switches for
luminous tube
signs.

49.—(1) This section applies to apparatus consisting of luminous tube signs designed to work at a voltage normally exceeding 650 volts, or other equipment so designed and references in this section to a cut-off switch are, in a case where a transformer is provided to raise the voltage to operate the apparatus, references to a cut-off switch on the low-voltage side of the transformer.

(2) As from the appointed day in the county—

(a) no apparatus to which this section applies shall be installed on or in any premises in the county unless it is provided with a cut-off switch; and

(b) the switch shall be so placed, and coloured or marked, as to satisfy such reasonable requirements as the fire authority may impose to secure that it shall be readily recognisable by and accessible to firemen.

(3) Not less than six weeks before work is begun to install apparatus to which this section applies, the owner or the occupier of the premises where the apparatus is to be installed shall give notice to the fire authority showing where the cut-off switch is to be placed and how it is to be coloured or marked.

(4) Where notice has been given to the fire authority as required by subsection (3) above, the proposed position, colouring or marking of the switch shall be deemed to satisfy the requirements of the fire authority unless, within 21 days from the date of the service of the notice, the fire authority have served on the owner or occupier a counter-notice stating that their requirements are not satisfied.

(5) Where apparatus to which this section applies has been installed before the appointed day, the owner or the occupier of the premises where it is installed shall, not more than 21 days after the appointed day, give notice to the fire authority stating whether the apparatus is already provided with a cut-off switch and, if so, where the switch is placed and how it is coloured or marked.

(6) Where apparatus to which this section applies has been installed before the appointed day, the fire authority may serve on the owner or occupier of the premises a notice—

(a) in the case of apparatus already provided with a cut-off switch, stating that they are not satisfied with the position, colouring or marking of the switch and requiring him, within such period as may be specified in the notice, to take such steps as will secure that the switch will be so placed and coloured or marked as to be readily recognisable by, and accessible to, firemen in accordance with the reasonable requirements of the fire authority; or

(b) in the case of apparatus not already provided with a cut-off switch, requiring him, within such period as may be specified in the notice, to provide such a cut-off switch in such a position and so coloured or marked as to be readily recognisable by, and accessible to, firemen in accordance with the reasonable requirements of the fire authority.

(7) A cut-off switch which complies with the regulations of the Institution of Electrical Engineers for a fireman's emergency switch as to position, colour and marking shall for the purposes of this section be deemed to satisfy the requirements of the fire authority.

(8) The provisions of section 290 of the Act of 1936 shall apply to notices given by the fire authority under this section as they apply to the notices mentioned in subsection (1) of that

section as if reference therein to a local authority included reference to the fire authority.

(9) The foregoing provisions of this section shall not apply to apparatus installed or proposed to be installed on or in premises in respect of which a licence under the Cinematograph Acts 1909 and 1952 is for the time being in force but, where any apparatus to which this section applies is proposed to be installed on or in any such premises, the owner or occupier of the premises shall, before the apparatus is installed, give notice to the fire authority informing them of the position in which it is proposed to place the cut-off switch and how it is to be coloured or marked.

50.—(1) Except as provided in subsection (2) below, where plans for the erection or extension of a building are deposited with a district council in accordance with building regulations, the district council shall reject the plans unless, after consultation with the fire authority, they are satisfied that the plans show—

- (a) there will be adequate means of access for the fire brigade to the building or, as the case may be, to the building as extended; and
- (b) that the building or, as the case may be, the extension of the building will not render inadequate any existing means of access for the fire brigade to a neighbouring building.

(2) No requirement concerning means of access to a building or to a neighbouring building shall be made under this section in the case of a building to be erected or extended in pursuance of a planning permission granted upon an application made under the Act of 1971 unless notice of the provisions of this section is endorsed on or accompanies the planning permission.

(3) Section 64 (2) and section 65 (2) to (5) of the Act of 1936 (notice of rejection or passing of plans and enforcement of requirements) shall apply as if this section were a section of the Act of 1936.

(4) Any person aggrieved by the action of the district council in rejecting plans under this section may appeal to a magistrates' court.

PART IX
—cont.

(5) In this section references to the adequacy or inadequacy of means of access for the fire brigade shall be construed as references to a means of access adequate or, as the case may be, inadequate for use for fire-fighting purposes by members of one or more fire brigades and their appliances.

(2) (a) The county council may make byelaws for securing that arrangements are made for preventing or reducing danger from fire arising in connection with oil-burning equipment installed or placed in any building, or on any land, in the county after the coming into operation of the byelaws.

(b) Without prejudice to the generality of paragraph (a) above, byelaws made under this subsection may include provisions prescribing the works, apparatus and fittings and fire-fighting appliances to be provided and maintained in connection with the installation or placing of oil-burning equipment, and the mode of arrangement of any such works, apparatus, fittings and appliances.

PART IX
—cont.

(c) In relation to byelaws made under this subsection, section 236 of the Act of 1972 (procedure for making and confirming byelaws) shall have effect as if in subsection (7), after “confirm” where it secondly occurs, there were inserted “or confirm with modifications”.

(d) If the Secretary of State, on considering byelaws submitted under section 236 of the Act of 1972 as having effect in accordance with paragraph (c) above proposes to make a modification which appears to him to be substantial he shall inform the county council and require them to take any steps he thinks necessary for informing persons likely to be concerned with that modification and shall not confirm the byelaws until there has elapsed such period as he thinks reasonable for consideration of, and comment upon, the proposed modification by the county council and by other persons who have been informed of it.

(3) As from the appointed day in any district, being a day not earlier than the day on which byelaws made under subsection (2) above come into operation in the district, any person intending to install or place oil-burning equipment in any building or on any land in the district shall give to the district council not less than 14 days' notice of his intention to do so.

(4) (a) Any oil-burning equipment installed or placed in accordance with plans and specifications submitted to, and approved by, the district council shall, for the purposes only of this section, be deemed to comply with the appropriate specification for such equipment prescribed in the byelaws in respect of all matters shown in the plans and specifications so passed.

(b) If the district council do not, within 8 weeks after the submission of plans and specifications of any oil-burning equipment under this subsection, notify the person who submitted the plans and specifications of their disapproval of the said plans and specifications stating the reasons for their disapproval, they shall be deemed to have approved them.

(5) (a) If, on an application made by a person proposing to install or place oil-burning equipment in any building, or on any land, in their district for waiver of the specification for such equipment prescribed in the byelaws, the district council, after consultation with the fire authority, are satisfied that proper arrangements will be made for preventing or reducing danger from fire arising in connection with the equipment, they may dispense with, or relax, the requirements of the byelaws and approve the installation or the placing of the equipment notwithstanding that it does not comply with the specification for such equipment prescribed in the byelaws.

(b) If the district council do not, within 8 weeks after the making of an application under this subsection, or such longer

period as the applicant may in writing allow, notify him of their approval of the application, they shall be deemed to have disapproved of it.

(6) (a) Any person aggrieved by—

(i) the withholding by the district council of their approval to the installation or placing of oil-burning equipment under subsection (4) above; or

(ii) by the disapproval by the district council of a submission made under subsection (5) above;

may, within 21 days after the receipt of notification of the disapproval or, as the case may be, after the expiration of the period of 8 weeks specified in subsection (5) (b) above, appeal to the Secretary of State stating the grounds of his appeal; and the appellant shall at the same time serve on the district council and the county council a copy of that statement.

(b) Where an appeal is brought under this subsection the Secretary of State shall take into account any representations made by the appellant, the district council and the county council within 21 days after the date of the notice of appeal, and may dismiss or allow the appeal or may vary the decision of the district council against which the appeal is made.

(c) The decision of the Secretary of State on any such appeal shall have effect as if it were a decision of the district council given under subsection (4) (a) or, as the case may be, subsection (5) (a) above.

(7) Any person who installs oil-burning equipment in any building or on any land in a district without giving such notice as may be required under subsection (3) above shall be guilty of an offence and liable on summary conviction to a fine not exceeding £200.

(8) (a) Any person who contravenes any byelaw made under subsection (2) above shall be guilty of an offence and liable on summary conviction to a fine not exceeding £200 and to a daily fine not exceeding £20.

(b) In any proceedings for an offence under this subsection it shall be a defence to show that the contravention occurred by reason of the installation or placing of equipment in accordance with any approval given by the district council under subsection (4) or subsection (5) (a) above.

(9) Nothing in this section shall apply to the installation of oil-burning equipment in any building in respect of which a licence under the Cinematograph Acts 1909 and 1952 or the Theatres Act 1968 is for the time being in force.

- (b) the arrangement of the chairs and seating requires alteration; or
- (c) any floor requires strengthening in order to prevent overloading; or
- (d) any fireplaces, flues, chimney vents or other similar parts of the building require repair or renewal;

then the district council may, after consultation with the fire authority, by notice require the owner or occupier of the building to make such provision in regard to the matters aforesaid as may be necessary.

(2) The provisions of section 290 of the Act of 1936 with respect to appeals against, and the enforcement of, notices requiring the execution of works shall apply in relation to a notice given under this section as they apply in relation to the notices mentioned in subsection (1) of that section.

(3) A notice under subsection (1) above shall not require any measures to be taken which are more onerous than those necessary to secure conformity, as to matters to which building regulations relate, with the requirement of any of those regulations applicable to the building if newly erected for the relevant purpose.

(4) This section shall not apply to any building, or part of a building, in respect of which a licence, under Part IV of the Public Health Acts Amendment Act 1890, Part VII (Licensing of music and dancing) of this Act, the Cinematograph Acts 1909 and 1952 or the Theatres Act 1968, is for the time being in force.

- (i) delivered one part to the occupier of the building;
- (ii) retained one part for future comparison; and
- (iii) if he thinks fit to have a test made, submitted one part to be tested.

(b) The owners of premises fronting any row and any stall incident to it shall, subject to paragraph (a) above, be under a duty to maintain the row and stall to the extent of their respective frontages to the row and stall.

But this subsection shall have effect subject to the following provisions of this section whereby persons other than those referred to in paragraphs (a) and (b) above may be liable to maintain a row or stall.

(2) If it appears to the city council that any row or stall is out of repair, the council may by notice to the owners of premises referred to in subsection (1) (a) or (b) above require them to carry out, within such reasonable time as may be specified in the notice, such works as may be so specified, being works required to put the row or stall in proper repair.

(3) (a) If it appears to the city council that by virtue of an instrument entered into before or after the passing of this Act any person having an interest in land on, over or adjoining which a row or stall is situated, other than the persons referred to in subsection (1) (a) or (b) above, is liable in whole or in part to maintain a row or stall, the council shall, upon serving notice under subsection (2) above, serve a copy of the notice on the person so liable accompanied by a statement referring to the instrument appearing to the council to render him so liable; and a copy of that statement shall accompany the notice served on the owners.

(b) Subject to subsection (4) below, where a person is served with a copy of a notice and a statement in accordance with paragraph (a) above, then, to the extent that fulfilment of the obligations of that person under the instrument referred to in that statement would constitute a discharge of the duty of the owners under subsection (1) (a) or (b) above, that person shall be under a duty to discharge those obligations and those owners shall to the same extent be discharged of the duty imposed upon them by subsection (1) above.

(4) A person served with a notice or, as the case may be, a copy notice (hereafter in this section referred to without distinction as "the notice") under subsection (2) or (3) above may,

within 28 days from the date of service, appeal against the notice to the county court having jurisdiction in the place where the row or stall is situated on any of the following grounds:—

- (b) that the time specified in the notice for carrying out the works falls short of the time which should reasonably be allowed for the purpose; or
- (c) that the notice ought to have been served on some other person described in subsection (3) above, who is responsible for discharging in whole or in part the duty under subsection (1) above, in addition to or rather than upon the person or persons on whom it was served; or
- (d) that the works required affect other premises and that some other person ought to carry out all or part of the works.

(5) (a) Where the grounds upon which an appeal is made under subsection (4) above include a ground specified in paragraph (c) or (d) thereof, the appellant shall serve a copy of his notice on each other person referred to and shall make that person a party to the appeal.

(b) On the hearing of the appeal the court may make such order as it thinks fit with respect to the person by whom, and the time within which, any work is to be carried out, and the contribution to be made by any other person towards the cost of any work, or as to the proportion in which any expenses which may become recoverable by the city council are to be borne by the appellant and such other person.

(c) In exercising its powers under this subsection, the court shall have regard, as between an owner and an occupier, to the terms and conditions of the tenancy and to the nature of the works required.

(6) (a) If there is a failure to carry out the works required by the notice, or, as the case may be, by order of the court, then, whether or not any person was willing to carry out his share of the works but was unable to do so because of the failure of other persons to carry out their share, the city council may themselves carry out the works and recover the expenses reasonably incurred by them in so doing from the persons liable under this section to carry out the works in the proportions in which the expense of carrying out the works would have fallen on each of those persons had the works been carried out by him; and any expense due

from a person under this subsection shall, until recovered, be a charge on the estate or interest of that person and his successors in the premises.

PART XI
