- “available techniques” means those developed on a scale which allows implementation in the relevant industrial sector, under economically and technically viable conditions, taking into consideration the costs and advantages, whether or not the techniques are used or produced inside the United Kingdom, as long as they are reasonably accessible;
- “best” means most effective in achieving a high general level of protection of the environment as a whole;
- “best available techniques” means the most effective and advanced stage in the development of activities and their methods of operation which indicates the practical suitability of particular techniques for providing the basis for emission limit values and other permit conditions designed to prevent and, where that is not practicable, to reduce emissions and the impact on the environment as a whole.
- “emission levels associated with the best available techniques” means the range of emission levels obtained under normal operating conditions using a best available technique or a combination of best available techniques, as described in BAT conclusions, expressed as an average over a given period of time, under specified reference conditions;
- “emission limit value” means the mass, expressed in terms of certain specific parameters, concentration and/or level of an emission, which may not be exceeded during one or more periods of time;
- “techniques” includes both the technology used and the way in which the installation is designed, built, maintained, operated and decommissioned.

PART 4

Amendments to retained direct EU legislation on wildlife

Council Regulation (EEC) No 3254/91 prohibiting the use of leghold traps in the Community and the introduction into the Community of pelts and manufactured goods of certain wild animal species originating in countries which catch them by means of leghold traps or trapping methods which do not meet international humane trapping standards

10.—(1) Council Regulation (EEC) No 3254/91 prohibiting the use of leghold traps in the Community and the introduction into the Community of pelts and manufactured goods of certain wild animal species originating in countries which catch them by means of leghold traps or trapping methods which do not meet international humane trapping standards is amended as follows.

(2) In Article 3—

(a) in paragraph 1, for the words from “the Commission” to the end substitute “the pelts originate from an approved country”;

(b) at the end insert—

“4. In paragraph 1, “an approved country”, in relation to the pelts of any species (and goods incorporating such pelts), means a country listed in the Annex to the Council Decision in respect of that species.

5. Subject to paragraph 6, the Secretary of State may, by regulations, amend the Annex to the Council Decision by—

(a) adding an entry;

(b) amending an entry;

(c) omitting an entry.

6. The Secretary of State may not add a country to the list of approved countries in the Annex to the Council Decision unless the Secretary of State is satisfied that, in that country—

(a) there are adequate administrative or legislative provisions in force to prohibit the use of the leghold trap, or

(b) the trapping methods used for the species specified in Annex 1 meet internationally agreed trapping standards.

7. In this Article, “the Council Decision” means Council Decision 97/602/EC concerning the list referred to in the second subparagraph of Article 3(1) of Regulation (EEC) No 3254/1991 and in Article 1(1)(a) of Commission Regulation (EC) No 35/97.”.

(3) In Article 4, for the second paragraph substitute—

“The Secretary of State may, by regulations, amend Council Regulation (EC) No 35/97 laying down provision on the certification of pelts and goods covered by Regulation (EEC) No 3254/91.”.

(4) For Article 5 substitute—

“Article 5

1. Regulations made under this Regulation are to be made by statutory instrument.

2. A statutory instrument containing regulations made under this Regulation is subject to annulment in pursuance of a resolution of either House of Parliament.

3. Such regulations may contain consequential, incidental, supplementary, transitional or saving provision (including provision amending, repealing or revoking enactments

(which has the meaning given by section 20(1) of the European Union (Withdrawal) Act 2018)).”.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations are made in exercise of the powers conferred by the European Union (Withdrawal) Act 2018 (c. 16) in order to address failures of retained EU law to operate effectively and other deficiencies (in particular under section 8(2)(a), (b), (f) and (g)) arising from the withdrawal of the United Kingdom from the European Union.

They provide for functions of making an instrument of a legislative character exercised by EU entities to be exercisable instead by a public authority in the United Kingdom. These functions are in the fields of the environment and wildlife. The provisions are all amendments to retained direct EU legislation except for regulation 9, which concerns a legislative function in Directive 2010/75/EU of the European Parliament and of the Council on industrial emissions (integrated pollution prevention and control) (Recast) (OJ No L 334, 17.12.2010, p 17).

An impact assessment has not been produced for this instrument as no, or no significant, impact on the private or voluntary sector is foreseen.
