
DRAFT STATUTORY INSTRUMENTS

2014 No.

The Domestic Renewable Heat
Incentive Scheme Regulations 2014

PART 2

Eligibility criteria

Positioning of meters when recording heat generated by biomass plants

15.—(1) For the purposes of regulation 14(2)(b), where the plant (“plant A”) is a biomass plant, meters must be positioned in accordance with paragraph (2), (3) or (4).

(2) Meters are positioned in accordance with this paragraph if one or more eligible heat meters are installed to record the heat output delivered by a liquid from plant A.

(3) Meters are positioned in accordance with this paragraph if one or more eligible heat meters are installed to record separately—

- (a) the combined heat output of plant A and any other plant (“plant B”); and
- (b) the heat output of plant B.

(4) Meters are positioned in accordance with this paragraph if one or more eligible meters are installed to record separately—

- (a) the combined heat output of plant A and plant B; and
- (b) any energy consumption by plant B.
