accounting rules

32.—(1) Intangible fixed assets, other than goodwill, may be included at their current cost.

(2) Tangible fixed assets may be included at a market value determined as at the date of their last valuation or at their current cost.

(3) Investments of any description falling to be included under item B III of either of the balance sheet formats set out in Part 1 of this Schedule may be included either—

- (a) at a market value determined as at the date of their last valuation, or
- (b) at a value determined on any basis which appears to the directors to be appropriate in the circumstances of the company.

But in the latter case particulars of the method of valuation adopted and of the reasons for adopting it must be disclosed in a note to the accounts.

(4) Investments of any description falling to be included under item C III of either of the balance sheet formats set out in Part 1 of this Schedule may be included at their current cost.

(5) Stocks may be included at their current cost.

Application of the depreciation rules

33.—(1) Where the value of any asset of a company is determined on any basis mentioned in paragraph 32, that value must be, or (as the case may require) be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its purchase price or production cost or any value previously so determined for that asset.

The depreciation rules apply accordingly in relation to any such asset with the substitution for any reference to its purchase price or production cost of a reference to the value most recently determined for that asset on any basis mentioned in paragraph 32.

(2) The amount of any provision for depreciation required in the case of any fixed asset by paragraphs 18 to 20 as they apply by virtue of sub-paragraph (1) is referred to below in this paragraph as the adjusted amount, and the amount of any provision which would be required by any of those paragraphs in the case of that asset according to the historical cost accounting rules is referred to as the historical cost amount.

(3) Where sub-paragraph (1) applies in the case of any fixed asset the amount of any provision for depreciation in respect of that asset—

- (a) included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question, or
- (b) taken into account in stating any item so shown which is required by note (14) of the notes on the profit and loss account formats set out in Part 1 of this Schedule to be stated after taking into account any necessary provision for depreciation or diminution in value of assets included under it,

may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided in case of departure from historical cost accounting rules

34.—(1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined on any basis mentioned in paragraph 32.

(2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item must be disclosed in a note to the accounts.

(3) In the case of each balance sheet item affected (except stocks) either—

- (a) the comparable amounts determined according to the historical cost accounting rules, or
- (b) the differences between those amounts and the corresponding amounts actually shown in the balance sheet in respect of that item,

must be shown separately in the balance sheet or in a note to the accounts.

(4) In sub-paragraph (3), references in relation to any item to the comparable amounts determined as there mentioned are references to—

- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules, and
- (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

Revaluation reserve

35.—(1) With respect to any determination of the value of an asset of a company on any basis mentioned in paragraph 32, the amount of any profit or loss arising from that determination (after allowing, where appropriate, for any provisions for depreciation or diminution in value made otherwise than by reference to the value so determined and any adjustments of any such provisions made in the light of that determination) must be credited or (as the case may be) debited to a separate reserve ("the revaluation reserve").

(2) The amount of the revaluation reserve must be shown in the company's balance sheet under a separate sub-heading in the position given for the item "revaluation reserve" in format 1 or 2 of the balance sheet formats set out in Part 1 of this Schedule, but need not be shown under that name.

(3) An amount may be transferred—

- (a) from the revaluation reserve—
 - (i) to the profit and loss account, if the amount was previously charged to that account or represents realised profit, or
 - (ii) on capitalisation,

- (b) to or from the revaluation reserve in respect of the taxation relating to any profit or loss credited or debited to the reserve.

The revaluation reserve must be reduced to the extent that the amounts transferred to it are no longer necessary for the purposes of the valuation method used.

(4) In sub-paragraph (3)(a)(ii) “capitalisation”, in relation to an amount standing to the credit of the revaluation reserve, means applying it in wholly or partly paying up unissued shares in the company to be allotted to members of the company as fully or partly paid shares.

(5) The revaluation reserve must not be reduced except as mentioned in this paragraph.

(6) The treatment for taxation purposes of amounts credited or debited to the revaluation reserve must be disclosed in a note to the accounts.

SECTION D

FAIR VALUE ACCOUNTING

Inclusion of financial instruments at fair value

36.—(1) Subject to sub-paragraphs (2) to (5), financial instruments (including derivatives) may be included at fair value.

(2) Sub-paragraph (1) does not apply to financial instruments that constitute liabilities unless—

- (a) they are held as part of a trading portfolio,
- (b) they are derivatives, or
- (c) they are financial instruments falling within sub-paragraph (4).

(3) Unless they are financial instruments falling within sub-paragraph (4), sub-paragraph (1) does not apply to—

- (a) financial instruments (other than derivatives) held to maturity,
- (b) loans and receivables originated by the company and not held for trading purposes,
- (c) interests in subsidiary undertakings, associated undertakings and joint ventures,
- (d) equity instruments issued by the company,
- (e) contracts for contingent consideration in a business combination, or
- (f) other financial instruments with such special characteristics that the instruments, according to generally accepted accounting principles or practice, should be accounted for differently from other financial instruments.

(4) Financial instruments that, under international accounting standards adopted by the European Commission on or before 5th September 2006 in accordance with the IAS Regulation, may be included in accounts at fair value, may be so included, provided that the disclosures required by such accounting standards are made.

(5) If the fair value of a financial instrument cannot be determined reliably in accordance with paragraph 37, sub-paragraph (1) does not apply to that financial instrument.

(6) In this paragraph—

“associated undertaking” has the meaning given by paragraph 19 of Schedule 6 to these Regulations;

“joint venture” has the meaning given by paragraph 18 of that Schedule.

Determination of fair value

37.—(1) The fair value of a financial instrument is its value determined in accordance with this paragraph.

(2) If a reliable market can readily be identified for the financial instrument, its fair value is determined by reference to its market value.

(3) If a reliable market cannot readily be identified for the financial instrument but can be identified for its components or for a similar instrument, its fair value is determined by reference to the market value of its components or of the similar instrument.

(4) If neither sub-paragraph (2) nor (3) applies, the fair value of the financial instrument is a value resulting from generally accepted valuation models and techniques.

(5) Any valuation models and techniques used for the purposes of sub-paragraph (4) must ensure a reasonable approximation of the market value.

Hedged items

38. A company may include any assets and liabilities, or identified portions of such assets or liabilities, that qualify as hedged items under a fair value hedge accounting system at the amount required under that system.

Other assets that may be included at fair value

- (a) investment property, and
- (b) living animals and plants,

that, under international accounting standards, may be included in accounts at fair value.

(2) Such investment property and such living animals and plants may be included at fair value, provided that all such investment property or, as the case may be, all such living animals and plants are so included where their fair value can reliably be determined.

(3) In this paragraph, “fair value” means fair value determined in accordance with relevant international accounting standards.

Accounting for changes in value

40.—(1) This paragraph applies where a financial instrument is valued in accordance with paragraph 36 or 38 or an asset is valued in accordance with paragraph 39.

(2) Notwithstanding paragraph 13 in this Part of this Schedule, and subject to sub-paragraphs (3) and (4), a change in the value of the financial instrument or of the investment property or living animal or plant must be included in the profit and loss account.

(3) Where—

- (a) the financial instrument accounted for is a hedging instrument under a hedge accounting system that allows some or all of the change in value not to be shown in the profit and loss account, or
- (b) the change in value relates to an exchange difference arising on a monetary item that forms part of a company’s net investment in a foreign entity,

the amount of the change in value must be credited to or (as the case may be) debited from a separate reserve (“the fair value reserve”).

(4) Where the instrument accounted for—

- (a) is an available for sale financial asset, and
- (b) is not a derivative,

the change in value may be credited to or (as the case may be) debited from the fair value reserve.

The fair value reserve

41.—(1) The fair value reserve must be adjusted to the extent that the amounts shown in it are no longer necessary for the purposes of paragraph 40(3) or (4).

(2) The treatment for taxation purposes of amounts credited or debited to the fair value reserve must be disclosed in a note to the accounts.

PART 2
ACCOUNTING PRINCIPLES AND RULES
SECTION A
ACCOUNTING PRINCIPLES

Preliminary

16.—(1) The amounts to be included in respect of all items shown in a company's accounts must be determined in accordance with the principles set out in this Section.

(2) But if it appears to the company's directors that there are special reasons for departing from any of those principles in preparing the company's accounts in respect of any financial year they may do so, in which case particulars of the departure, the reasons for it and its effect must be given in a note to the accounts.

Accounting principles

17. The company is presumed to be carrying on business as a going concern.

18. Accounting policies must be applied consistently within the same accounts and from one financial year to the next.

19. The amount of any item must be determined on a prudent basis, and in particular—

- (a) only profits realised at the balance sheet date are to be included in the profit and loss account, and
- (b) all liabilities which have arisen in respect of the financial year to which the accounts relate or a previous financial year must be taken into account, including those which only become apparent between the balance sheet date and the date on which it is signed on behalf of the board of directors in accordance with section 414 of the 2006 Act (approval and signing of accounts).

20. All income and charges relating to the financial year to which the accounts relate must be taken into account, without regard to the date of receipt or payment.

21. In determining the aggregate amount of any item, the amount of each individual asset or liability that falls to be taken into account must be determined separately.

SECTION B
HISTORICAL COST ACCOUNTING RULES

Preliminary

22. Subject to Sections C and D of this Part of this Schedule, the amounts to be included in respect of all items shown in a company's accounts must be determined in accordance with the rules set out in this Section.

Fixed assets

General rules

23.—(1) The amount to be included in respect of any fixed asset is its cost.

(2) This is subject to any provision for depreciation or diminution in value made in accordance with paragraphs 24 to 26.

Rules for depreciation and diminution in value

24. In the case of any fixed asset which has a limited useful economic life, the amount of—

- (a) its cost, or
- (b) where it is estimated that any such asset will have a residual value at the end of the period of its useful economic life, its cost less that estimated residual value,

must be reduced by provisions for depreciation calculated to write off that amount systematically over the period of the asset's useful economic life.

25.—(1) Where a fixed asset investment to which sub-paragraph (2) applies has diminished in value, provisions for diminution in value may be made in respect of it and the amount to be included in respect of it may be reduced accordingly.

(2) This sub-paragraph applies to fixed asset investments of a description falling to be included under assets item 7 (participating interests) or 8 (shares in group undertakings) in the balance sheet format, or any other holding of securities held as a financial fixed asset.

(3) Provisions for diminution in value must be made in respect of any fixed asset which has diminished in value if the reduction in its value is expected to be permanent (whether its useful economic life is limited or not), and the amount to be included in respect of it must be reduced accordingly.

(4) Any provisions made under this paragraph which are not shown in the profit and loss account must be disclosed (either separately or in aggregate) in a note to the accounts.

26.—(1) Where the reasons for which any provision was made in accordance with paragraph 25 have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

(2) Any amounts written back in accordance with sub-paragraph (1) which are not shown in the profit and loss account must be disclosed (either separately or in aggregate) in a note to the accounts.

Development costs

27.—(1) Notwithstanding that amounts representing “development costs” may be included under assets item 9 in the balance sheet format, an amount may only be included in a company's balance sheet in respect of development costs in special circumstances.

(2) If any amount is included in a company's balance sheet in respect of development costs the following information must be given in a note to the accounts—

- (a) the period over which the amount of those costs originally capitalised is being or is to be written off, and
- (b) the reasons for capitalising the development costs in question.

Goodwill

28.—(1) The application of paragraphs 23 to 26 in relation to goodwill (in any case where goodwill is treated as an asset) is subject to the following.

(2) Subject to sub-paragraph (3), the amount of the consideration for any goodwill acquired by a company must be reduced by provisions for depreciation calculated to write off that amount systematically over a period chosen by the directors of the company.

(3) The period chosen must not exceed the useful economic life of the goodwill in question.

(4) In any case where any goodwill acquired by a company is included as an asset in the company's balance sheet there must be disclosed in a note to the accounts—

- (a) the period chosen for writing off the consideration for that goodwill, and
- (b) the reasons for choosing that period.

Treatment of fixed assets

29.—(1) Assets included in assets items 9 (intangible fixed assets) and 10 (tangible fixed assets) in the balance sheet format must be valued as fixed assets.

(2) Other assets falling to be included in the balance sheet must be valued as fixed assets where they are intended for use on a continuing basis in the company's activities.

Financial fixed assets

30.—(1) Debt securities, including fixed-income securities, held as financial fixed assets must be included in the balance sheet at an amount equal to their maturity value plus any premium, or less any discount, on their purchase, subject to the following provisions of this paragraph.

(2) The amount included in the balance sheet with respect to such securities purchased at a premium must be reduced each financial year on a systematic basis so as to write the premium off over the period to the maturity date of the security and the amounts so written off must be charged to the profit and loss account for the relevant financial years.

(3) The amount included in the balance sheet with respect to such securities purchased at a discount must be increased each financial year on a systematic basis so as to extinguish the discount over the period to the maturity date of the security and the amounts by which the amount is increased must be credited to the profit and loss account for the relevant years.

(4) The notes to the accounts must disclose the amount of any unamortized premium or discount not extinguished which is included in the balance sheet by virtue of sub-paragraph (1).

(5) For the purposes of this paragraph "premium" means any excess of the amount paid for a security over its maturity value and "discount" means any deficit of the amount paid for a security over its maturity value.

Current assets

31. The amount to be included in respect of loans and advances, debt or other fixed-income securities and equity shares or other variable yield securities not held as financial fixed assets must be their cost, subject to paragraphs 32 and 33.

32.—(1) If the net realisable value of any asset referred to in paragraph 31 is lower than its cost, the amount to be included in respect of that asset is the net realisable value.

(2) Where the reasons for which any provision for diminution in value was made in accordance with sub-paragraph (1) have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

33.—(1) Subject to paragraph 32, the amount to be included in the balance sheet in respect of transferable securities not held as financial fixed assets may be the higher of their cost or their market value at the balance sheet date.

(2) The difference between the cost of any securities included in the balance sheet at a valuation under sub-paragraph (1) and their market value must be shown (in aggregate) in the notes to the accounts.

Miscellaneous and supplementary provisions

Excess of money owed over value received as an asset item

34.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

- (a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and
- (b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Determination of cost

35.—(1) The cost of an asset that has been acquired by the company is to be determined by adding to the actual price paid any expenses incidental to its acquisition.

(2) The cost of an asset constructed by the company is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the construction of that asset.

(3) In addition, there may be included in the cost of an asset constructed by the company—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction, and
- (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

36.—(1) The cost of any assets which are fungible assets (including investments), may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as “first in, first out” (FIFO),
- (b) the method known as “last in, first out” (LIFO),
- (c) a weighted average price, and
- (d) any other method similar to any of the methods mentioned above.

(3) Where in the case of any company—

- (a) the cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph, and
- (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph,

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would

have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

Substitution of original stated amount where price or cost unknown

37.—(1) This paragraph applies where—

- (a) there is no record of the purchase price of any asset acquired by a company or of any price, expenses or costs relevant for determining its cost in accordance with paragraph 35, or
- (b) any such record cannot be obtained without unreasonable expense or delay.

(2) In such a case, its cost is to be taken, for the purposes of paragraphs 23 to 33, to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.

SECTION C

ALTERNATIVE ACCOUNTING RULES

Preliminary

38.—(1) The rules set out in Section B are referred to below in this Schedule as the historical cost accounting rules.

(2) Paragraphs 23 to 26 and 30 to 34 are referred to below in this Section as the depreciation rules; and references below in this Schedule to the historical cost accounting rules do not include the depreciation rules as they apply by virtue of paragraph 41.

39. Subject to paragraphs 41 to 43, the amounts to be included in respect of assets of any description mentioned in paragraph 40 may be determined on any basis so mentioned.

Alternative accounting rules

40.—(1) Intangible fixed assets, other than goodwill, may be included at their current cost.

(2) Tangible fixed assets may be included at a market value determined as at the date of their last valuation or at their current cost.

(3) Investments of any description falling to be included under assets items 7 (participating interests) or 8 (shares in group undertakings) of the balance sheet format and any other securities held as financial fixed assets may be included either—

- (a) at a market value determined as at the date of their last valuation, or
- (b) at a value determined on any basis which appears to the directors to be appropriate in the circumstances of the company.

But in the latter case particulars of the method of valuation adopted and of the reasons for adopting it must be disclosed in a note to the accounts.

(4) Securities of any description not held as financial fixed assets (if not valued in accordance with paragraph 33) may be included at their current cost.

Application of the depreciation rules

41.—(1) Where the value of any asset of a company is determined in accordance with paragraph 40, that value must be, or (as the case may require) be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its cost or any value previously so determined for that asset.

The depreciation rules apply accordingly in relation to any such asset with the substitution for any reference to its cost of a reference to the value most recently determined for that asset in accordance with paragraph 40.

(2) The amount of any provision for depreciation required in the case of any fixed asset by paragraphs 24 to 26 as they apply by virtue of sub-paragraph (1) is referred to below in this paragraph as the adjusted amount, and the amount of any provision which would be required by any of those paragraphs in the case of that asset according to the historical cost accounting rules is referred to as the historical cost amount.

(3) Where sub-paragraph (1) applies in the case of any fixed asset the amount of any provision for depreciation in respect of that asset included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided in case of departure from historical cost accounting rules

42.—(1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined in accordance with paragraph 40.

(2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item must be disclosed in a note to the accounts.

(3) In the case of each balance sheet item affected either—

- (a) the comparable amounts determined according to the historical cost accounting rules, or
- (b) the differences between those amounts and the corresponding amounts actually shown in the balance sheet in respect of that item,

must be shown separately in the balance sheet or in a note to the accounts.

(4) In sub-paragraph (3), references in relation to any item to the comparable amounts determined as there mentioned are references to—

- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules, and
- (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

Revaluation reserve

43.—(1) With respect to any determination of the value of an asset of a company in accordance with paragraph 40, the amount of any profit or loss arising from that determination (after allowing, where appropriate, for any provisions for depreciation or diminution in value made otherwise than by reference to the value so determined and any adjustments of any such provisions made in the light of that determination) must be credited or (as the case may be) debited to a separate reserve ("the revaluation reserve").

(2) The amount of the revaluation reserve must be shown in the company's balance sheet under liabilities item 11 in the balance sheet format, but need not be shown under that name.

(3) An amount may be transferred—

(a) from the revaluation reserve—

(i) to the profit and loss account, if the amount was previously charged to that account or represents realised profit, or

(ii) on capitalisation,

(b) to or from the revaluation reserve in respect of the taxation relating to any profit or loss credited or debited to the reserve.

The revaluation reserve must be reduced to the extent that the amounts transferred to it are no longer necessary for the purposes of the valuation method used.

(4) In sub-paragraph (3)(a)(ii) “capitalisation”, in relation to an amount standing to the credit of the revaluation reserve, means applying it in wholly or partly paying up unissued shares in the company to be allotted to members of the company as fully or partly paid shares.

(5) The revaluation reserve must not be reduced except as mentioned in this paragraph.

(6) The treatment for taxation purposes of amounts credited or debited to the revaluation reserve must be disclosed in a note to the accounts.

SECTION D

FAIR VALUE ACCOUNTING

Inclusion of financial instruments at fair value

44.—(1) Subject to sub-paragraphs (2) to (5), financial instruments (including derivatives) may be included at fair value.

(2) Sub-paragraph (1) does not apply to financial instruments that constitute liabilities unless—

(a) they are held as part of a trading portfolio,

(b) they are derivatives, or

(c) they are financial instruments falling within sub-paragraph (4).

(3) Unless they are financial instruments falling within sub-paragraph (4), sub-paragraph (1) does not apply to—

(a) financial instruments (other than derivatives) held to maturity,

(b) loans and receivables originated by the company and not held for trading purposes,

(c) interests in subsidiary undertakings, associated undertakings and joint ventures,

(d) equity instruments issued by the company,

(e) contracts for contingent consideration in a business combination, or

(f) other financial instruments with such special characteristics that the instruments, according to generally accepted accounting principles or practice, should be accounted for differently from other financial instruments.

(4) Financial instruments that, under international accounting standards adopted by the European Commission on or before 5th September 2006 in accordance with the IAS Regulation, may be included in accounts at fair value, may be so included, provided that the disclosures required by such accounting standards are made.

(5) If the fair value of a financial instrument cannot be determined reliably in accordance with paragraph 45, sub-paragraph (1) does not apply to that financial instrument.

(6) In this paragraph—

“associated undertaking” has the meaning given by paragraph 19 of Schedule 6 to these Regulations;

“joint venture” has the meaning given by paragraph 18 of that Schedule.

Determination of fair value

45.—(1) The fair value of a financial instrument is its value determined in accordance with this paragraph.

(2) If a reliable market can readily be identified for the financial instrument, its fair value is determined by reference to its market value.

(3) If a reliable market cannot readily be identified for the financial instrument but can be identified for its components or for a similar instrument, its fair value is determined by reference to the market value of its components or of the similar instrument.

(4) If neither sub-paragraph (2) nor (3) applies, the fair value of the financial instrument is a value resulting from generally accepted valuation models and techniques.

(5) Any valuation models and techniques used for the purposes of sub-paragraph (4) must ensure a reasonable approximation of the market value.

Hedged items

46. A company may include any assets and liabilities, or identified portions of such assets or liabilities, that qualify as hedged items under a fair value hedge accounting system at the amount required under that system.

Other assets that may be included at fair value

47.—(1) This paragraph applies to—

- (a) investment property, and
- (b) living animals and plants,

that, under international accounting standards, may be included in accounts at fair value.

(2) Such investment property and such living animals and plants may be included at fair value, provided that all such investment property or, as the case may be, all such living animals and plants are so included where their fair value can reliably be determined.

(3) In this paragraph, “fair value” means fair value determined in accordance with relevant international accounting standards.

Accounting for changes in value

48.—(1) This paragraph applies where a financial instrument is valued in accordance with paragraph 44 or 46 or an asset is valued in accordance with paragraph 47.

(2) Notwithstanding paragraph 19 in this Part of this Schedule, and subject to sub-paragraphs (3) and (4), a change in the value of the financial instrument or of the investment property or living animal or plant must be included in the profit and loss account.

(3) Where—

- (a) the financial instrument accounted for is a hedging instrument under a hedge accounting system that allows some or all of the change in value not to be shown in the profit and loss account, or

- (b) the change in value relates to an exchange difference arising on a monetary item that forms part of a company's net investment in a foreign entity,

the amount of the change in value must be credited to or (as the case may be) debited from a separate reserve ("the fair value reserve").

- (4) Where the instrument accounted for—
 - (a) is an available for sale financial asset, and
 - (b) is not a derivative,

the change in value may be credited to or (as the case may be) debited from the fair value reserve.

The fair value reserve

49.—(1) The fair value reserve must be adjusted to the extent that the amounts shown in it are no longer necessary for the purposes of paragraph 48(3) or (4).

(2) The treatment for taxation purposes of amounts credited or debited to the fair value reserve must be disclosed in a note to the accounts.

Assets and liabilities denominated in foreign currencies

50.—(1) Subject to the following sub-paragraphs, amounts to be included in respect of assets and liabilities denominated in foreign currencies must be in sterling (or the currency in which the accounts are drawn up) after translation at an appropriate spot rate of exchange prevailing at the balance sheet date.

(2) An appropriate rate of exchange prevailing on the date of purchase may however be used for assets held as financial fixed assets and assets to be included under assets items 9 (intangible fixed assets) and 10 (tangible fixed assets) in the balance sheet format, if they are not covered or not specifically covered in either the spot or forward currency markets.

(3) An appropriate spot rate of exchange prevailing at the balance sheet date must be used for translating uncompleted spot exchange transactions.

(4) An appropriate forward rate of exchange prevailing at the balance sheet date must be used for translating uncompleted forward exchange transactions.

(5) This paragraph does not apply to any assets or liabilities held, or any transactions entered into, for hedging purposes or to any assets or liabilities which are themselves hedged.

51.—(1) Subject to sub-paragraph (2), any difference between the amount to be included in respect of an asset or liability under paragraph 50 and the book value, after translation into sterling (or the currency in which the accounts are drawn up) at an appropriate rate, of that asset or liability must be credited or, as the case may be, debited to the profit and loss account.

(2) In the case, however, of assets held as financial fixed assets, of assets to be included under assets items 9 (intangible fixed assets) and 10 (tangible fixed assets) in the balance sheet format and of transactions undertaken to cover such assets, any such difference may be deducted from or credited to any non-distributable reserve available for the purpose.

PART 3

NOTES TO THE ACCOUNTS

Preliminary

52. Any information required in the case of any company by the following provisions of this Part of this Schedule must (if not given in the company's accounts) be given by way of a note to the accounts.

General

Disclosure of accounting policies

53. The accounting policies adopted by the company in determining the amounts to be included in respect of items shown in the balance sheet and in determining the profit or loss of the company must be stated (including such policies with respect to the depreciation and diminution in value of assets).

54. It must be stated whether the accounts have been prepared in accordance with applicable accounting standards and particulars of any material departure from those standards and the reasons for it must be given.

Sums denominated in foreign currencies

55. Where any sums originally denominated in foreign currencies have been brought into account under any items shown in the balance sheet format or profit and loss account formats, the basis on which those sums have been translated into sterling (or the currency in which the accounts are drawn up) must be stated.

Reserves and dividends

56. There must be stated—

- (a) any amount set aside or proposed to be set aside to, or withdrawn or proposed to be withdrawn from, reserves,
- (b) the aggregate amount of dividends paid in the financial year (other than those for which a liability existed at the immediately preceding balance sheet date),
- (c) the aggregate amount of dividends that the company is liable to pay at the balance sheet date, and

(2) *Concessions, patents, licences, trade marks and similar rights and assets*

(Assets item B.2.)

Amounts in respect of assets are only to be included in a company's balance sheet under this item if either—

- (a) the assets were acquired for valuable consideration and are not required to be shown under goodwill, or
- (b) the assets in question were created by the company itself.

(3) *Goodwill*

(Assets item B.3.)

Amounts representing goodwill are only to be included to the extent that the goodwill was acquired for valuable consideration.

(4) *Land and buildings*

(Assets item C.I.)

The amount of any land and buildings occupied by the company for its own activities must be shown separately in the notes to the accounts.

(5) *Debt securities and other fixed-income securities*

(Assets item C.III.2.)

This item is to comprise transferable debt securities and any other transferable fixed-income securities issued by credit institutions, other undertakings or public bodies, in so far as they are not covered by assets item C.II.2 or C.II.4.

Securities bearing interest rates that vary in accordance with specific factors, for example the interest rate on the inter-bank market or on the Euromarket, are also to be regarded as debt securities and other fixed-income securities and so be included under this item.

(6) Participation in investment pools

(Assets item C.III.3.)

This item is to comprise shares held by the company in joint investments constituted by several undertakings or pension funds, the management of which has been entrusted to one of those undertakings or to one of those pension funds.

(7) Loans secured by mortgages and other loans

(Assets items C.III.4 and C.III.5.)

Loans to policyholders for which the policy is the main security are to be included under “Other loans” and their amount must be disclosed in the notes to the accounts. Loans secured by mortgage are to be shown as such even where they are also secured by insurance policies. Where the amount of “Other loans” not secured by policies is material, an appropriate breakdown must be given in the notes to the accounts.

(8) Deposits with credit institutions

(Assets item C.III.6.)

This item is to comprise sums the withdrawal of which is subject to a time restriction. Sums deposited with no such restriction must be shown under assets item F.III even if they bear interest.

(9) Other

(Assets item C.III.7.)

This item is to comprise those investments which are not covered by assets items C.III.1 to 6. Where the amount of such investments is significant, they must be disclosed in the notes to the accounts.

(10) Deposits with ceding undertakings

(Assets item C.IV.)

Where the company accepts reinsurance this item is to comprise amounts, owed by the ceding undertakings and corresponding to guarantees, which are deposited with those ceding undertakings or with third parties or which are retained by those undertakings.

These amounts may not be combined with other amounts owed by the ceding insurer to the reinsurer or set off against amounts owed by the reinsurer to the ceding insurer.

Securities deposited with ceding undertakings or third parties which remain the property of the company must be entered in the company’s accounts as an investment, under the appropriate item.

(11) Assets held to cover linked liabilities

(Assets item D.)

In respect of long-term business, this item is to comprise investments made pursuant to long-term policies under which the benefits payable to the policyholder are wholly or partly to be determined by reference to the value of, or the income from, property of any description (whether or not specified in the contract) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified).

This item is also to comprise investments which are held on behalf of the members of a tontine and are intended for distribution among them.

(12) Reinsurance amounts

(Assets item Da: liabilities items C.1.(b), 2.(b), 3.(b), 4.(b) and 6.(b) and D.(b).)

The reinsurance amounts may be shown either under assets item Da or under liabilities items C.1.(b), 2.(b), 3.(b), 4.(b) and 6.(b) and D.(b).

The reinsurance amounts are to comprise the actual or estimated amounts which, under contractual reinsurance arrangements, are deducted from the gross amounts of technical provisions.

(17) Deferred acquisition costs

(Assets item G.II.)

This item is to comprise the costs of acquiring insurance policies which are incurred during a financial year but relate to a subsequent financial year (“deferred acquisition costs”), except in so far as—

- (a) allowance has been made in the computation of the long-term business provision made under paragraph 52 below and shown under liabilities item C2 or D in the balance sheet, for—
 - (i) the explicit recognition of such costs, or
 - (ii) the implicit recognition of such costs by virtue of the anticipation of future income from which such costs may prudently be expected to be recovered, or
- (b) allowance has been made for such costs in respect of general business policies by a deduction from the provision for unearned premiums made under paragraph 50 below and shown under liabilities item C.I in the balance sheet.

Deferred acquisition costs arising in general business must be distinguished from those arising in long-term business.

In the case of general business, the amount of any deferred acquisition costs must be established on a basis compatible with that used for unearned premiums.

There must be disclosed in the notes to the accounts—

- (c) how the deferral of acquisition costs has been treated (unless otherwise expressly stated in the accounts), and
- (d) where such costs are included as a deduction from the provisions at liabilities item C.I, the amount of such deduction, or
- (e) where the actuarial method used in the calculation of the provisions at liabilities item C.2 or D has made allowance for the explicit recognition of such costs, the amount of the costs so recognised.

(18) Subordinated liabilities

(Liabilities item B.)

(21) Long-term business provision

This item is to comprise the actuarially estimated value of the company's liabilities (excluding technical provisions included in liabilities item D), including bonuses already declared and after deducting the actuarial value of future premiums.

(26) Technical provisions for linked liabilities

(Liabilities item D.)

This item is to comprise technical provisions constituted to cover liabilities relating to investment in the context of long-term policies under which the benefits payable to policyholders are wholly or partly to be determined by reference to the value of, or the income from, property of any description (whether or not specified in the contract) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified).

Any additional technical provisions constituted to cover death risks, operating expenses or other risks (such as benefits payable at the maturity date or guaranteed surrender values) must be included under liabilities item C.2.

Special rules for balance sheet format

Additional items

11.—(1) Every balance sheet of a company which carries on long-term business must show separately as an additional item the aggregate of any amounts included in liabilities item A (capital and reserves) which are required not to be treated as realised profits under section 843 of the 2006 Act.

(2) A company which carries on long-term business must show separately, in the balance sheet or in the notes to the accounts, the total amount of assets representing the long-term fund valued in accordance with the provisions of this Schedule.

Notes on the profit and loss account format

(1) Gross premiums written

(General business technical account: item I.1.(a).)

Long-term business technical account: item II.1.(a).)

This item is to comprise all amounts due during the financial year in respect of insurance contracts entered into regardless of the fact that such amounts may relate in whole or in part to a later financial year, and must include inter alia—

- (i) premiums yet to be determined, where the premium calculation can be done only at the end of the year;
- (ii) single premiums, including annuity premiums, and, in long-term business, single premiums resulting from bonus and rebate provisions in so far as they must be considered as premiums under the terms of the contract;
- (iii) additional premiums in the case of half-yearly, quarterly or monthly payments and additional payments from policyholders for expenses borne by the company;
- (iv) in the case of co-insurance, the company's portion of total premiums;
- (v) reinsurance premiums due from ceding and retroceding insurance undertakings, including portfolio entries,

after deduction of cancellations and portfolio withdrawals credited to ceding and retroceding insurance undertakings.

The above amounts must not include the amounts of taxes or duties levied with premiums.

(2) Outward reinsurance premiums

(General business technical account: item I.1.(b).)

Long-term business technical account: item II.1.(b).)

This item is to comprise all premiums paid or payable in respect of outward reinsurance contracts entered into by the company. Portfolio entries payable on the conclusion or amendment of outward reinsurance contracts must be added; portfolio withdrawals receivable must be deducted.

(3) Change in the provision for unearned premiums, net of reinsurance

(Long-term business technical account: items II.1.(c) and II.6.(a).)

In the case of long-term business, the change in unearned premiums may be included either in item II.1.(c) or in item II.6.(a) of the long-term business technical account.

(4) Claims incurred, net of reinsurance

(General business technical account: item I.4.

Long-term business technical account: item II.5.)

This item is to comprise all payments made in respect of the financial year with the addition of the provision for claims (but after deducting the provision for claims for the preceding financial year).

These amounts must include annuities, surrenders, entries and withdrawals of loss provisions to and from ceding insurance undertakings and reinsurers and external and internal claims management costs and charges for claims incurred but not reported such as are referred to in paragraphs 53(2) and 55 below.

Sums recoverable on the basis of subrogation and salvage (within the meaning of paragraph 53 below) must be deducted.

Where the difference between—

- (a) the loss provision made at the beginning of the year for outstanding claims incurred in previous years, and
- (b) the payments made during the year on account of claims incurred in previous years and the loss provision shown at the end of the year for such outstanding claims,

is material, it must be shown in the notes to the accounts, broken down by category and amount.

(5) Bonuses and rebates, net of reinsurance

(General business technical account: item I.6.

Long-term business technical account: item II.7.)

Bonuses are to comprise all amounts chargeable for the financial year which are paid or payable to policyholders and other insured parties or provided for their benefit, including amounts used to increase technical provisions or applied to the reduction of future premiums, to the extent that such amounts represent an allocation of surplus or profit arising on business as a whole or a section of business, after deduction of amounts provided in previous years which are no longer required.

Rebates are to comprise such amounts to the extent that they represent a partial refund of premiums resulting from the experience of individual contracts.

Where material, the amount charged for bonuses and that charged for rebates must be disclosed separately in the notes to the accounts.

(6) Acquisition costs

(General business technical account: item I.7.(a).

Long-term business technical account: item II.8.(a).)

This item is to comprise the costs arising from the conclusion of insurance contracts. They must cover both direct costs, such as acquisition commissions or the cost of drawing up the insurance document

or including the insurance contract in the portfolio, and indirect costs, such as advertising costs or the administrative expenses connected with the processing of proposals and the issuing of policies.

In the case of long-term business, policy renewal commissions must be included under item II.8.(c) in the long-term business technical account.

(7) Administrative expenses

(General business technical account: item I.7.(c).

Long-term business technical account: item II.8.(c).)

This item must include the costs arising from premium collection, portfolio administration, handling of bonuses and rebates, and inward and outward reinsurance. They must in particular include staff costs and depreciation provisions in respect of office furniture and equipment in so far as these need not be shown under acquisition costs, claims incurred or investment charges.

Item II.8.(c) must also include policy renewal commissions.

(8) Investment income, expenses and charges

(General business technical account: items I.2a and 8a.

Long-term business technical account: items II.2 and 9.

Non-technical account: items III.3 and 5.)

Investment income, expenses and charges must, to the extent that they arise in the long-term fund, be disclosed in the long-term business technical account. Other investment income, expenses and charges must either be disclosed in the non-technical account or attributed between the appropriate technical and non-technical accounts. Where the company makes such an attribution it must disclose the basis for it in the notes to the accounts.

(9) Unrealised gains and losses on investments

(Long-term business technical account: items II.3 and 10.

Non-technical account: items III.3a and 5a.)

In the case of investments attributed to the long-term fund, the difference between the valuation of the investments and their purchase price or, if they have previously been valued, their valuation as at the last balance sheet date, may be disclosed (in whole or in part) in item II.3 or II.10 (as the case may be) of the long-term business technical account, and in the case of investments shown as assets under assets item D (assets held to cover linked liabilities) must be so disclosed.

In the case of other investments, the difference between the valuation of the investments and their purchase price or, if they have previously been valued, their valuation as at the last balance sheet date, may be disclosed (in whole or in part) in item III.3a or III.5a (as the case may require) of the non-technical account.

(10) Allocated investment return

(General business technical account: item I.2.

Long-term business technical account: item II.2.

Non-technical account: items III.4 and 6.)

The allocated return may be transferred from one part of the profit and loss account to another.

Where part of the investment return is transferred to the general business technical account, the transfer from the non-technical account must be deducted from item III.6 and added to item I.2.

Where part of the investment return disclosed in the long-term business technical account is transferred to the non-technical account, the transfer to the non-technical account shall be deducted from item II.12 and added to item III.4.

The reasons for such transfers (which may consist of a reference to any relevant statutory requirement) and the bases on which they are made must be disclosed in the notes to the accounts.

PART 2

ACCOUNTING PRINCIPLES AND RULES

SECTION A

ACCOUNTING PRINCIPLES

Preliminary

14. The amounts to be included in respect of all items shown in a company's accounts must be determined in accordance with the principles set out in this Section.

15. But if it appears to the company's directors that there are special reasons for departing from any of those principles in preparing the company's accounts in respect of any financial year they may do so, in which case particulars of the departure, the reasons for it and its effect must be given in a note to the accounts.

Accounting principles

16. The company is presumed to be carrying on business as a going concern.

17. Accounting policies must be applied consistently within the same accounts and from one financial year to the next.

18. The amount of any item must be determined on a prudent basis, and in particular—

- (a) subject to note (9) on the profit and loss account format, only profits realised at the balance sheet date are to be included in the profit and loss account, and
- (b) all liabilities which have arisen in respect of the financial year to which the accounts relate or a previous financial year must be taken into account, including those which only become apparent between the balance sheet date and the date on which it is signed on behalf of the board of directors in accordance with section 414 of the 2006 Act (approval and signing of accounts).

19. All income and charges relating to the financial year to which the accounts relate are to be taken into account, without regard to the date of receipt or payment.

20. In determining the aggregate amount of any item, the amount of each individual asset or liability that falls to be taken into account must be determined separately.

Valuation

21.—(1) The amounts to be included in respect of assets of any description mentioned in paragraph 22 (valuation of assets: general) must be determined either—

- (a) in accordance with that paragraph and paragraph 24 (but subject to paragraphs 27 to 29), or
 - (b) so far as applicable to an asset of that description, in accordance with Section C (valuation at fair value).
- (2) The amounts to be included in respect of assets of any description mentioned in paragraph 24 (alternative valuation of fixed-income securities) may be determined—
- (a) in accordance with that paragraph (but subject to paragraphs 27 to 29), or
 - (b) so far as applicable to an asset of that description, in accordance with Section C.
- (3) The amounts to be included in respect of assets which—
- (a) are not assets of a description mentioned in paragraph 22 or 23, but
 - (b) are assets of a description to which Section C is applicable,
- may be determined in accordance with that Section.
- (4) Subject to sub-paragraphs (1) to (3), the amounts to be included in respect of all items shown in a company's accounts are determined in accordance with Section C.

SECTION B

CURRENT VALUE ACCOUNTING RULES

Valuation of assets: general

22.—(1) Subject to paragraph 24, investments falling to be included under assets item C (investments) must be included at their current value calculated in accordance with paragraphs 25 and 26.

(2) Investments falling to be included under assets item D (assets held to cover linked liabilities) must be shown at their current value calculated in accordance with paragraphs 25 and 26.

23.—(1) Intangible assets other than goodwill may be shown at their current cost.

(2) Assets falling to be included under assets items F.I (tangible assets) and F.IV (own shares) in the balance sheet format may be shown at their current value calculated in accordance with paragraphs 25 and 26 or at their current cost.

(3) Assets falling to be included under assets item F.II (stocks) may be shown at current cost.

Alternative valuation of fixed-income securities

24.—(1) This paragraph applies to debt securities and other fixed-income securities shown as assets under assets items C.II (investments in group undertakings and participating interests) and C.III (other financial investments).

(2) Securities to which this paragraph applies may either be valued in accordance with paragraph 22 or their amortised value may be shown in the balance sheet, in which case the provisions of this paragraph apply.

(3) Subject to sub-paragraph (4), where the purchase price of securities to which this paragraph applies exceeds the amount repayable at maturity, the amount of the difference—

- (a) must be charged to the profit and loss account, and
- (b) must be shown separately in the balance sheet or in the notes to the accounts.

(4) The amount of the difference referred to in sub-paragraph (3) may be written off in instalments so that it is completely written off when the securities are repaid, in which case there must be shown separately in the balance sheet or in the notes to the accounts the difference between the purchase price (less the aggregate amount written off) and the amount repayable at maturity.

(5) Where the purchase price of securities to which this paragraph applies is less than the amount repayable at maturity, the amount of the difference must be released to income in instalments over the period remaining until repayment, in which case there must be shown separately in the balance sheet or in the notes to the accounts the difference between the purchase price (plus the aggregate amount released to income) and the amount repayable at maturity.

(6) Both the purchase price and the current value of securities valued in accordance with this paragraph must be disclosed in the notes to the accounts.

(7) Where securities to which this paragraph applies which are not valued in accordance with paragraph 22 are sold before maturity, and the proceeds are used to purchase other securities to which this paragraph applies, the difference between the proceeds of sale and their book value may be spread uniformly over the period remaining until the maturity of the original investment.

Meaning of “current value”

25.—(1) Subject to sub-paragraph (5), in the case of investments other than land and buildings, current value means market value determined in accordance with this paragraph.

(2) In the case of listed investments, market value means the value on the balance sheet date or, when the balance sheet date is not a stock exchange trading day, on the last stock exchange trading day before that date.

(3) Where a market exists for unlisted investments, market value means the average price at which such investments were traded on the balance sheet date or, when the balance sheet date is not a trading day, on the last trading day before that date.

(4) Where, on the date on which the accounts are drawn up, listed or unlisted investments have been sold or are to be sold within the short term, the market value must be reduced by the actual or estimated realisation costs.

(5) Except where the equity method of accounting is applied, all investments other than those referred to in sub-paragraphs (2) and (3) must be valued on a basis which has prudent regard to the likely realisable value.

26.—(1) In the case of land and buildings, current value means the market value on the date of valuation, where relevant reduced as provided in sub-paragraphs (4) and (5).

(2) Market value means the price at which land and buildings could be sold under private contract between a willing seller and an arm's length buyer on the date of valuation, it being assumed that the property is publicly exposed to the market, that market conditions permit orderly disposal and that a normal period, having regard to the nature of the property, is available for the negotiation of the sale.

(3) The market value must be determined through the separate valuation of each land and buildings item, carried out at least every five years in accordance with generally recognised methods of valuation.

(4) Where the value of any land and buildings item has diminished since the preceding valuation under sub-paragraph (3), an appropriate value adjustment must be made.

(5) The lower value arrived at under sub-paragraph (4) must not be increased in subsequent balance sheets unless such increase results from a new determination of market value arrived at in accordance with sub-paragraphs (2) and (3).

(6) Where, on the date on which the accounts are drawn up, land and buildings have been sold or are to be sold within the short term, the value arrived at in accordance with sub-paragraphs (2) and (4) must be reduced by the actual or estimated realisation costs.

(7) Where it is impossible to determine the market value of a land and buildings item, the value arrived at on the basis of the principle of purchase price or production cost is deemed to be its current value.

Application of the depreciation rules

27.—(1) Where—

- (a) the value of any asset of a company is determined in accordance with paragraph 22 or 23, and
- (b) in the case of a determination under paragraph 22, the asset falls to be included under assets item C.I,

that value must be, or (as the case may require) must be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its cost or any value previously so determined for that asset.

Paragraphs 36 to 41 and 43 apply accordingly in relation to any such asset with the substitution for any reference to its cost of a reference to the value most recently determined for that asset in accordance with paragraph 22 or 23 (as the case may be).

(2) The amount of any provision for depreciation required in the case of any asset by paragraph 37 or 38 as it applies by virtue of sub-paragraph (1) is referred to below in this paragraph as the adjusted amount, and the amount of any provision which would be required by that paragraph in the case of that asset according to the historical cost accounting rules is referred to as the historical cost amount.

(3) Where sub-paragraph (1) applies in the case of any asset the amount of any provision for depreciation in respect of that asset included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided

28.—(1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined in accordance with paragraph 22 or 23.

(2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item must be disclosed in a note to the accounts.

(3) The purchase price of investments valued in accordance with paragraph 22 must be disclosed in the notes to the accounts.

(4) In the case of each balance sheet item valued in accordance with paragraph 23 either—

- (a) the comparable amounts determined according to the historical cost accounting rules (without any provision for depreciation or diminution in value), or
- (b) the differences between those amounts and the corresponding amounts actually shown in the balance sheet in respect of that item,

must be shown separately in the balance sheet or in a note to the accounts.

(5) In sub-paragraph (4), references in relation to any item to the comparable amounts determined as there mentioned are references to—

- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules, and
- (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

Revaluation reserve

29.—(1) Subject to sub-paragraph (7), with respect to any determination of the value of an asset of a company in accordance with paragraph 22 or 23, the amount of any profit or loss arising from that determination (after allowing, where appropriate, for any provisions for depreciation or diminution in value made otherwise than by reference to the value so determined and any adjustments of any such provisions made in the light of that determination) must be credited or (as the case may be) debited to a separate reserve (“the revaluation reserve”).

(2) The amount of the revaluation reserve must be shown in the company’s balance sheet under liabilities item A.III, but need not be shown under the name “revaluation reserve”.

(3) An amount may be transferred—

(a) from the revaluation reserve—

(i) to the profit and loss account, if the amount was previously charged to that account or represents realised profit, or

(ii) on capitalisation,

(b) to or from the revaluation reserve in respect of the taxation relating to any profit or loss credited or debited to the reserve.

The revaluation reserve must be reduced to the extent that the amounts transferred to it are no longer necessary for the purposes of the valuation method used.

(4) In sub-paragraph (3)(a)(ii) “capitalisation”, in relation to an amount standing to the credit of the revaluation reserve, means applying it in wholly or partly paying up unissued shares in the company to be allotted to members of the company as fully or partly paid shares.

(5) The revaluation reserve must not be reduced except as mentioned in this paragraph.

(6) The treatment for taxation purposes of amounts credited or debited to the revaluation reserve must be disclosed in a note to the accounts.

(7) This paragraph does not apply to the difference between the valuation of investments and their purchase price or previous valuation shown in the long-term business technical account or the non-technical account in accordance with note (9) on the profit and loss account format.

SECTION C

VALUATION AT FAIR VALUE

Inclusion of financial instruments at fair value

30.—(1) Subject to sub-paragraphs (2) to (5), financial instruments (including derivatives) may be included at fair value.

(2) Sub-paragraph (1) does not apply to financial instruments that constitute liabilities unless—

(a) they are held as part of a trading portfolio,

(b) they are derivatives, or

(c) they are financial instruments falling within paragraph (4).

(3) Except where they fall within paragraph (4), or fall to be included under assets item D (assets held to cover linked liabilities), sub-paragraph (1) does not apply to—

(a) financial instruments (other than derivatives) held to maturity,

(b) loans and receivables originated by the company and not held for trading purposes,

(c) interests in subsidiary undertakings, associated undertakings and joint ventures,

(d) equity instruments issued by the company,

- (e) contracts for contingent consideration in a business combination, or
- (f) other financial instruments with such special characteristics that the instruments, according to generally accepted accounting principles or practice, should be accounted for differently from other financial instruments.

(4) Financial instruments that, under international accounting standards adopted by the European Commission on or before 5th September 2006 in accordance with the IAS Regulation, may be included in accounts at fair value, may be so included, provided that the disclosures required by such accounting standards are made.

(5) If the fair value of a financial instrument cannot be determined reliably in accordance with paragraph 31, sub-paragraph (1) does not apply to that financial instrument.

(6) In this paragraph—

“associated undertaking” has the meaning given by paragraph 19 of Schedule 6 to these Regulations; and

“joint venture” has the meaning given by paragraph 18 of that Schedule.

Determination of fair value

31.—(1) The fair value of a financial instrument is its value determined in accordance with this paragraph.

(2) If a reliable market can readily be identified for the financial instrument, its fair value is determined by reference to its market value.

(3) If a reliable market cannot readily be identified for the financial instrument but can be identified for its components or for a similar instrument, its fair value is determined by reference to the market value of its components or of the similar instrument.

(4) If neither sub-paragraph (2) nor (3) applies, the fair value of the financial instrument is a value resulting from generally accepted valuation models and techniques.

(5) Any valuation models and techniques used for the purposes of sub-paragraph (4) must ensure a reasonable approximation of the market value.

Hedged items

32. A company may include any assets and liabilities, or identified portions of such assets or liabilities, that qualify as hedged items under a fair value hedge accounting system at the amount required under that system.

Other assets that may be included at fair value

33.—(1) This paragraph applies to—

- (a) investment property, and
- (b) living animals and plants,

that, under international accounting standards, may be included in accounts at fair value.

(2) Such investment property and such living animals and plants may be included at fair value, provided that all such investment property or, as the case may be, all such living animals and plants are so included where their fair value can reliably be determined.

(3) In this paragraph, “fair value” means fair value determined in accordance with relevant international accounting standards.

Accounting for changes in value

34.—(1) This paragraph applies where a financial instrument is valued in accordance with paragraph 30 or 32 or an asset is valued in accordance with paragraph 33.

(2) Notwithstanding paragraph 18 in this Part of this Schedule, and subject to sub-paragraphs (3) and (4), a change in the value of the financial instrument or of the investment property or living animal or plant must be included in the profit and loss account.

(3) Where—

- (a) the financial instrument accounted for is a hedging instrument under a hedge accounting system that allows some or all of the change in value not to be shown in the profit and loss account, or
- (b) the change in value relates to an exchange difference arising on a monetary item that forms part of a company's net investment in a foreign entity,

the amount of the change in value must be credited to or (as the case may be) debited from a separate reserve ("the fair value reserve").

(4) Where the instrument accounted for—

- (a) is an available for sale financial asset, and
- (b) is not a derivative,

the change in value may be credited to or (as the case may be) debited from the fair value reserve.

The fair value reserve

35.—(1) The fair value reserve must be adjusted to the extent that the amounts shown in it are no longer necessary for the purposes of paragraph 34(3) or (4).

(2) The treatment for taxation purposes of amounts credited or debited to the fair value reserve must be disclosed in a note to the accounts.

SECTION D

HISTORICAL COST ACCOUNTING RULES

Valuation of assets

General rules

36.—(1) The rules in this Section are "the historical cost accounting rules".

(2) Subject to any provision for depreciation or diminution in value made in accordance with paragraph 37 or 38, the amount to be included in respect of any asset in the balance sheet format is its cost.

37. In the case of any asset included under assets item B (intangible assets), C.I (land and buildings), F.I (tangible assets) or F.II (stocks) which has a limited useful economic life, the amount of—

- (a) its cost, or
- (b) where it is estimated that any such asset will have a residual value at the end of the period of its useful economic life, its cost less that estimated residual value,

must be reduced by provisions for depreciation calculated to write off that amount systematically over the period of the asset's useful economic life.

38.—(1) This paragraph applies to any asset included under assets item B (intangible assets), C (investments), F.I (tangible assets) or F.IV (own shares).

(2) Where an asset to which this paragraph applies has diminished in value, provisions for diminution in value may be made in respect of it and the amount to be included in respect of it may be reduced accordingly.

(3) Provisions for diminution in value must be made in respect of any asset to which this paragraph applies if the reduction in its value is expected to be permanent (whether its useful economic life is limited or not), and the amount to be included in respect of it must be reduced accordingly.

(4) Any provisions made under sub-paragraph (2) or (3) which are not shown in the profit and loss account must be disclosed (either separately or in aggregate) in a note to the accounts.

39.—(1) Where the reasons for which any provision was made in accordance with paragraph 38 have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

(2) Any amounts written back in accordance with sub-paragraph (1) which are not shown in the profit and loss account must be disclosed (either separately or in aggregate) in a note to the accounts.

40.—(1) This paragraph applies to assets included under assets items E.I, II and III (debtors) and F.III (cash at bank and in hand) in the balance sheet.

(2) If the net realisable value of an asset to which this paragraph applies is lower than its cost the amount to be included in respect of that asset is the net realisable value.

(3) Where the reasons for which any provision for diminution in value was made in accordance with sub-paragraph (2) have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

Development costs

41.—(1) Notwithstanding that amounts representing “development costs” may be included under assets item B (intangible assets) in the balance sheet format, an amount may only be included in a company’s balance sheet in respect of development costs in special circumstances.

(2) If any amount is included in a company’s balance sheet in respect of development costs the following information must be given in a note to the accounts—

- (a) the period over which the amount of those costs originally capitalised is being or is to be written off, and
- (b) the reasons for capitalising the development costs in question.

Goodwill

42.—(1) The application of paragraphs 36 to 39 in relation to goodwill (in any case where goodwill is treated as an asset) is subject to the following.

(2) Subject to sub-paragraph (3), the amount of the consideration for any goodwill acquired by a company must be reduced by provisions for depreciation calculated to write off that amount systematically over a period chosen by the directors of the company.

(3) The period chosen must not exceed the useful economic life of the goodwill in question.

(4) In any case where any goodwill acquired by a company is included as an asset in the company’s balance sheet, there must be disclosed in a note to the accounts—

- (a) the period chosen for writing off the consideration for that goodwill, and
- (b) the reasons for choosing that period.

Miscellaneous and supplementary provisions

Excess of money owed over value received as an asset item

43.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

- (a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and
- (b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Assets included at a fixed amount

44.—(1) Subject to sub-paragraph (2), assets which fall to be included under assets item F.I (tangible assets) in the balance sheet format may be included at a fixed quantity and value.

(2) Sub-paragraph (1) applies to assets of a kind which are constantly being replaced where—

- (a) their overall value is not material to assessing the company's state of affairs, and
- (b) their quantity, value and composition are not subject to material variation.

Determination of cost

45.—(1) The cost of an asset that has been acquired by the company is to be determined by adding to the actual price paid any expenses incidental to its acquisition.

(2) The cost of an asset constructed by the company is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the construction of that asset.

(3) In addition, there may be included in the cost of an asset constructed by the company—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction, and
- (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

46.—(1) The cost of any assets which are fungible assets may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as “first in, first out” (FIFO),
- (b) the method known as “last in, first out” (LIFO),
- (c) a weighted average price, and
- (d) any other method similar to any of the methods mentioned above.

(3) Where in the case of any company—

- (a) the cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph, and
- (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph,

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

Substitution of original amount where price or cost unknown

47.—(1) This paragraph applies where—

- (a) there is no record of the purchase price of any asset acquired by a company or of any price, expenses or costs relevant for determining its cost in accordance with paragraph 45, or
- (b) any such record cannot be obtained without unreasonable expense or delay.

(2) In such a case, the cost of the asset must be taken, for the purposes of paragraphs 36 to 42, to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.

SECTION E

RULES FOR DETERMINING PROVISIONS

Preliminary

48. Provisions which are to be shown in a company's accounts are to be determined in accordance with this Section.

Technical provisions

49. The amount of technical provisions must at all times be sufficient to cover any liabilities arising out of insurance contracts as far as can reasonably be foreseen.

Provision for unearned premiums

50.—(1) The provision for unearned premiums must in principle be computed separately for each insurance contract, save that statistical methods (and in particular proportional and flat rate methods) may be used where they may be expected to give approximately the same results as individual calculations.

(2) Where the pattern of risk varies over the life of a contract, this must be taken into account in the calculation methods.

Provision for unexpired risks

51. The provision for unexpired risks (as defined in paragraph 91) must be computed on the basis of claims and administrative expenses likely to arise after the end of the financial year from contracts concluded before that date, in so far as their estimated value exceeds the provision for unearned premiums and any premiums receivable under those contracts.

Long-term business provision

52.—(1) The long-term business provision must in principle be computed separately for each long-term contract, save that statistical or mathematical methods may be used where they may be expected to give approximately the same results as individual calculations.

(2) A summary of the principal assumptions in making the provision under sub-paragraph (1) must be given in the notes to the accounts.

(3) The computation must be made annually by a Fellow of the Institute or Faculty of Actuaries on the basis of recognised actuarial methods, with due regard to the actuarial principles laid down in Directive [2002/83/EC](#) of the European Parliament and of the Council of 5th November 2002 concerning life assurance⁽¹⁷⁾.

Provisions for claims outstanding

General business

53.—(1) A provision must in principle be computed separately for each claim on the basis of the costs still expected to arise, save that statistical methods may be used if they result in an adequate provision having regard to the nature of the risks.

(2) This provision must also allow for claims incurred but not reported by the balance sheet date, the amount of the allowance being determined having regard to past experience as to the number and magnitude of claims reported after previous balance sheet dates.

(3) All claims settlement costs (whether direct or indirect) must be included in the calculation of the provision.

(4) Recoverable amounts arising out of subrogation or salvage must be estimated on a prudent basis and either deducted from the provision for claims outstanding (in which case if the amounts are material they must be shown in the notes to the accounts) or shown as assets.

(5) In sub-paragraph (4), “subrogation” means the acquisition of the rights of policy holders with respect to third parties, and “salvage” means the acquisition of the legal ownership of insured property.

(6) Where benefits resulting from a claim must be paid in the form of annuity, the amounts to be set aside for that purpose must be calculated by recognised actuarial methods, and paragraph 54 does not apply to such calculations.

(7) Implicit discounting or deductions, whether resulting from the placing of a current value on a provision for an outstanding claim which is expected to be settled later at a higher figure or otherwise effected, is prohibited.

54.—(1) Explicit discounting or deductions to take account of investment income is permitted, subject to the following conditions—

- (a) the expected average interval between the date for the settlement of claims being discounted and the accounting date must be at least four years;

⁽¹⁷⁾ O.J. L345 of 19th December 2002, p.1.

- (b) the discounting or deductions must be effected on a recognised prudential basis;
 - (c) when calculating the total cost of settling claims, the company must take account of all factors that could cause increases in that cost;
 - (d) the company must have adequate data at its disposal to construct a reliable model of the rate of claims settlements;
 - (e) the rate of interest used for the calculation of present values must not exceed a rate prudently estimated to be earned by assets of the company which are appropriate in magnitude and nature to cover the provisions for claims being discounted during the period necessary for the payment of such claims, and must not exceed either—
 - (i) a rate justified by the performance of such assets over the preceding five years, or
 - (ii) a rate justified by the performance of such assets during the year preceding the balance sheet date.
- (2) When discounting or effecting deductions, the company must, in the notes to the accounts, disclose—
- (a) the total amount of provisions before discounting or deductions,
 - (b) the categories of claims which are discounted or from which deductions have been made,
 - (c) for each category of claims, the methods used, in particular the rates used for the estimates referred to in sub-paragraph (1)(d) and (e), and the criteria adopted for estimating the period that will elapse before the claims are settled.

Long-term business

55. The amount of the provision for claims must be equal to the sums due to beneficiaries, plus the costs of settling claims.

Equalisation reserves

56. The amount of any equalisation reserve maintained in respect of general business by the company, in accordance with the rules in section 1.4 of the Prudential Sourcebook for Insurers made by the Financial Services Authority under Part 10 of the Financial Services and Markets Act 2000(18), must be determined in accordance with such rules.

Accounting on a non-annual basis

57.—(1) Either of the methods described in paragraphs 58 and 59 may be applied where, because of the nature of the class or type of insurance in question, information about premiums receivable or claims payable (or both) for the underwriting years is insufficient when the accounts are drawn up for reliable estimates to be made.

(2) The use of either of the methods referred to in sub-paragraph (1) must be disclosed in the notes to the accounts together with the reasons for adopting it.

(3) Where one of the methods referred to in sub-paragraph (1) is adopted, it must be applied systematically in successive years unless circumstances justify a change.

(4) In the event of a change in the method applied, the effect on the assets, liabilities, financial position and profit or loss must be stated in the notes to the accounts.

(5) For the purposes of this paragraph and paragraph 58, “underwriting year” means the financial year in which the insurance contracts in the class or type of insurance in question commenced.

(18) FSA 2006/42.

58.—(1) The excess of the premiums written over the claims and expenses paid in respect of contracts commencing in the underwriting year shall form a technical provision included in the technical provision for claims outstanding shown in the balance sheet under liabilities item C.3.

(2) The provision may also be computed on the basis of a given percentage of the premiums written where such a method is appropriate for the type of risk insured.

(3) If necessary, the amount of this technical provision must be increased to make it sufficient to meet present and future obligations.

(2) In relation to a group directors' report sub-paragraph (1) has effect as if the reference to the fixed assets of the company was a reference to the fixed assets of the company and of its subsidiary undertakings included in the consolidation.

(4) Any expression used in this paragraph which is also used in Part 14 of the 2006 Act (control of political donations and expenditure) has the same meaning as in that Part.

Statement of consideration of conditions elsewhere in company and group

4. The directors' remuneration report must contain a statement of how pay and employment conditions of employees of the company and of other undertakings within the same group as the company were taken into account when determining directors' remuneration for the relevant financial year.

Performance graph

- 5.—(1) The directors' remuneration report must—
- (a) contain a line graph that shows for each of—
 - (i) a holding of shares of that class of the company's equity share capital whose listing, or admission to dealing, has resulted in the company falling within the definition of "quoted company", and
 - (ii) a hypothetical holding of shares made up of shares of the same kinds and number as those by reference to which a broad equity market index is calculated,a line drawn by joining up points plotted to represent, for each of the financial years in the relevant period, the total shareholder return on that holding; and
 - (b) state the name of the index selected for the purposes of the graph and set out the reasons for selecting that index.
- (2) For the purposes of sub-paragraphs (1) and (4), "relevant period" means the five financial years of which the last is the relevant financial year.
- (3) Where the relevant financial year—
- (a) is the company's second, third or fourth financial year, sub-paragraph (2) has effect with the substitution of "two", "three" or "four" (as the case may be) for "five"; and

(b) is the company's first financial year, "relevant period", for the purposes of sub-paragraphs (1) and (4), means the relevant financial year.

(4) For the purposes of sub-paragraph (1), the "total shareholder return" for a relevant period on a holding of shares must be calculated using a fair method that—

- (a) takes as its starting point the percentage change over the period in the market price of the holding;
- (b) involves making—
 - (i) the assumptions specified in sub-paragraph (5) as to reinvestment of income, and
 - (ii) the assumption specified in sub-paragraph (7) as to the funding of liabilities, and

(5) The assumptions as to reinvestment of income are—

- (a) that any benefit in the form of shares of the same kind as those in the holding is added to the holding at the time the benefit becomes receivable; and
- (b) that any benefit in cash, and an amount equal to the value of any benefit not in cash and not falling within paragraph (a), is applied at the time the benefit becomes receivable in the purchase at their market price of shares of the same kind as those in the holding and that the shares purchased are added to the holding at that time.

(6) In sub-paragraph (5) "benefit" means any benefit (including, in particular, any dividend) receivable in respect of any shares in the holding by the holder from the company of whose share capital the shares form part.

(7) The assumption as to the funding of liabilities is that, where the holder has a liability to the company of whose capital the shares in the holding form part, shares are sold from the holding—

- (a) immediately before the time by which the liability is due to be satisfied, and
- (b) in such numbers that, at the time of the sale, the market price of the shares sold equals the amount of the liability in respect of the shares in the holding that are not being sold.

(8) In sub-paragraph (7) "liability" means a liability arising in respect of any shares in the holding or from the exercise of a right attached to any of those shares.

Service contracts

 - (ii) the highest and lowest market prices during that year,

- (a) information disclosed for a person under paragraph 9(a) need not differentiate between share options having different terms and conditions;
 - (b) for the purposes of disclosure in respect of a person under paragraph 9(c)(i) and (ii) and (g), share options may be aggregated and (instead of disclosing prices for each share option) disclosure may be made of weighted average prices of aggregations of share options;

18.—(1) For the purposes of this Schedule emoluments paid or receivable or share options granted in respect of a person's accepting office as a director are to be treated as emoluments paid or receivable or share options granted in respect of his services as a director.

- (b) such retirement benefits determined by or under the scheme to be payable to or in respect of the person as are not money purchase benefits in relation to the person,

the company may assume for the purposes of this Schedule that those benefits will be money purchase benefits in relation to the person, or not, according to whichever appears more likely at the end of the relevant financial year.

(3) In determining for the purposes of this Schedule whether a pension scheme is a money purchase scheme in relation to a person or a defined benefit scheme in relation to a person, any death in service benefits provided for by the scheme are to be disregarded.

19.—(1) The following applies with respect to the amounts to be shown under this Schedule.

(2) The amount in each case includes all relevant sums paid by or receivable from—

- (a) the company; and
- (b) the company's subsidiary undertakings; and
- (c) any other person,

except sums to be accounted for to the company or any of its subsidiary undertakings or any other undertaking of which any person has been a director while director of the company, by virtue of section 219 of the 2006 Act (payment in connection with share transfer: requirement of members' approval), to past or present members of the company or any of its subsidiaries or any class of those members.

(3) Reference to amounts paid to or receivable by a person include amounts paid to or receivable by a person connected with him or a body corporate controlled by him (but not so as to require an amount to be counted twice).

20.—(1) The amounts to be shown for any financial year under Part 3 of this Schedule are the sums receivable in respect of that year (whenever paid) or, in the case of sums not receivable in respect of a period, the sums paid during that year.

(2) But where—

- (a) any sums are not shown in the directors' remuneration report for the relevant financial year on the ground that the person receiving them is liable to account for them as mentioned in paragraph 19(2), but the liability is thereafter wholly or partly released or is not enforced within a period of 2 years; or
- (b) any sums paid by way of expenses allowance are charged to United Kingdom income tax after the end of the relevant financial year or, in the case of any such sums paid otherwise than to an individual, it does not become clear until the end of the relevant financial year that those sums would be charged to such tax were the person an individual,

those sums must, to the extent to which the liability is released or not enforced or they are charged as mentioned above (as the case may be), be shown in the first directors' remuneration report in which it is practicable to show them and must be distinguished from the amounts to be shown apart from this provision.

21. Where it is necessary to do so for the purpose of making any distinction required by the preceding paragraphs in an amount to be shown in compliance with this Part of this Schedule, the directors may apportion any payments between the matters in respect of which these have been paid or are receivable in such manner as they think appropriate.

22. The Schedule requires information to be given only so far as it is contained in the company's books and papers, available to members of the public or the company has the right to obtain it.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations specify the form and content of the accounts and reports of companies under Part 15 of the Companies Act 2006 (c.46) (“the 2006 Act”), other than those subject to the small companies regime. They are dealt with separately in the Small Companies and Groups (Accounts and Directors’ Report) Regulations 2008. The Regulations replace provisions previously contained in the Schedules to Part 7 of the Companies Act 1985 (c.6) (“the 1985 Act”) and in the Schedules to Part 8 of the Companies (Northern Ireland) Order 1986 (S.I. 1986/1032 (N.I. 6)) (“the 1986 Order”). They extend to the whole of the United Kingdom, reflecting the extent of the 2006 Act.

The Regulations come into force on 6th April 2008 and, with one exception, apply to financial years beginning on or after that date (regulation 2). The corresponding provisions of the 1985 Act or the 1986 Order continue to apply to accounts and reports for financial years beginning before that date. The new disclosure required by paragraph 4 of Schedule 8 to the Regulations applies in relation to financial years beginning on or after 6th April 2009 (regulation 2(3)).

The Regulations continue the implementation of the following Directives—

Council Directive [78/660/EEC](#) on the annual accounts of certain types of companies (“the Fourth Directive”) (O.J. L222 of 14.8.1978, page 1),

Council Directive [83/349/EEC](#) on consolidated accounts (“the Seventh Directive”) (O.J.L193 of 18.7.1983, page 1),

Council Directive [86/635/EEC](#) on the annual accounts and consolidated accounts of banks and other financial institutions (“the Bank Accounts Directive”) (O.J. L372 of 31.12.1986, page 1), and

Council Directive [91/674/EEC](#) on the annual accounts and consolidated accounts of insurance undertakings (“the Insurance Accounts Directive”) (O.J. L374 of 31.12.91, page 7).

Regulation 3(1) of, and Schedule 1 to, the Regulations specify the form and content of the individual accounts of a company which is not a banking or insurance company, and the directors of which are preparing Companies Act individual accounts. The Schedule re-enacts Schedule 4 to the 1985 Act and Schedule 4 to the 1986 Order, with two substantive modifications. Paragraph 36(4) of Schedule 1

implements article 1.5 of Directive 2006/46 of the European Parliament and the Council of 14th June 2006 amending the Fourth, Seventh, Bank Accounts and Insurance Accounts Directives (OJ L 224 of 16th August 2006, pages 1 to 7). Paragraph 72 of Schedule 1 implements article 1.6(7b) of Directive 2006/46. The Directive is also to be implemented by the Small Companies and Groups (Accounts and Directors' Report) Regulations 2008, the Companies Act 2006 (Amendment) (Accounts and Reports) Regulations 2008, and by the Financial Services Authority using powers under the Financial Services and Markets Act 2000 (c.8).

Paragraph 36(4) of Schedule 1 gives companies the option of including financial instruments in the accounts at a fair value provided that they may be so included under international accounting standards adopted under the IAS Regulation (as defined in section 474(1) of the 2006 Act) on or before 5th September 2006, and provided that the disclosures required by such standards are made. Paragraph 72 requires companies to make certain disclosures about transactions with related parties.

Regulation 4 specifies certain exemptions for medium-sized companies the directors of which are preparing Companies Act accounts. It re-enacts the exemptions in section 246A of the 1985 Act and in Article 254A of the 1986 Order, save that medium-sized companies are required by regulation 4(3) to disclose their turnover in the accounts delivered to the registrar of companies. Regulation 4(2)(b) implements the member State option in article 1.6 of Directive 2006/46 exempting medium-sized companies from making the disclosures about related party transactions required by paragraph 72 of Schedule 1 to the Regulations.

Regulation 5 of, and Schedule 2 to, the Regulations specify the form and content of the individual accounts of a banking company the directors of which are preparing Companies Act accounts. The Schedule re-enacts Schedule 9 to the 1985 Act and Schedule 9 to the 1986 Order. Paragraph 44(4) of Schedule 2 contains the equivalent provision to paragraph 36(4) of Schedule 1 and paragraph 92 the equivalent provision to paragraph 72 of Schedule 1 (see above) in implementation of article 3 of Directive 2006/46.

Regulation 6 of, and Schedule 3 to, the Regulations specify the form and content of the individual accounts of an insurance company the directors of which are preparing Companies Act accounts. The Schedule re-enacts Schedule 9A to the 1985 Act and Schedule 9A to the 1986 Order. Paragraph 30(4) of Schedule 3 contains the equivalent provision to paragraph 36(4) of Schedule 1 and paragraph 90 the equivalent provision to paragraph 72 of Schedule 1 (see above) in implementation of article 4 of Directive 2006/46.

Regulations 7 and 8 of, and Schedules 4 and 5 to, the Regulations specify information about related undertakings and directors' remuneration which a company must include in the notes to the individual accounts which it prepares, whether they are Companies Act individual accounts or IAS individual accounts. The Schedules re-enact Schedules 5 and 6 to the 1985 Act and Schedules 5 and 6 to the 1986 Order.

Regulation 9 of, and Schedule 6 to, the Regulations specify the form and content of group accounts. The Schedule re-enacts Schedule 4A to the 1985 Act and Schedule 4A to the 1986 Order, save that paragraphs 9, 13 and 17 have been simplified to facilitate convergence with international accounting standards.

Regulation 10 of, and Schedule 7 to, the Regulations specify information to be included in the directors' report which the directors of a company are required to prepare under section 415 of the 2006 Act. The Schedule re-enacts the provisions in Schedule 7 to the 1985 Act and Schedule 7 to the 1986 Order, save that the thresholds for disclosure of political donations and expenditure and charitable donations have been raised from £200 to £2000 (paragraphs 3 and 5), and that provision is now made for disclosure of donations to independent election candidates (paragraph 3). Paragraphs 13 and 14 of Schedule 7 continue the implementation of Directive 2004/25/EEC of the European Parliament and the Council of 21st April 2005 on takeover bids (O.J. L142 of 30th April 2004, pages 12 to 23).

Regulation 11 of, and Schedule 8 to, the Regulations specify information to be included in the directors' remuneration report which the directors of a quoted company are required to prepare under section 420 of the 2006 Act. The Schedule re-enacts the provisions in Schedule 7A to the 1985 Act and Schedule 7A to the 1986 Order, with the addition of a new requirement in paragraph 4 that the directors' remuneration report contain a statement of how pay and employment conditions elsewhere in the company and group have been taken into account in determining directors' remuneration for the financial year in question.

Regulation 12 of, and Schedule 9 to, the Regulations define the term "provisions" for the purposes of the Regulations and for the purposes of sections 677(3)(a) (Companies Act accounts: relevant provisions for purposes of financial assistance), 712(2)(b)(i) (Companies Act accounts: relevant provisions to determine available profits for redemption or purchase out of capital), 831(3)(a) (Companies Act accounts: net asset restriction on public company distributions), 832(4)(a) (Companies Act accounts: investment companies distributions) and 836(1)(b)(i) (Companies Act accounts: relevant provisions for distribution purposes) of the 2006 Act.

Regulation 13 of, and Schedule 10 to, the Regulations contain general interpretation provisions.

A transposition note has been prepared which sets out how Directive 2006/46 is to be transposed into UK law. An Impact Assessment of the effect that the implementation of Directive 2006/46 will have on the costs of business, charities or voluntary bodies has also been prepared, as has an Impact Assessment of the new requirement in paragraph 4 of Schedule 8 to the Regulations for disclosure in the directors' remuneration report. All are available from the Department for Business, Enterprise and Regulatory Reform, Corporate Law and Governance Directorate, 1 Victoria Street, London SW1. They are also available electronically at www.berr.gov.uk. Copies have also been placed in the libraries of both Houses of Parliament. Otherwise, an Impact Assessment has not been produced for these Regulations as they have only a negligible impact on the costs of business, charities or voluntary bodies.
