where—

(a) RMCP\(_{ij}\) is to be calculated in accordance with the formula—

\[ \sum_{i} = \sum_{j} \left( ACP \times WF_{mx} \times F_{j} \right) + \sum_{N} \left( tACP \times WF_{mx} \times F_{z} \right), \] and

(b) \( \sum ASPPA' \) is to be calculated in accordance with the formula—

\[ \sum ASPPA' = \sum_{A} ASPPA_{A} - \sum_{B} ASPPA_{B}, \]

where—
(i) \( \sum_{A} \) is the sum of each amount \( ASPPA_{A} \) calculated under paragraph 6A(4) for any obligation \( ICO_{A} \) applying to CMU \( i \) in any relevant settlement period \( k \) in month \( M \) preceding settlement period \( j \); and

(ii) \( \sum_{B} \) is the sum of each amount \( ASPPA_{B} \) calculated under paragraph 6A(4) for any obligation \( ICO_{B} \) applying to CMU \( i \) in both—

(aa) settlement period \( j \), and

(bb) any relevant settlement period \( k \) in month \( M \) preceding settlement period \( j \)."

(4) For paragraph 6(5) substitute—

“(5) \( Q_{ij} \) must be calculated in accordance with the formula—

\[
Q_{ij} = APC_{ij} - \sum_{k=1}^{m-1} MPSA_{ik}
\]

and where that calculation would give a negative number, the value of \( Q_{ij} \) is to be taken to be zero. ”.

(5) For paragraph 6(5A) substitute—

“(5A) For the purposes of the calculation in sub-paragraph (5), \( APC_{ij} \) is the annual penalty cap in pounds applying to CMU \( i \) in respect of relevant settlement period \( j \), and is to be calculated in accordance with the formula—

\[
APC_{ij} = ACP_{i} \times G_{i} + \sum_{N} \left( tACP_{N} \times G_{i} \times WF_{m} \times \frac{DT_{mN}}{D_{m}} \right)
\]

where “DT_{mN}” and “D_{m}” have the meanings given in paragraph 3(3A)”.

(6) In paragraph 6(6)—

(a) for the definitions of “\( F \)” and “\( G \)” substitute—

“\( F_{y} \)” (for any value \( y \)) means the percentage stated on the capacity market register under regulation 31(2)(f), at the date of issue of the capacity agreement, as the monthly penalty cap percentage for the capacity obligation \( CO_{yx} \) awarded in respect of CMU \( y \) for year \( X \);

“\( G_{y} \)” (for any value \( y \)) means the percentage stated on the capacity market register under regulation 31(2)(f), at the date of issue of the capacity agreement, as the annual penalty cap percentage for the capacity obligation \( CO_{yx} \) awarded in respect of CMU \( y \) for year \( X \)”;

(b) in the definitions of “\( MaxSP_{i} \)” and “\( SP_{i} \)”, after “paragraph 5” insert “up to and including the settlement period for which the calculation is being made”;

(c) omit the definition of “\( \sum SPPSA_{i(m-1)} \)”;

(d) insert after the definition of “\( MCP_{im} \)”—

\[
\sum_{k=1}^{m-1} MPSA_{ik}
\]

means the sum of the monthly penalty charges paid or payable in respect of CMU \( i \) for each of the months of year \( X \) preceding month \( M \) (or where \( M \) is the first such month, zero)”;

(e) insert at the end—

“\( tACP_{N} \)” has the meaning given in paragraph 3(3A)”.

New paragraph 6A

35. After paragraph 6 insert—
“Capacity provider penalty charges: apportionment

6A.—(1) Immediately after calculating SPPSA$_{ij}$ for a relevant CMU $i$ and any relevant settlement period $j$ in month $M$ under paragraph 6, the settlement body must also calculate $D$ in accordance with the formula—

$$D = SPPSA_{ij} - SPPSA_{i(j-1)},$$

where “SPPSA$_{i(j-1)}$” is the settlement period penalty settlement amount for CMU $i$ in the relevant settlement period preceding period $j$ (or, where $j$ is the first such period in month $M$, zero).

(2) For each relevant settlement period $j$ in month $M$, the settlement body must then determine for each obligation ICO$_{ij}$ applying to CMU $i$ in that settlement period (“ICO$_ {ijN}$”)—

(a) the monthly penalty cap applying in respect of ICO$_ {ijN}$ (“MPC$_{ijN}$”); and

(b) the apportioned settlement period penalty amount for ICO$_ {ijN}$ (“ASPPA$_ {ijN}$”) as determined in accordance with sub-paragraph (4).

(3) For the purpose of sub-paragraph (2)(a), MPC$_{ijN}$ is to be determined in accordance with the formula—

$$MPC_{ijN} = ICO_{ijN} \times PE_{zx} \times WF_{mx} \times F_Z - \sum_{k=1}^{j-1} ASPPA_{ikN},$$

where—

“ICO$_{ijN}$” is the whole or a part of the capacity obligation CO$_{zx}$ awarded in respect of CMU $z$ for year $X$,

“PE$_{zx}$” means the price in pounds per MW determined for CO$_{zx}$ in accordance with paragraph 3(4) to (6),

“F$_{Z}$” is to be interpreted in accordance with paragraph 6(6), and

“$\sum_{k=1}^{j-1} ASPPA_{ikN}$” means the sum of all apportioned settlement period penalty amounts calculated for ICO$_ {ijN}$ when that obligation applies to CMU $i$ in any relevant settlement period in month $M$ that precedes period $j$ (or, where $j$ is the first such period, zero).

(4) For the purpose of sub-paragraph (2)(b) ASPPA$_ {ijN}$ is to be determined as follows (where $D$ is the result of the calculation referred to in sub-paragraph (1))—

(a) for each obligation ICO$_ {ijN}$ referred to in sub-paragraph (2), calculate PR$_N$ in accordance with paragraph 5(3), and arrange those obligations in a series (beginning with ICO$_ {ij1}$) as described in paragraph (b); 

(b) each such obligation ICO$_ {ijN}$ is ranked according to the magnitude of its corresponding PR$_N$ (in descending order with the highest corresponding penalty rate first), except that where the same penalty rate corresponds to more than one such obligation those obligations are ranked between themselves—

(i) according to the date on which the obligation was awarded in respect of CMU $i$, or transferred so as to apply to CMU $i$ (with the latest such date first), and

(ii) for obligations awarded or transferred on the same date, according to the time at which a request to transfer the obligation was received by the Delivery Body (with the latest such time first), and with an awarded obligation ranking prior to any transferred obligation;

(c) then for any such ICO$_ {ijN}$—

(i) if $\sum_{k=1}^{N} MPC_{ijk} \leq D$, ASPPA$_ {ijN} = MPC_{ijN}$;
(ii) if $\sum_{k=1}^{N-1} MPC_{ijk} < D$ and $\sum_{k=1}^{N-1} MPC_{ijk} > D$, $ASPPA_{ijk} = D - \sum_{k=1}^{N-1} MPC_{ijk}$; and

(iii) otherwise, $ASPPA_{ijk} = 0$.”.

Paragraph 7 (over-delivery payments)

36.—(1) In paragraph 7(1)(a), for the words from “relevant” to the end substitute “each relevant settlement period in year X (“ODR_{ij}”)”.

(2) In paragraph 7(2) and (3), for “ODR_{ix}” (wherever it occurs) substitute “ODR_{ij}”.

(3) In paragraph 7(2)—
   (a) insert at the beginning “Subject to sub-paragraph (2A),”; and
   (b) for “PR_{ix}” substitute “PR_{ij}”.

(4) After paragraph 7(2) insert—
   “(2A) For the purposes of the calculation in paragraph (2), where the over-delivery payment is to be made to a qualified person who is not a capacity provider in settlement period j, the value of PR_{ij} is deemed to be equal to the penalty rate applying to a capacity obligation awarded in the T-4 auction for year X and calculated in accordance with paragraph 5.”.

(5) In paragraph 7(5)—
   (a) for the definition of “PR_{ix}” substitute—
      ““PR_{ij}” means the penalty rate in pounds per MWh applying to CMU i in respect of settlement period j, as calculated in accordance with paragraph 5”;
      and
   (b) after that definition insert—
      ““qualified person” has the meaning given in regulation 42(2);”.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations are made under Part 2, Chapter 3 of the Energy Act 2013 (c. 32) (“the Act”). They amend in various respects the Electricity Capacity Regulations 2014 (S.I. 2014/2043) (“the Principal Regulations”), which have previously been amended by Schedule 2 to the Electricity Capacity (Supplier Payment etc.) Regulations 2014 (S.I. 2014/3354) (“the Supplier Payment Regulations”), by the Electricity Capacity (Amendment) Regulations 2015 (S.I. 2015/875), and by the Electricity Capacity (Amendment) (No. 2) Regulations 2015 (S.I. 2015/1974). They also contain amendments to the Supplier Payment Regulations.

The Principal Regulations make provision for the purpose of enabling consumers’ demands for electricity in Great Britain to be met, by establishing a system (“the Capacity Market”) whereby those who offer to make electricity capacity available can (as the result of an auction) be awarded capacity agreements, which confer rights and impose obligations on those awarded the agreement. Those rights and obligations consist principally of the right to receive “capacity payments” from a
settlement body established for that purpose, these being payments for generating (or reducing demand for) electricity at times of system stress; and the liability to make a penalty payment where the capacity agreement is breached. There are three kinds of capacity market units (“CMUs”) that can be used to participate in the Capacity Market: generating CMUs, demand side response (“DSR”) CMUs, and interconnector CMUs. The Principal Regulations and the Supplier Payment Regulations also impose obligations on persons who supply electricity in Great Britain pursuant to an electricity supply licence under section 6 of the Electricity Act 1989 (c. 29). Those obligations consist principally of requirements to make payments to the settlement body. Further detailed and technical provision is made by the Capacity Market Rules 2014 (“the Rules”).

The amendments are set out in the Schedules to these Regulations.

**Part 1 of Schedule 1** makes provision for an additional Capacity Market auction to those provided for in the Principal Regulations (a supplementary auction) to take place between September 2016 and July 2017 for the delivery of capacity in the 2017/18 Capacity Market delivery year; and makes associated amendments required to facilitate that auction.

**Part 2 of Schedule 1** amends provisions relating to the termination of capacity agreements and to the credit cover required to be provided by applicants for capacity agreements in certain circumstances. In particular, provision is made for a wider range of termination fees (liability for which is determined by termination events provided for in the Rules); for increases in the level of credit cover; and for further increased credit cover to be provided in certain circumstances in the case of large new build CMUs.

**Part 3 of Schedule 1** contains amendments relating to the transfer of capacity market obligations from one CMU to another (including the transfer of a part only of the relevant capacity market agreement); and amendments extending the range of circumstances in which payment can be made for over-delivery on a capacity market obligation.

**Part 4 of Schedule 1** modifies regulation 29 of the Principal Regulations, which makes provision for DSR transitional auctions, and makes associated provision. The modification narrows the class of CMUs eligible to take part in the second of those auctions.

**Part 5 of Schedule 1** amends provisions in the Principal Regulations relating to the role of the Secretary of State and the Gas and Electricity Markets Authority in reviewing the Principal Regulations, the Supplier Payment Regulations and the Rules from time to time, in particular so that provision for the review of the Rules can be made in the Rules themselves.

**Part 6 of Schedule 1** contains miscellaneous and minor amendments to the Principal Regulations, including in relation to the process by which parameters for Capacity Market auctions are set, and Schedule 2 contains miscellaneous and minor amendments to the Supplier Payment Regulations, principally in relation to the time at which various obligations under those Regulations must be discharged.
