the court may make an order under this section.

(2) An order under this section may direct that the premises so severed shall be deemed for the purposes of those sections to have a frontage to the street or part of the street of such extent in yards as may be specified in the order.

(3) In this section "transfer" includes any disposal of land whether by way of sale, lease, exchange, gift or otherwise; and references to premises and to fronting shall be construed in the same manner as in the two last foregoing sections.

(2) Subsections (1) and (2) of section one hundred and forty-five of the Highways Act, 1959 (which, as regards buildings dangerous to those using streets, gives local authorities a power corresponding to that in section fifty-eight of the Public Health Act, 1936), shall cease to have effect.

(5) Subject to the provisions of the last foregoing subsection, in proceedings to recover expenses under this section the court may inquire whether the said expenses ought to be borne wholly or in part by some person other than the defendant in the proceedings, and the court may make such order concerning the expenses or their apportionment as appears to the court to be just:

Provided that the court shall not order the expenses or any part of them to be borne by any person other than the defendant in the proceedings unless the court is satisfied that that other person has had due notice of the proceedings and an opportunity of being heard.

(6) A local authority shall not serve a notice under this section, or proceed with the execution of works in accordance with a notice so served, if the execution of the works would, to their knowledge, be in contravention of a building preservation order under section twenty-nine of the Town and Country Planning Act, 1947.

(7) The power conferred on a local authority by subsection (1) of this section may be exercised notwithstanding that the local authority might instead have proceeded under section nine of the Housing Act, 1957.

55.—(1) This section shall apply in relation to the discharge of trade effluents into public sewers where by virtue of subsection (1) or subsection (2) of section four of the Public Health (Drainage of Trade Premises) Act, 1937 (which concern cases where a discharge of trade effluents was made before the coming into force of that Act, or before a change in the sewerage system), the restrictions imposed by sections one and two of that Act (hereafter referred to as the Act of 1937) do not apply.

(2) A local authority may direct that where trade effluents are discharged from any trade premises specified in the direction, and this section applies in relation to the discharge of those trade effluents, the occupier for the time being of the trade premises shall pay such charges to the local authority as the local authority may specify in the direction, regard being had to the nature and composition and to the volume and rate of discharge of the trade effluent, to any additional expense incurred or likely to be incurred by a sewerage authority in connection with its reception or disposal, and to any revenue likely to be derived by a sewerage authority from the trade effluent; and a local authority may from time to time vary or annul a direction given under this section by a further direction.

(3) No further direction shall be given under subsection (2) of this section within two years from the date on which notice was given of the previous direction, but this subsection shall not prevent a further direction being given before that time with the written consent of the owner and occupier of the trade premises, and any direction given with such consent shall not affect the time at which any subsequent direction may be given.

(4) A local authority shall not have power to give a direction under this section without the approval of any body which is an interested body as defined in subsection (1) of section fourteen of the Act of 1937, unless in any particular case the Minister by a notice to the local authority dispenses with the requirements of this subsection.

(5) The local authority shall give notice of any direction under this section to the owner and occupier of the trade premises to which the direction relates, and the notice shall include information as to the right of appeal conferred by the next following subsection.

(6) The owner or occupier of the trade premises may within two months of the giving of the notice to him, or with the written permission of the local authority at any later time, appeal to the Minister against the direction.

(8) If charges are payable under this section for the discharge of trade effluents for any period, no charges shall be payable under paragraph (c) of subsection (1) of section four of the Act of 1937 (which, in a case where before the coming into force of the Act of 1937 any sum was payable for the discharge of trade

PART V

effluents, makes it a condition of the exercise of the right under the said subsection that an equivalent payment is made) for the discharge of those trade effluents for that period.

(9) If, under any agreement to which the local authority and the owner or occupier of the trade premises are parties, any charges are payable to the local authority for the discharge of trade effluents for any period, no charges shall be payable under this section for the discharge of those trade effluents for that period.

Withdrawal of exemptions after two years' disuse.

56.—(1) If after subsection (1) or subsection (2) of section four of the Act of 1937 has operated to exempt any discharge of trade effluents from any trade premises there has been a period of two years or more during which no trade effluents of the nature or composition so exempted were discharged from those premises, that exemption shall no longer apply to those trade premises.

(2) This section shall apply whether or not the said period of two years or more, or any part of it, falls after the commencement of this Act, but shall not apply in relation to a period falling wholly before the commencement of this Act if the discharge of trade effluents in question from the premises was resumed before the commencement of this Act.

Installation of inspection chambers and meters on exempted premises.

57.—(1) A local authority may direct that the discharge of trade effluents from any trade premises specified in the direction, in any case where subsection (1) or subsection (2) of section four of the Act of 1937 has operated to exempt the discharge of the trade effluents, shall be subject to conditions as regards all or any of the following matters—

- (a) the temperature of the trade effluent at the time when it is discharged into the sewer, and its acidity or alkalinity at that time,
- (b) the provision and maintenance of such an inspection chamber or manhole as will enable a person readily to take at any time samples of what is passing into the sewer from the trade premises,
- (c) the provision and maintenance of such meters as may be required to measure the volume and rate of discharge of any trade effluent being discharged from the trade premises into the sewer, and for the testing of such meters,
- (d) the keeping of records of the volume and rate of discharge of any trade effluent being so discharged, and in particular the keeping of records of readings of meters

provided in compliance with any other condition imposed under this section, and

- (e) the making of returns and giving of other information to the local authority concerning the volume, rate of discharge, nature and composition of any trade effluent so discharged,

and a local authority may from time to time vary or annul a direction given under this section by a further direction.

(2) No further direction shall be given under subsection (1) of this section within two years from the date on which notice was given of the previous direction, but this subsection shall not prevent a further direction being given before that time with the written consent of the owner and occupier of the trade premises, and any direction given with such consent shall not affect the time at which any subsequent direction may be given.

(3) A local authority shall not have power to give a direction under this section without the approval of any body which is an interested body as defined in subsection (1) of section fourteen of the Act of 1937, unless in any particular case the Minister by a notice to the local authority dispenses with the requirements of this subsection.

(4) A local authority shall give notice of any direction under this section to the owner and occupier of the trade premises to which the direction relates, and the notice shall include information as to the right of appeal conferred by the next following subsection.

(5) The owner or occupier of the trade premises may within two months of the giving of the notice to him, or with the written permission of the local authority at any later time, appeal to the Minister against the direction.

(6) The notice shall state the date on which the direction is to take effect, being a date not less than two months after the giving of the notice, and if an appeal is brought under this section before that date, the direction shall not take effect until the appeal is withdrawn or finally disposed of.

(7) On an appeal against a direction under this section the Minister shall have power to annul the direction or to substitute for it any other direction under this section, whether more or less favourable to the appellants.

(8) If there is a failure to comply with a condition imposed under this section, and any trade effluent has been discharged from the trade premises into a sewer to which the condition relates at any time since the imposition of the condition, the occupier of the trade premises shall be guilty of an offence under the Act of 1937.

(2) No direction shall be given under subsection (1) of this section within two years from the date of the consent or, where a previous direction has been given under that subsection, within two years from the date on which notice was given of that direction, but this subsection shall not prevent a direction being given before that time with the written consent of the owner and occupier of the trade premises, and any direction given with such consent shall not affect the time at which any subsequent direction may be given.

(3) A local authority shall not have power to give a direction under subsection (1) of this section without the approval of any body which is an interested body as defined in subsection (1) of section fourteen of the Act of 1937 unless in any particular case the Minister by a notice to the local authority dispenses with the requirements of this subsection.

Appeals under
s. 3 of Act
of 1937.

61.—(1) This section shall have effect as respects any appeal under section three of the Act of 1937 (under which an appeal may be brought by a person aggrieved by a direction prohibiting the discharge of trade effluent until a specified date, or by refusal or failure to give a consent under that Act, or by a condition attached to a consent).

(2) Where the appeal is in respect of a refusal to give a consent under the Act of 1937, or failure to give such a consent, the Minister may give the necessary consent, either unconditionally or subject to such conditions as the Minister thinks fit to impose for determining any of the matters as respects which the local authority have power to impose conditions under subsection (3) of section two of the Act of 1937.

(3) Where the appeal is in respect of a condition attached to a consent the Minister may take into review all the conditions attached to the consent, whether appealed against or not, and may substitute for them any other set of conditions, whether more or less favourable to the appellant, or may annul any of the conditions.

(4) The Minister may under the last foregoing subsection include provision as to the charges to be made in pursuance of

any condition attached to a consent for any period before the determination of the appeal.

This subsection shall apply whether or not any direction given by the local authority is appealed against.

(6) This section shall not apply to an appeal instituted before the commencement of this Act.

62.—(1) If, after a direction has under the Act of 1937 or this Part of this Act been given requiring that no trade effluent shall be discharged in pursuance of a trade effluent notice until a specified date, it appears to the local authority that in consequence of a failure to complete any works required in connection with the reception and disposal of the trade effluent, or in consequence of any other exceptional circumstances, a later date ought to be substituted for the date so specified in the direction, they may apply to the Minister and the Minister shall have power to vary the direction so as to extend the period during which the trade effluent may not be discharged until the date specified in the application or, if he thinks fit, any earlier date.

(2) Not less than one month before making an application under this section the local authority shall give notice of their intention to the owner and occupier of the trade premises to which the trade effluent notice relates and the Minister before varying the direction shall take into account any representations made to him by the owner or occupier of those trade premises.

PART V

would fall within the definition of trade effluent as amended by this section (but not as unamended), none of the restrictions imposed by sections one and two of the Act of 1937 shall by virtue of subsection (1) of this section apply in relation to the discharge from those premises of trade effluent of the same nature and composition—

(a) during the period of twelve months beginning with the commencement of this Act, and

(b) if before the end of the said period of twelve months a trade effluent notice is duly served under section two of the Act of 1937 regarding the discharge from those premises of trade effluent of that nature and composition, either during the said period of twelve months or at any later time permitted under the next following subsection.

(3) Where such a trade effluent notice has been served before the end of the said period of twelve months, the exemption conferred by subsection (2) of this section shall continue—

(a) until the local authority give their consent under the Act of 1937, or give notice to the owner or occupier of the trade premises that they refuse to give their consent, and

(b) for a further three months beginning with the giving of the consent, or of notice refusing the consent,

and if before the expiration of the said period of three months an appeal is brought under section three of the Act of 1937 by reference to the trade effluent notice, the exemption shall continue until the appeal is withdrawn or finally disposed of.

(4) The exemptions conferred by subsection (2) and subsection (3) of this section shall apply only if and so long as the quantity of the trade effluent in question discharged from the premises into the sewer on any one day does not exceed the maximum quantity thereof so discharged on any one day during the period of twelve months ending immediately before the commencement of this Act, and the exemption conferred by virtue of subsection (3) of this section shall apply only in relation to the discharge of trade effluent in accordance with the trade effluent notice.

(5) The amendments made by subsection (1) of this section shall not apply for the purposes of subsection (1) of section four of the Act of 1937 and those amendments shall not apply for the purposes of subsection (2) of the said section four except in relation to the closing of a drain or sewer after the commencement of this Act.

(6) The owner or occupier of any trade premises from which any effluent which falls within the definition of trade effluent by virtue of subsection (1) of this section is discharged into a

sewer shall, if requested by the local authority in writing so to do, furnish to the local authority such information specified in the request as he can reasonably be expected to supply with respect to the discharge of any effluent from those premises during the period of one year ending with the commencement of this Act.

(7) A person who fails to comply with a request for information under the last foregoing subsection shall be liable to a fine not exceeding five pounds.

(8) Nothing in this Part of this Act shall affect any agreement duly made before the commencement of this Act between a local authority and the owner or occupier of any premises with respect to the discharge from those premises of any effluent which would fall within the definition of trade effluent as amended by subsection (1) of this section (but not as un-amended).

64.—(1) The Minister may by order provide that the Act of 1937 and this Part of this Act shall apply in relation to liquid or other matter of any description specified in the order which is discharged from any premises into public sewers as they apply in relation to trade effluents, but subject to such modifications, if any, as may be specified in the order, and in particular subject to any modification of the definition of trade premises in the Act of 1937 which may be so specified. Power to extend Act of 1937 to other effluents.

(2) The Minister may include in an order under this section such provisions as appear to him expedient for modifying any enactment relating to sewage as that enactment applies in relation to the discharge into sewers of any liquid or other matter to which any provisions of the Act of 1937 are applied by an order under this section.

(3) The Minister may include in an order under this section such transitional, supplemental and incidental provisions as appear to him to be expedient.

(4) An order made under this section may be varied or revoked by a subsequent order.

(5) An order under this section shall be made by statutory instrument and the Minister shall not make an order under this section unless a draft of the order has been laid before Parliament and approved by a resolution of each House of Parliament.

65.—(1) If a local authority apply to the Minister and satisfy Laundries. him that the discharge of trade effluent under the exemption conferred by subsection (4) of section four of the Act of 1937 (which exempts laundries from certain requirements contained in that Act) is likely to overload any sewers, or to make the treatment or disposal of sewage from any sewers specially difficult or expensive, or that there are other exceptional circum-

PART V

stances, the Minister may by order provide that the said subsection (4) shall not apply to premises specified in the order.

(2) An order under this section may designate particular premises in the district of the local authority, or may be made to apply to premises throughout the district, or to premises in any part of the district specified in the order.

(3) A local authority shall take such steps as appear to them to be appropriate for bringing any application under this section to the attention of those who may be affected and affording them an opportunity of making representations to the Minister.

(4) After an order is made under this section the local authority shall publish a notice of the order on at least two occasions in a local newspaper circulating in their district.

(5) On the coming into force of an order under this section the local authority shall treat any trade effluent notice served on them before the coming into force of the order as regards any premises affected by the order as being an application for consent under subsection (1) of section one of the Act of 1937 to the discharge of trade effluents in accordance with the trade effluent notice and, if the local authority fail to give that consent within two months from the coming into force of the order the occupier of the premises may appeal to the Minister under section three of the Act of 1937.

(6) No consent under subsection (1) of section one of the Act of 1937 shall be required by virtue of the making of an order under this section for the discharge of trade effluents in accordance with a trade effluent notice served on the local authority before the coming into force of the order for the period of three months beginning with the date on which the order comes into force, and if within that period an appeal is brought under section three of the Act of 1937 by reference to the trade effluent notice, no consent shall be so required until the appeal is withdrawn or finally disposed of:

Provided that this subsection shall only apply if and so long as the quantity of trade effluent discharged from the premises in pursuance of the trade effluent notice on any one day does not exceed the maximum quantity so discharged on any one day during the period of twelve months ending with the coming into force of the order.

(7) Nothing in section fifty-five or section fifty-seven of this Act shall authorise the imposition of any charge or condition in relation to the discharge of a trade effluent to which the exemption conferred by subsection (4) of section four of the Act of 1937 for the time being applies.

(8) An order made under this section may be varied or revoked by a subsequent order.

Interpretation

1. This Part of this Schedule applies to any direction under this Act which will affect the application of building regulations to work which has been carried out before the giving of the direction.

Cases where no direction may be given

2. Neither the Minister nor a local authority shall give a direction to which this Part of this Schedule applies—

(a) if the local authority have before the making of the application for the direction become entitled under subsection (3) of section sixty-five of the Public Health Act, 1936, to pull down, remove or alter the work to which the application relates, or

(b) if when the application is made there is in force an injunction or other direction given by a court which requires the work to be pulled down, removed or altered.

Suspension of certain provisions while an application is pending

3.—(1) Subject to the following provisions of this Schedule, after the making of an application for a direction to which this Part of this Schedule applies, and until the application is withdrawn or finally disposed of, no notice shall be given under section sixty-five of the Public Health Act, 1936, as regards the work to which the application relates on the ground that it contravenes the requirement to which the application relates.

(2) If an application for a direction to which this Part of this Schedule applies is made less than twelve months after the completion of the work to which the application relates, so much of subsection (4) of the said section sixty-five as prevents a notice being given more than twelve months after the completion of the work shall not prevent the giving of such a notice as regards that work at any time within the period of three months from the date on which the application is withdrawn or finally disposed of.

(3) If an application for a direction to which this Part of this Schedule applies is made after a notice under the said section sixty-five has been given on the ground that the work to which the application relates contravenes the requirement to which the application relates (not being an application prohibited by paragraph 2 of this Schedule), subsection (3) of the said section sixty-five shall have effect in relation to that work as if for the reference to the period there mentioned there were substituted a reference to a period expiring twenty-eight days after the application is withdrawn or finally disposed of, or such longer period as a magistrates' court may allow.

1ST SCH.

(4) Subject to the following provisions of this Schedule, if an application for a direction to which this Part of this Schedule applies is made after any person has, in consequence of the carrying out of the work to which the application relates in contravention of building regulations, become liable to a penalty continuing from day to day, the daily penalty shall not be recoverable in respect of any day after the making of the application and before it is withdrawn or finally disposed of.

(5) In a case where an application is withdrawn or is finally disposed of without any direction being given, the Minister or, as the case may be, the local authority may order that the daily penalty shall not be recoverable in respect of any day during such further period not exceeding twenty-eight days as may be specified in the order.

4. Sub-paragraph (1), sub-paragraph (3) and sub-paragraph (4) of the last foregoing paragraph shall not apply to an application which is a repetition, or substantially a repetition, of a previous application under this Act.

*Termination of proceedings under section 65 of Act
of 1936 on giving of a direction*

6. If before the giving of a direction to which this Part of this Schedule applies a notice has been given under section sixty-five of the Public Health Act, 1936, and the contravention of building regulations by virtue of which the notice was given comes to an end when the direction is given, the local authority shall not, after the giving of the direction, be entitled to proceed under subsection (3) of the said section sixty-five by virtue of that notice.

PART II

9.—(1) Subject to the provisions of this paragraph, a local authority may, on an application made after the appointed date by any person (other than the local authority), and with the consent of the Minister, give a direction dispensing with or relaxing any requirement of building byelaws, and the Minister may, on such an application by a local authority, give such a direction in their favour.

(2) Subsection (4) of section six and sections seven and eight of this Act, and Part I of this Schedule, shall apply in relation to any application or direction under this paragraph as if references to building regulations included references to building byelaws, and as if an application or direction under this paragraph were an application or direction under the said section six.

(3) Any application for the relaxation of or dispensation with the requirements of a building byelaw under section sixty-three of the Public Health Act, 1936, which is pending at the appointed date shall have effect after the appointed date as if it were an application under sub-paragraph (1) of this paragraph.

(4) Where under the said section sixty-three notice of any proposed relaxation or dispensation has been given before the appointed date, no notice need be published or given under section eight of this Act as regards that relaxation or dispensation.

10. The amendments made by section five of this Act and Part III of this Schedule in any enactment shall not apply so as to exclude from that enactment any reference to building byelaws as in force before the appointed date, or as continued in force by this Part of this Schedule.
