The ton mentioned in the foregoing schedule is the ton of twenty hundredweight.

Goods of all descriptions rated by the ton shall be charged according to gross weight fractional parts of a ton shall be charged proportionately and the minimum charge for a single package shall be one penny.

All goods landed from any vessel and re-shipped in the same or another vessel in the original packages and without being transferred from the importer or if the said goods have been put into other packages from the original packages having been destroyed or damaged shall only pay duties on landing and may be re-shipped in the same or another vessel upon her departure outwards without paying duties again.

When herring barrels are exported empty and are returned to the port and harbour packed with herrings the owners (if the exporters of the barrels) shall be entitled to an allowance or drawback of the amount of rates paid on exportation for such barrels out of the rates payable on importation for such herrings.

All goods having paid duties and belonging still to the same person and under the same voyage should not be again liable to duties though such goods should require to be landed or to be re-shipped by the original proprietor.

If any goods for which rates shall have been paid when loaded shall from any accident or otherwise be unloaded no rates shall be charged a second time for such goods on being reloaded if they belong to the original owner. A.D. 1914.

Where any goods shall have been shipped and the rates therefor paid and such goods shall thereafter be re-landed within the harbour by reason of the detention therein of the vessel by stress of weather and shall not be re-shipped such rates shall be re-paid.

Exemptions.

The luggage of each passenger not exceeding two and a half cwt. but for all above that weight the rate of two shillings and sixpence per ton shall be paid by each passenger.
