
DRAFT STATUTORY INSTRUMENTS

2011 No.

The Renewable Heat Incentive Scheme Regulations 2011

PART 2

Eligibility and matters relating to eligibility

CHAPTER 2

Eligibility criteria for technologies

Eligible installations generating heat using heat pumps

8. This regulation applies if the plant is a heat pump and complies with all of the following requirements—

- (a) it generates heat using naturally occurring energy stored in the form of heat from one of the following sources of energy—
 - (i) the ground other than naturally occurring energy located and extracted from at least 500 metres below the surface of solid earth;
 - (ii) surface water;
- (b) in the case of a heat pump with an installation capacity of 45kWth or less, regulation 13 applies;
- (c) it has a coefficient of performance of at least 2.9.
