(6) Where apparatus to which this section applies has been installed before the relevant day the fire authority may serve on the owner or occupier of the premises where it is installed a notice—

- (a) in the case of apparatus already provided with a cut-off switch, stating that they are not satisfied with the position, colouring or marking of the switch and requiring him, within such period as may be specified in the notice, to take such steps as will secure that the switch will be so placed and coloured or marked as to be readily recognisable by, and accessible to, firemen in accordance with the reasonable requirements of the fire authority; or
- (b) in the case of apparatus not provided with a cut-off switch, requiring him, within such period as may be specified in the notice, to provide a cut-off switch in such a position and so coloured or marked as to be readily recognisable by, and accessible to, firemen in accordance with the reasonable requirements of the fire authority.

(7) A cut-off switch which complies with the regulations of the Institution of Electrical Engineers for a fireman's emergency switch as to position, colour and marking shall for the purposes of this section be deemed to satisfy the requirements of the fire authority.

(8) The provisions of section 290 of the Act of 1936 shall apply to notices given by the fire authority under this section as they apply to the notices mentioned in subsection (1) of that section and as if—

- (a) reference therein to a local authority included reference to the fire authority; and

(b) in subsection (6), for the words " five hundred pounds and to a further fine not exceeding forty shillings " there were substituted the words " two hundred pounds and to a further fine not exceeding twenty pounds ".

PART VIII  
—cont.

(9) The foregoing provisions of this section shall not apply to apparatus installed or proposed to be installed on or in premises in respect of which a licence under the Cinematograph Acts 1909 and 1952 is for the time being in force but, where any apparatus to which this section applies is proposed to be installed on or in any such premises, the owner or occupier of the premises shall, before the apparatus is installed, give notice to the fire authority informing them of the position in which it is proposed to place the cut-off switch and how it is to be coloured or marked.

(10) The owner and the occupier of premises where apparatus to which this section applies is installed which does not comply with subsection (2) above shall each be guilty of an offence and liable on summary conviction to a fine not exceeding £200 and to a daily fine not exceeding £20.

(12) (a) In proceedings for an offence under this section where the owner and the occupier of the premises in question are both liable to be prosecuted, it shall be a defence for either of them to show that it would have been equitable for the prosecution to be brought only against the other.

(b) A person charged shall not be entitled to rely on the defence set out in paragraph (a) above unless within a period ending 7 clear days before the hearing he has served on the prosecutor notice in writing of his intention so to do.

(13) In this section " the relevant day " means the forty-second day after the appointed day.

53.—(1) Except as provided in subsection (2) below, where plans for the erection or extension of a building are deposited with a district council in accordance with building regulations, the district council shall reject the plans unless after consultation with the fire authority they are satisfied that the plans show—

(a) that there will be adequate means of access for the fire brigade to the building or, as the case may be, to the building as extended; and

(b) that the building or, as the case may be, the extension of the building will not render inadequate existing means of access for the fire brigade to a neighbouring building.

PART VIII  
—cont.

(2) No requirement concerning means of access to a building or to a neighbouring building shall be made under this section in the case of a building to be erected or extended in pursuance of a planning permission granted upon an application made under the Act of 1971 unless notice of the provisions of this section is endorsed on or accompanies the planning permission.

(3) Section 64 (2) and section 65 (2) to (5) of the Act of 1936 (notice of rejection or passing of plans and enforcement of requirements) shall apply as if this section were a section of the Act of 1936.

(4) Any person aggrieved by the action of the district council in rejecting plans under this section may appeal to a magistrates' court.

(5) In this section references to the adequacy or inadequacy of means of access for the fire brigade shall be construed as references to a means of access adequate or, as the case may be, inadequate for use for fire-fighting purposes by members of one or more fire brigades and their appliances.

“ apparatus ” and “ fittings ” include pipes and pipe fittings, taps, valves, pumps, gauges, vessels, fans and filters;

“ storage tank ” means a tank, container or device designed or adapted for the purpose of supplying oil to a boiler; and references to the installation or placing of oil-burning equipment in any building or on any land shall be construed as including the installation or placing of oil-burning equipment which is partly in a building and partly on land outside the building.

(2) (a) The county council may make byelaws applicable to any district or part thereof for securing that arrangements are

made for preventing or reducing danger from fire arising in connection with oil-burning equipment installed or placed in any building, or on any land, in the area to which the byelaws apply.

(b) Without prejudice to the generality of paragraph (a) above, byelaws made under this subsection may include provisions prescribing the works, apparatus and fittings and fire-fighting appliances to be provided in connection with the installation or placing of oil-burning equipment, and the mode of arrangement of any such works, apparatus, fittings and appliances.

(c) In relation to byelaws made under this subsection section 236 of the Act of 1972 (procedure for making and confirming byelaws) shall have effect as if in subsection (7), after the word "confirm" where it secondly occurs, there were inserted the words "or confirm with modifications".

(d) If the Secretary of State, on considering byelaws submitted under section 236 of the Act of 1972 as having effect in accordance with paragraph (c) above proposes to make a modification which appears to him to be substantial he shall inform the county council and require them to take any steps he thinks necessary for informing persons likely to be concerned with that modification and shall not confirm the byelaws until there has elapsed such period as he thinks reasonable for consideration of, and comment upon, the proposed modification by the county council and by other persons who have been informed of it.

(3) As from the appointed day in any district, being a day not earlier than the day on which byelaws made under subsection (2) above come into operation in the district, any person intending to install or place oil-burning equipment in any building or on any land, in the area of the district to which the byelaws apply, shall give to the district council not less than 14 days' notice of his intention to do so.

(4) (a) Any oil-burning equipment installed or placed in accordance with plans and specifications submitted to, and approved by, the district council shall, for the purposes only of this section, be deemed to comply with the appropriate specification for such equipment prescribed in the byelaws in respect of all matters shown in the plans and specifications so passed.

(b) If the district council do not, within 8 weeks after the submission of plans and specifications of any oil-burning equipment under this subsection, notify the person who submitted the plans and specifications of their disapproval of the said plans and specifications stating the reasons for their disapproval, they shall be deemed to have approved them.

(5) (a) If, on an application made by a person proposing to install or place oil-burning equipment in any building, or on

**PART VIII**  
—cont.

any land, in their district for waiver of the specification for such equipment prescribed in the byelaws, the district council, after consultation with the fire authority, are satisfied that proper arrangements will be made for preventing or reducing danger from fire arising in connection with the equipment, they may dispense with, or relax, the requirements of the byelaws and approve the installation or the placing of the equipment notwithstanding that it does not comply with the specification for such equipment prescribed in the byelaws.

(b) If the district council do not, within 8 weeks after the making of an application under this subsection or such longer period as the applicant may in writing allow, notify him of their approval of the application, they shall be deemed to have disapproved it.

(6) (a) Any person aggrieved by—

(i) the withholding by the district council of their approval to the installation or placing of oil-burning equipment under subsection (4) above; or

(ii) the disapproval by the district council of an application made under subsection (5) above;

may, within 21 days after the receipt of notification of the disapproval or, as the case may be, after the expiration of the period of 8 weeks specified in subsection (5) (b) above, appeal to the Secretary of State stating the grounds of his appeal; and the appellant shall at the same time serve on the district council and the fire authority a copy of that statement.

(b) Where an appeal is brought under this subsection the Secretary of State shall take into account any representations made by the appellant, the district council and county council within 21 days after the date of the notice of appeal, and may dismiss or allow the appeal or may vary the decision of the district council against which the appeal is made.

(c) The decision of the Secretary of State on any such appeal shall have effect as if it were a decision of the district council given under subsection (4) (a), or, as the case may be, subsection (5) (a) above.

(7) Any person who installs oil-burning equipment in any building or on any land in the area to which byelaws made under subsection (2) above apply without giving such notice as may be required under subsection (3) above shall be guilty of an offence and liable on summary conviction to a fine not exceeding £200.

(8) (a) Any person who contravenes any byelaw made under subsection (2) above shall be guilty of an offence and liable on summary conviction to a fine not exceeding £200, and to a daily fine not exceeding £20.

(b) In any proceedings for an offence under this subsection it shall be a defence to show that the contravention occurred by reason of the installation or placing of equipment in accordance with any approval given by the district council under subsection (4) or (5) above.

PART VIII  
—cont.

(9) Nothing in this section shall apply to the installation of oil-burning equipment in any building in respect of which a licence under the Cinematograph Acts 1909 and 1952 or the Theatres Act 1968 is for the time being in force.

(5) (a) Nothing in this section shall authorise the fire authority to require the generating board or the electricity board to affix on any building or part of a building on operational land (as defined in section 222 of the Act of 1971) any sign, symbol or notice without the consent of the board concerned which consent shall not be unreasonably withheld.
