PART I

UNITS AND STANDARDS OF MEASUREMENT

1.—(1) The yard or the metre shall be the unit of measurement of length and the pound or the kilogram shall be the unit of measurement of mass by reference to which any measurement involving a measurement of length or mass shall be made in the United Kingdom; and—

(a) the yard shall be 0.9144 metre exactly;
(b) the pound shall be 0.453 592 37 kilogram exactly.

(2) Schedule 1 to this Act shall have effect for defining for the purposes of measurements falling to be made in the United Kingdom the units of measurement set out in that Schedule.
2 c.

Weights and Measures Act 1985

PART I

Schedule; and for the purposes of any measurement of weight falling to be so made, the weight of any thing may be expressed, by reference to the units of measurement set out in Part V of that Schedule, in the same terms as its mass.

(3) Subject to subsection (4) below, the Secretary of State may by order amend Schedule 1 to this Act by adding to or removing from Parts I to VI of that Schedule any unit of measurement of length, of area, of volume, of capacity, or of mass or weight, as the case may be.

(4) An order under subsection (3) above shall not remove—

(a) from Part I of Schedule 1, the mile, foot or inch, or
(b) from Part IV of that Schedule, the gallon or pint,

but this subsection is without prejudice to section 8(6)(b) below.

(5) An order under subsection (3) above may contain such transitional or other supplemental or incidental provisions as appear to the Secretary of State expedient.

2.—(1) The Secretary of State shall cause to be maintained standards of the yard, pound, metre and kilogram which shall be the standards (in this Act referred to as “United Kingdom primary standards”) by reference to which, in the United Kingdom, all other standards of those units and of any other unit of measurement derived wholly or partly from any of those units shall be maintained.

(2) The Secretary of State shall from time to time as may appear to him expedient cause—

(a) the value of each of the United Kingdom primary standards to be determined or redetermined, and
(b) any authorised copy of any of those standards to be compared with, and its value determined or redetermined by reference to, that standard,

in such manner as he may direct.

(3) The United Kingdom primary standards shall be—

3.—(1) The Secretary of State shall maintain secondary, tertiary and coinage standards in accordance with the provisions of this section, which shall be known collectively as the Department of Trade and Industry standards.

(2) The secondary standards shall consist of standards of all the measures set out in Parts I and IV and all weights set out in Part V of Schedule 3 to this Act other than capacity measures of more than one gallon or ten litres; and any such standard shall be constructed and, while it remains in use, from time to time at intervals not exceeding five years have its value or values redetermined, by reference to such one or more of the United Kingdom primary standards or any authorised copies of those standards as may appear to the Secretary of State to be appropriate.

(3) The tertiary standards shall consist of such standards of such of the measures or weights set out in Parts I, IV and V of Schedule 3 to this Act as may from time to time appear to the Secretary of State to be necessary or expedient; and any such standard shall be constructed and, while it remains in use, from time to time at intervals not exceeding two years have its value or values redetermined, by reference to such one or more of the secondary standards as may appear to the Secretary of State to be appropriate.

(4) The coinage standards shall consist of such standards of the weight of each coin of the realm for the time being authorised by or under the enactments relating to the coinage as may from time to time appear to the Secretary of State to be necessary or expedient; and any such standard shall be constructed and, while it remains in use, from time to time at intervals not exceeding two years have its value redetermined, by reference to such one or more of the secondary standards as may appear to the Secretary of State to be appropriate.

(5) Department of Trade and Industry standards shall be provided or replaced by the Secretary of State from time to time as may appear to him necessary or expedient and shall be in such form and of such material, and be kept under his control at such place or places, as he may think fit.

(6) A secondary or tertiary standard of any linear or capacity measure may—

(a) be provided either as a separate standard or by means
Weights and Measures Act 1985

PART I

Local standards.

4.—(1) There shall be maintained by each local weights and measures authority such standards (in this Act referred to as "local standards") of such of the measures and weights set out in Schedule 3 to this Act as the Secretary of State may from time to time approve or require in the case of that authority as being proper and sufficient for the purposes of this Act.

(2) Local standards—

(a) shall be provided and replaced by the local weights and measures authority from time to time as may appear to the authority to be necessary or expedient or as the Secretary of State may require,

(b) shall be of material and form approved by the Secretary of State,

(c) shall be kept in such manner and under such conditions as the Secretary of State may direct at premises provided by the authority, and

(d) shall not be used elsewhere than at those premises or at other premises which appear to the authority to be appropriate.

(3) A local standard of any linear or capacity measure—

(a) shall be provided either as a separate standard or by means of divisions marked on a standard of a larger measure, and

(b) shall either be marked in whole or in part with subdivisions representing any smaller unit of measurement or multiples or fractions of such a unit or have no such markings,

as the Secretary of State may from time to time direct.

(4) No article shall be used as a local standard unless there is for the time being in force a certificate of its fitness for the purpose issued by the Secretary of State.

(5) The Secretary of State shall cause any article submitted to him for certification under this section to be compared with such one or more of the tertiary standards as may appear to him to be appropriate and, if it falls within the prescribed limits of error and satisfies any other requirements of the Secretary
of State, shall issue a certificate of its fitness for use as a local standard which, if the authority so request, shall include a statement of the amount of any error in it.

(6) Subject to paragraph 9 of Schedule 11 to this Act, a certificate issued under subsection (5) above shall cease to be in force at the end of the prescribed period.

(7) The Secretary of State shall keep a record of all certificates issued under subsection (5) above.

(8) Any comparison of an article with the tertiary standards in pursuance of subsection (5) above shall be carried out—

(a) if the article is not for the time being a local standard, at such place as the Secretary of State may direct; or

(b) if the article is for the time being a local standard, at the premises where it is kept or at other premises approved in that behalf by the Secretary of State.

(9) The Secretary of State may charge on any occasion on which an article is submitted to him for certification under this section such fee as he may from time to time with the approval of the Treasury determine.

5.—(1) Subject to subsection (3) below, each local weights and measures authority shall provide for use by the inspectors appointed for the authority's area, and maintain or from time to time replace—

(a) such standards (in this Act referred to as “working standards”) of such of the measures and weights set out in Schedule 3 to this Act,

(b) such testing equipment, and

(c) such stamping equipment,
as are proper and sufficient for the efficient discharge by those inspectors of their functions in the authority's area.

(2) An authority may—

(a) provide a particular working standard or item of equipment as required by subsection (1) above by making arrangements with another person for the standard or item to be made available by him, and

(b) make arrangements with another person for standards or equipment provided by the authority under subsection (1) above, except stamping equipment, to be made available to the other person.

(3) If a local weights and measures authority are of opinion—

(a) that any particular description of testing equipment is
Part I

proper and sufficient for the efficient discharge of the functions of the inspectors appointed for the authority's area, but

(b) that, having regard to the expenditure involved and the frequency with which such equipment is likely to be used by those inspectors, it would not be reasonable for the authority to provide and maintain such equipment, the authority may request the Secretary of State to provide and maintain such equipment and to make it available for hire to the authority.

(4) The terms of hire of equipment under subsection (3) above shall be such as the Secretary of State may determine.

(5) Working standards and testing and stamping equipment provided under subsection (1) above shall be of material and form approved by the Secretary of State.

(6) Except so far as may be necessary for the purposes of their use elsewhere, such working standards and testing and stamping equipment shall be kept, subject to subsection (7) below, at premises provided by the local weights and measures authority.

(7) Subsection (6) above shall not apply to things which are the subject of arrangements under subsection (2)(a) above.

(8) A working standard of a linear or capacity measure—

(a) shall be provided either as a separate standard or by means of divisions marked on a standard of a larger measure, and

(b) shall either be marked in whole or in part with subdivisions representing any smaller unit of measurement or multiples or fractions of such a unit or have no such markings,

as the Secretary of State may from time to time direct.

(9) The Secretary of State shall by regulations make provision—

(a) for working standards to be from time to time tested by comparison with, and if necessary adjusted to within such limits of error as may be specified in the regulations by reference to, the local standards or other working standards more recently tested, and

(b) with respect to the testing, adjustment and limits of error of testing equipment provided under subsection (1) above.

(10) No article shall be used by an inspector as a working standard or as testing equipment provided under subsection (1)
above unless the relevant requirements of regulations under subsection (9) above are for the time being satisfied with respect to it.

(11) Nothing in subsection (2) above prejudices the operation of—

(a) the Local Authorities (Goods and Services) Act 1970,

(b) section 101 of the Local Government Act 1972, or

(c) section 56 of the Local Government (Scotland) Act 1973,

(which among other things enable a local authority to arrange for the provision of goods or services and the discharge of its functions by another local authority).

6.—(1) The Secretary of State may, if he thinks fit, on the application of any government or person, accept for testing as to accuracy or compliance with any specification and for report—

(a) any article used or proposed to be used as a standard of a unit of measurement of mass, length, capacity, area or volume, or as a standard of the weight of any coin,

(b) any weighing or measuring equipment,

(c) any other metrological equipment, and

(d) any article for use in connection with equipment mentioned in paragraph (b) or (c) above,

submitted by that government or person for the purpose at such place as the Secretary of State may direct.

PART II

(b) the use is for the purpose of the determination or statement of that quantity.

(2) A transaction falls within this subsection if it is a transaction for—

(a) the transferring or rendering of money or money’s worth in consideration of money or money’s worth, or
(b) the making of a payment in respect of any toll or duty.

(3) Use for trade does not include use in a case where—

(b) the transaction is not a sale by retail, and
(c) no transfer or rendering of money or money’s worth is involved other than the passing of the title to the goods and the consideration for them.

(4) The following equipment, that is to say—

(a) any weighing or measuring equipment which is made available in Great Britain for use by the public, whether on payment or otherwise, and
(b) any equipment which is used in Great Britain for the grading by reference to their weight, for the purposes of trading transactions by reference to that grading, of hens’ eggs in shell which are intended for human consumption,

shall be treated for the purposes of this Part of this Act as weighing or measuring equipment in use for trade, whether or not it would apart from this subsection be so treated.

(5) Where any weighing or measuring equipment is found in the possession of any person carrying on trade or on any premises which are used for trade, that person or, as the case may be, the occupier of those premises shall be deemed for the purposes of this Act, unless the contrary is proved, to have that equipment in his possession for use for trade.

8.—(1) No person shall—

(a) use for trade any unit of measurement which is not included in Parts I to V of Schedule 1 to this Act, or
(b) use for trade, or have in his possession for use for trade, any linear, square, cubic or capacity measure which is not included in Schedule 3 to this Act, or any weight which is not so included.
(2) No person shall use for trade—
(a) the ounce troy, except for the purposes of transactions in, or in articles made from, gold, silver or other precious metals, including transactions in gold or silver thread, lace or fringe, or
(b) the carat (metric), except for the purposes of transactions in precious stones or pearls, or

(4) A person who contravenes subsection (1) or (2) above shall be guilty of an offence, and any measure or weight used, or in any person's possession for use, in contravention of that subsection shall be liable to be forfeited.

(5) The preceding provisions of this section have effect subject to—
(a) sections 9 and 89 below, and
(b) regulation 9 of the Units of Measurement Regulations S.I. 1980/1070, 1980 (which authorises the use for trade of supplementary indications).

(6) The Secretary of State may by order—
(a) amend Schedule 3 to this Act by adding to or removing from it any linear, square, cubic or capacity measure, or any weight;

(8) In this section "unit of measurement" means a unit of measurement of length, area, volume, capacity, mass or weight.

9.—(1) The Secretary of State may make regulations—
(a) requiring or authorising a person who uses a metric unit for trade to afford, for explanatory purposes, information giving the equivalent in the imperial system of the relevant quantity in the metric system, and
(b) specifying the manner in which the information is to be given, and in particular specifying the cases in which
any obligation to give information in metric units is to be extended to include the same information in imperial units.

(2) The Secretary of State may make regulations requiring or authorising the display on premises where metric units are used for trade of conversion tables or other material for converting metric units into imperial units.

(3) Regulations under this section—

(a) may prescribe the form and manner in which any information or other material is to be given or displayed,

(b) may prescribe appropriate conversion factors by reference to which, in prescribed cases or circumstances, an amount expressed in imperial units is to be treated as equivalent to a given amount expressed in metric units,

(c) may prescribe the persons to whom, and the cases and circumstances in which, the regulations apply and may make different provision for different persons, cases or circumstances,

(d) may contain such consequential, incidental or supplementary provisions as appear to the Secretary of State to be expedient.

(4) A person contravening regulations made under this section shall be guilty of an offence.

(5) In this section “unit” in the expressions “metric unit” and “imperial unit” means any unit of measurement of length, area, volume, capacity, mass or weight.

(6) Regulations under this section imposing obligations apply whether or not the relevant imperial unit may lawfully be used for trade, and regulations authorising, but not requiring, anything to be done authorise it to be done notwithstanding that the relevant imperial unit may not be lawfully used for trade, but do not in any other respect authorise what is unlawful.

10.—(1) Except as may be prescribed, and subject to any regulations made under section 15 below,—

(a) a linear measure specified in Part I of Schedule 3 to this Act may be marked in whole or in part with divisions and sub-divisions representing any shorter length or lengths; but

(b) no capacity measure specified in Part IV of that Schedule shall be used for trade by means of any division or sub-division marked on it as a capacity measure of any lesser quantity.
(2) Any person who contravenes paragraph (b) of subsection (1) above shall be guilty of an offence, and any measure used, or in any person's possession for use, in contravention of that paragraph, shall be liable to be forfeited.

(3) The Secretary of State may by regulations prescribe what may be treated for the purposes of use for trade as the equivalent of, or of any multiple or fraction of, any unit of measurement included in Schedule 1 to this Act in terms of any other such unit.

(4) Nothing in any regulations under subsection (3) above shall apply to any transaction in drugs.

(5) The Secretaries of State respectively concerned with health in England, in Wales and in Scotland acting jointly may by regulations, which shall have effect notwithstanding anything in, or in any instrument made under, any other enactment—

(a) prescribe what may be treated for the purposes of dealings with drugs as the equivalent of, or of any multiple or fraction of, any unit of measurement which—

(i) is included in Schedule 1 to this Act, or

(ii) was included in Schedule 1 to the Weights and Measures Act 1963 on 31st January 1964 (the date of the commencement of section 10 of that Act),

in terms of any other such unit; and

(b) require that any person carrying out any such dealing with drugs as is specified in the regulations for the purposes of which the quantity of the drugs is expressed in terms of any such unit which is so specified shall carry out that dealing in terms of such equivalent quantity prescribed under paragraph (a) above as is so specified.

Weighing or measuring equipment for use for trade

11.—(1) The provisions of this section shall apply to the use for trade of weighing or measuring equipment of such classes or descriptions as may be prescribed.

(2) No person shall use any article for trade as equipment to which this section applies, or have any article in his possession for such use, unless that article, or equipment to which this section applies in which that article is incorporated or to the operation of which the use of that article is incidental,—

(a) has been passed by an inspector as fit for such use, and

(b) except as otherwise expressly provided by or under this Act, bears a stamp indicating that it has been so passed
(3) If any person contravenes subsection (2) above, he shall be guilty of an offence and any article in respect of which the offence was committed shall be liable to be forfeited.

(4) Any person requiring any equipment to which this section applies to be passed as fit for use for trade shall submit the equipment, in such manner as the local weights and measures authority may direct, to an inspector who (subject to the provisions of this Act and of any regulations under section 15 below) shall—

(a) test the equipment by means of such local or working standards and testing equipment as he considers appropriate or, subject to any conditions which may be prescribed, by means of other equipment which has already been tested and which the inspector considers suitable for the purpose,

(b) if the equipment submitted falls within the prescribed limits of error and by virtue of subsection (10) below is not required to be stamped as mentioned in paragraph (c) of this subsection, give to the person submitting it a statement in writing to the effect that it is passed as fit for use for trade, and

(c) except as otherwise expressly provided by or under this Act, cause it to be stamped with the prescribed stamp.

(5) There shall be charged in respect of any test carried out under subsection (4) above such reasonable fees as the local weights and measures authority may determine.

(6) An inspector shall keep a record of every test carried out by him under subsection (4) above.

(7) Except as otherwise expressly provided by or under this Act, no weight or measure shall be stamped as mentioned in subsection (4)(c) above unless it has been marked in the prescribed manner with its purported value.

(8) Subject to subsection (9) below, where any equipment submitted to an inspector under subsection (4) above is of a pattern in respect of which a certificate of approval granted under section 12 below is for the time being in force, the inspector shall not refuse to pass or stamp the equipment on the ground that it is not suitable for use for trade.

(9) If the inspector is of opinion that the equipment is intended for use for trade for a particular purpose for which it is not suitable, he may refuse to pass or stamp it until the matter has been referred to the Secretary of State, whose decision shall be final.
(10) The requirements of subsections (2), (4) and (7) above with respect to stamping and marking shall not apply to any weight or measure which is too small to be stamped or marked in accordance with those requirements.

(11) Where a person submits equipment to an inspector under this section, the inspector may require the person to provide the inspector with such assistance in connection with the testing of the equipment as the inspector reasonably considers it necessary for the person to provide and shall not be obliged to proceed with the test until the person provides it; but a failure to provide the assistance shall not constitute an offence under section 81 below.

(12) If an inspector refuses to pass as fit for use for trade any equipment submitted to him under this section and is requested by the person by whom the equipment was submitted to give reasons for the refusal, the inspector shall give to that person a statement of those reasons in writing.

(13) In the case of any equipment which is required by regulations made under section 15 below to be passed and stamped under this section only after it has been installed at the place where it is to be used for trade, if after the equipment has been so passed and stamped it is dismantled and reinstalled, whether in the same or some other place, it shall not be used for trade after being so reinstalled until it has again been passed under this section.

(14) If any person—

(a) knowingly uses any equipment in contravention of sub-section (13) above, or

(b) knowingly causes or permits any other person so to use it, or

(c) knowing that the equipment is required by virtue of subsection (13) above to be again passed under this section, disposes of it to some other person without informing him of that requirement,

he shall be guilty of an offence and the equipment shall be liable to be forfeited.

(15) Subject to subsection (13) above, a stamp applied to any equipment under this section shall have the like validity throughout Great Britain as it has in the place in which it was originally applied, and accordingly that equipment shall not be required to be re-stamped because it is used in any other place.

(16) If at any time the Secretary of State is satisfied that, having regard to the law for the time being in force in Northern Ireland, any of the Channel Islands or the Isle of Man, it is
proceed so to do, he may by order provide for any equipment to which this section applies duly stamped in accordance with that law, or treated for the purposes of that law as if duly stamped in accordance with it, to be treated for the purposes of this Act as if it had been duly stamped in Great Britain under this section.

12.—(1) Where any pattern of weighing or measuring equipment is submitted by any person to the Secretary of State for the purpose in such manner as may be prescribed, the Secretary of State shall examine in such manner as he thinks fit the suitability for use for trade of equipment of that pattern, having regard in particular to the principle, materials and methods used or proposed to be used in its construction, and—

(a) may require the person to provide such assistance as the Secretary of State thinks fit in connection with the examination (and shall not be obliged to proceed with the examination until the person provides it), and

(b) may require the person to pay in respect of the examination a fee of an amount ascertained in such manner as the Secretary of State may determine with the approval of the Treasury.

(2) Subsection (1) above applies to a pattern consisting of an approved pattern with modifications as it applies to other patterns, and in this subsection “approved pattern” means a pattern in respect of which a certificate of approval under this section is in force.

(3) If the Secretary of State is satisfied that any equipment in respect of which a pattern is submitted to him under subsection (1) above is suitable for use for trade, then, subject to subsection (4) and section 14(2) below, he shall issue a certificate of approval of that pattern (in this section referred to as “a certificate of approval”) and shall cause particulars of the pattern to be published.

(4) Where the Secretary of State is satisfied as mentioned in subsection (3) above, he may require the person submitting the pattern of equipment to deposit with the Secretary of State parts of equipment of that pattern or a model or drawings of such equipment or parts of it and may withhold a certificate of approval of that pattern or, as the case may be, a declaration in pursuance of section 14(2) below in respect of the pattern, until the person complies with the requirement.

(5) A certificate of approval may be granted subject to such conditions as the Secretary of State thinks fit.
(6) Without prejudice to the generality of subsection (5) above, a certificate of approval may be granted subject to a condition under which it ceases to be in force at the end of a specified period of less than ten years.

(7) Subject to any condition imposed under subsection (6) above, a certificate of approval, unless previously revoked, shall cease to be in force at the end of the period of ten years beginning with the date when it was granted.

(8) A certificate of approval may be renewed by the Secretary of State on an application made in such manner and during such period as may be prescribed and on payment, except in such cases as the Secretary of State may determine, of a fee of an amount ascertained in such manner as the Secretary of State may determine with the approval of the Treasury; and subsections (5) to (7) above apply in relation to the renewal of a certificate of approval as they apply in relation to the grant of such a certificate.

(9) Where application has been made to the Secretary of State in accordance with subsection (8) above for the renewal of a certificate of approval, the certificate shall remain in force until the Secretary of State gives to the applicant, in such manner as may be prescribed, notice of the Secretary of State's decision with respect to the application.

(10) The Secretary of State, after consultation with such persons appearing to him to be interested as he thinks fit, may at any time revoke any certificate of approval (including a certificate remaining in force by virtue of subsection (9) above) and shall cause notice of any such revocation to be published.

(11) Where a certificate of approval—

(a) expires (whether at the end of a period or by virtue of a notice under subsection (9) above), or

(b) is revoked in a case where the notice of revocation published under subsection (10) above states that this subsection and section 130 below are to apply with respect to the revocation,

the certificate shall remain in force in relation to any equipment of the pattern in question which was used for trade at a time when the certificate was in force otherwise than by virtue of this subsection; and the power of revocation under subsection (10) above includes power to revoke a certificate remaining in force by virtue of this subsection.

(12) Any equipment of a pattern in respect of which a certificate of approval has been granted may, and in such cases as may be prescribed shall, be marked in the prescribed manner so as to identify it with the pattern in question.
13.—(1) Where one or more conditions are imposed by the Secretary of State on the grant or renewal of a certificate of approval, then if any person—

(a) knowing that a condition, other than such a condition as is mentioned in section 12(6) above, has been imposed with respect to any equipment, uses, or causes or permits any other person to use, that equipment in contravention of that condition, or

(b) knowing that any condition has been imposed with respect to any equipment, disposes of that equipment to any other person in a state in which it could be used for trade without informing that other person of that condition,

he shall be guilty of an offence and the equipment shall be liable to be forfeited.

(2) Where a certificate of approval in respect of any pattern of equipment—

(a) expires (whether at the end of a period or by virtue of a notice under section 12(9) above), or

(b) is revoked in a case falling within section 12(11)(b) above,

then if any person, knowing that the certificate has expired or has been so revoked, supplies to another person any equipment of the pattern in question which is marked with a stamp and which was not used for trade at a time when the certificate was in force otherwise than by virtue of section 12(11) above, he shall be guilty of an offence and the equipment supplied shall be liable to be forfeited.

(3) Where a certificate of approval in respect of any pattern of equipment is revoked in a case not falling within section 12(11)(b) above, then if any person, knowing that the certificate has been so revoked (and except as may be permitted by any fresh certificate granted in respect of that pattern)—

(a) uses for trade, or has in his possession for such use, any equipment of that pattern,  

(b) causes or permits any other person to use any such equipment for trade, or

(c) disposes of any such equipment to any such person in a state in which it could be used for trade without informing that other person of the revocation,

he shall be guilty of an offence and the equipment shall be liable to be forfeited.

(4) In this section "certificate of approval" means a certificate of approval of a pattern of weighing or measuring equipment.
granted under section 12 above; and subsections (1) and (3) above have effect in relation to a certificate of approval remaining in force by virtue of subsection (9) or (11) of section 12 above as they have effect in relation to other certificates of approval.

14.—(1) The Secretary of State may by regulations prescribe general specifications for the construction of equipment to which section 11 above applies and, subject to subsection (4) below, while any such specification is for the time being so prescribed no equipment which does not conform with it shall be passed or stamped by an inspector under that section unless it is of a pattern in respect of which a certificate of approval under section 12 above is in force.

(2) If the Secretary of State is satisfied that any pattern submitted to him under section 12(1) above conforms with any general specification for the time being prescribed under this section he may, instead of issuing a certificate of approval under that section, cause to be published a declaration to that effect together with particulars of that pattern.

(3) Where a specification prescribed by regulations under this section is varied or revoked by further regulations under this section, then if any person—

(a) uses for trade any equipment which conformed with that specification but which to his knowledge no longer conforms with any specification prescribed by regulations under this section,

(b) has any such equipment in his possession for use for trade,

(c) causes or permits any other person to use any such equipment for trade, or

(d) disposes of any such equipment to any other person in a state in which it could be used for trade without informing that other person that it no longer conforms with any specification prescribed by regulations under this section,

he shall be guilty of an offence and the equipment shall be liable to be forfeited.

(4) Where, in the case of any particular equipment, the Secretary of State is of opinion that there are special circumstances which make it impracticable or unnecessary for that equipment to comply with any particular requirement of any specification prescribed under this section, the Secretary of State may exempt that equipment from that requirement subject to compliance with such conditions, if any, as he thinks fit.
PART II

(5) If any person knowingly contravenes any condition imposed with respect to any equipment by virtue of subsection (4) above, he shall be guilty of an offence and the equipment shall be liable to be forfeited.

(6) If any difference arises between an inspector and any other person as to the interpretation of any specification prescribed under this section, or as to whether or not any equipment conforms with such a specification, that difference may with the consent of that other person, and shall at the request of that other person, be referred to the Secretary of State, whose decision shall be final.

(4) If any difference arises between an inspector and any other person as to the interpretation of any regulations made under this section or as to the method of testing any weighing or measuring equipment, that difference may with the consent of that other person, and shall at the request of that other person, be referred to the Secretary of State, whose decision shall be final.

PART IV

(b) a lesser quantity than corresponds with the price charged,
shall be guilty of an offence.

(2) For the purposes of this section—

(a) the quantity of the goods in a regulated package (as defined by section 68(1) below) shall be deemed to be the nominal quantity (as so defined) on the package, and

(b) any statement, whether oral or in writing, as to the weight of any goods shall be taken, unless otherwise expressed, to be a statement as to the net weight of the goods.

(3) Nothing in this section shall apply in relation to any such goods or sales as are mentioned in section 24(2)(a) or (b) above.

29.—(1) Subject to sections 33 to 37 below, any person who—

(a) on or in connection with the sale or purchase of any goods,

(c) in purporting to make known to the buyer the quantity of any goods sold, or

(d) in offering to purchase any goods,

makes any misrepresentation whether oral or otherwise as to the quantity of the goods, or does any other act calculated to mislead a person buying or selling the goods as to the quantity of the goods, shall be guilty of an offence.

(2) Subsection (2) of section 28 above shall have effect for the purposes of this section as it has effect for the purposes of that section.

(3) Nothing in this section shall apply in relation to any such goods or sales as are mentioned in section 24(2)(a) or (b) above.

30.—(1) If, in the case of any goods pre-packed in or on a container marked with a statement in writing with respect to the quantity of the goods, the quantity of the goods is at any time found to be less than that stated, then, subject to sections 33 to 37 below—

(a) any person who has those goods in his possession for sale shall be guilty of an offence, and

(b) if it is shown that the deficiency cannot be accounted for by anything occurring after the goods had been sold by retail and delivered to, or to a person nominated in
that behalf by, the buyer, any person by whom or on whose behalf those goods have been sold or agreed to be sold at any time while they were pre-packed in or on the container in question, shall be guilty of an offence.

(2) If—

(a) in the case of a sale of or agreement to sell any goods which, not being pre-packed, are made up for sale or for delivery after sale in or on a container marked with a statement in writing with respect to the quantity of the goods, or

(b) in the case of any goods which, in connection with their sale or an agreement for their sale, have associated with them a document containing such a statement,

the quantity of the goods is at any time found to be less than that stated, then, if it is shown that the deficiency cannot be accounted for by anything occurring after the goods had been delivered to, or to a person nominated in that behalf by, the buyer, and subject to sections 33 to 37 below and paragraph 10 of Schedule 4 to this Act, the person by whom, and any other person on whose behalf, the goods were sold or agreed to be sold shall be guilty of an offence.

(3) Subsections (1) and (2) above shall have effect notwithstanding that the quantity stated is expressed to be the quantity of the goods at a specified time falling before the time in question, or is expressed with some other qualification of whatever description, except where—

(a) that quantity is so expressed in pursuance of an express requirement of this Part of this Act or any instrument made under this Part, or

(b) the goods, although falling within subsection (1) or subsection (2)(a) above—

(i) are not required by or under this Part of this Act to be pre-packed as mentioned in subsection (1) or, as the case may be, to be made up for sale or for delivery after sale in or on a container only if the container is marked as mentioned in subsection (2)(a), and

(ii) are not goods on a sale of which (whether any sale or a sale of any particular description) the quantity sold is required by or under any provision of this Part of this Act other than section 26, to be made known to the buyer at or before a particular time, or
PART IV

(c) the goods, although falling within subsection (2)(b) above, are not required by or under this Part of this Act to have associated with them such a document as is mentioned in that provision.

(4) In any case to which, by virtue of paragraph (a), (b) or (c) of subsection (3) above, the provisions of subsection (1) or (2) above do not apply, if it is found at any time that the quantity of the goods in question is less than that stated and it is shown that the deficiency is greater than can be reasonably justified on the ground justifying the qualification in question, then, subject to sections 33 to 37 below—

(a) in the case of goods such as are mentioned in subsection (1) above, if it is further shown as mentioned in that subsection, then—

(i) where the container in question was marked in Great Britain, the person by whom, and any other person on whose behalf, the container was marked, or

(ii) where the container in question was marked outside Great Britain, the person by whom, and any other person on whose behalf, the goods were first sold in Great Britain, shall be guilty of an offence;

(b) in the case of goods such as are mentioned in subsection (2) above, the person by whom, and any other person on whose behalf, the goods were sold or agreed to be sold shall be guilty of an offence if, but only if, he would, but for paragraph (a), (b) or (c) of subsection (3) above have been guilty of an offence under subsection (2).

(5) Subsection (2) of section 28 above shall have effect for the purposes of this section as it has effect for the purposes of that section.

(6) Nothing in this section shall apply in relation to any such goods or sales as are mentioned in section 24(2)(a) or (b) above.

31.—(1) Without prejudice to section 30(2) to (4) above, if in the case of any goods required by or under this Part of this Act to have associated with them a document containing particular statements, that document is found to contain any such statement which is materially incorrect, any person who, knowing or having reasonable cause to suspect that statement to be materially incorrect, inserted it or caused it to be inserted in the document, or used the document for the purposes of this Part of this Act while that statement was contained in the document, shall be guilty of an offence.
(2) Subsection (2) of section 28 above shall have effect for the purposes of this section as it has effect for the purposes of that section.

(3) Nothing in this section shall apply in relation to any such goods or sales as are mentioned in section 24(2)(a) or (b) above.

32. Where the commission by any person of an offence under this Part of this Act or an instrument made under this Part is due to the act or default of some other person, the other person shall be guilty of an offence and may be charged with and convicted of the offence whether or not proceedings are taken against the first-mentioned person.

Defences

33.—(1) Subject to the following provisions of this section, in any proceedings for an offence under this Part of this Act or any instrument made under this Part, being an offence relating to the quantity or pre-packing of any goods, it shall be a defence for the person charged to prove—

(a) that he bought the goods from some other person—
   (i) as being of the quantity which the person charged purported to sell or represented, or which was marked on any container or stated in any document to which the proceedings relate, or
   (ii) as conforming with the statement marked on any container to which the proceedings relate, or with the requirements with respect to the pre-packing of goods of this Part of this Act or any instrument made under this Part, as the case may require, and

(b) that he so bought the goods with a written warranty from that other person that they were of that quantity or, as the case may be, did so conform, and

(c) that at the time of the commission of the offence he did in fact believe the statement contained in the warranty to be accurate and had no reason to believe it to be inaccurate, and

(d) if the warranty was given by a person who at the time he gave it was resident outside Great Britain and any designated country, that the person charged had taken reasonable steps to check the accuracy of the statement contained in the warranty, and

(e) in the case of proceedings relating to the quantity of any goods, that he took all reasonable steps to ensure that, while in his possession, the quantity of the goods...
remained unchanged and, in the case of such or any other proceedings, that apart from any change in their quantity the goods were at the time of the commission of the offence in the same state as when he bought them.

(2) A warranty shall not be a defence in any such proceedings as are mentioned in subsection (1) above unless, not later than three days before the date of the hearing, the person charged has sent to the prosecutor a copy of the warranty with a notice stating that he intends to rely on it and specifying the name and address of the person from whom the warranty was received, and has also sent a like notice to that person.

(3) Where the person charged is the employee of a person who, if he had been charged, would have been entitled to plead a warranty as a defence under this section, subsection (1) above shall have effect—

(a) with the substitution, for any reference (however expressed) in paragraphs (a), (b), (d) and (e) to the person charged, of a reference to his employer, and

(b) with the substitution for paragraph (c) of the following—

"(c) that at the time of the commission of the offence his employer did in fact believe the statement contained in the warranty to be accurate and the person charged had no reason to believe it to be inaccurate,"

(4) The person by whom the warranty is alleged to have been given shall be entitled to appear at the hearing and to give evidence.

(5) If the person charged in any such proceedings as are mentioned in subsection (1) above wilfully attributes to any goods a warranty given in relation to any other goods, he shall be guilty of an offence.

(6) A person who, in respect of any goods sold by him in respect of which a warranty might be pleaded under this section, gives to the buyer a false warranty in writing shall be guilty of an offence unless he proves that when he gave the warranty he took all reasonable steps to ensure that the statements contained in it were, and would continue at all relevant times to be, accurate.

(7) Where in any such proceedings as are mentioned in subsection (1) above ("the original proceedings ") the person charged relies successfully on a warranty given to him or to his employer, any proceedings under subsection (6) above in respect of the warranty may, at the option of the prosecutor, be taken
either before a court having jurisdiction in the place where the original proceedings were taken or before a court having jurisdiction in the place where the warranty was given.

(8) For the purposes of this section, any statement with respect to any goods which is contained in any document required by or under this Part of this Act to be associated with the goods or in any invoice, and, in the case of goods made up in or on a container for sale or for delivery after sale, any statement with respect to those goods with which that container is marked, shall be taken to be a written warranty of the accuracy of that statement.

34.—(1) In any proceedings for an offence under this Part of this Act or any instrument made under this Part, it shall be a defence for the person charged to prove that he took all reasonable precautions and exercised all due diligence to avoid the commission of the offence.

(2) If in any case the defence provided by subsection (1) above involves an allegation that the commission of the offence in question was due to the act or default of another person or due to reliance on information supplied by another person, the person charged shall not, without the leave of the court, be entitled to rely on the defence unless, before the beginning of the period of seven days ending with the date when the hearing of the charge began, he served on the prosecutor a notice giving such information identifying or assisting in the identification of the other person as was then in his possession.

35.—(1) This subsection applies to any proceedings for an subsequent deficiency under this Part of this Act, or any instrument made under this Part, by reason of the quantity—

(a) of any goods made up for sale or for delivery after sale (whether by way of pre-packing or otherwise) in or on a container marked with an indication of quantity,

(b) of any goods which, in connection with their sale or an agreement for their sale, have associated with them a document purporting to state the quantity of the goods, or

(c) of any goods required by or under this Part of this Act to be pre-packed, or to be otherwise made up in or on a container for sale or for delivery after sale, or to be made for sale, only in particular quantities, being less than that marked on the container or stated in the document in question or than the relevant particular quantity, as the case may be.
PART IV

(2) In any proceedings to which subsection (1) above applies, it shall be a defence for the person charged to prove that the deficiency arose—

(a) in a case falling within paragraph (a) of subsection (1) above, after the making up of the goods and the marking of the container,

(b) in a case falling within paragraph (b) of that subsection, after the preparation of the goods for delivery in pursuance of the sale or agreement and after the completion of the document,

(c) in a case falling within paragraph (c) of that subsection, after the making up or making, as the case may be, of the goods for sale,

and was attributable wholly to factors for which reasonable allowance was made in stating the quantity of the goods in the marking or document or in making up or making the goods for sale, as the case may be.

(3) In the case of a sale by retail of food, other than food pre-packed in a container which is, or is required by or under this Part of this Act to be, marked with an indication of quantity, in any proceedings for an offence under this Part of this Act or any instrument made under this Part, by reason of the quantity delivered to the buyer being less than that purported to be sold, it shall be a defence for the person charged to prove that the deficiency was due wholly to unavoidable evaporation or drainage since the sale and that due care and precaution were taken to minimise any such evaporation or drainage.

(4) If in any proceedings for an offence under this Part of this Act or any instrument made under this Part, being an offence in respect of any deficiency in the quantity of any goods sold, it is shown that between the sale and the discovery of the deficiency the goods were with the consent of the buyer subjected to treatment which could result in a reduction in the quantity of those goods for delivery to, or to any person nominated in that behalf by, the buyer, the person charged shall not be found guilty of that offence unless it is shown that the deficiency cannot be accounted for by the subjecting of the goods to that treatment.

36. In any proceedings for an offence under this Part of this Act or any instrument made under this Part, being an offence in respect of any excess in the quantity of any goods, it shall be a defence for the person charged to prove that the excess was attributable to the taking of measures reasonably necessary in order to avoid the commission of an offence in respect of a deficiency in those or other goods.
37.—(1) If proceedings for an offence under this Part of this Act, or any instrument made under this Part, in respect of any deficiencies or excess in the quantity—

(a) of any goods made up for sale (whether by way of pre-packing or otherwise) in or on a container marked with an indication of quantity, or

(b) of any goods which have been pre-packed or otherwise made up in or on a container for sale or for delivery after sale, or which have been made for sale, and which are required by or under this Part of this Act to be prepacked, or to be otherwise so made up, or to be so made, as the case may be, only in particular quantities,

are brought with respect to any article, and it is proved that, at the time and place at which that article was tested, other articles of the same kind, being articles which, or articles containing goods which, had been sold by the person charged or were in that person’s possession for sale or for delivery after sale, were available for testing, the person charged shall not be convicted of such an offence with respect to that article unless a reasonable number of those other articles was also tested.

(2) In any proceedings for such an offence as is mentioned in subsection (1) above, the court—

(a) if the proceedings are with respect to one or more of a number of articles tested on the same occasion, shall have regard to the average quantity in all the articles tested,

(b) if the proceedings are with respect to a single article, shall disregard any inconsiderable deficiency or excess, and

(c) shall have regard generally to all the circumstances of the case.

(3) Subsections (1) and (2) above shall apply with the necessary modifications to proceedings for an offence in respect of the size, capacity or contents of a container as they apply to proceedings for an offence in respect of the excess or deficiency in the quantity of certain goods.

(4) Where by virtue of section 32 above a person is charged with an offence with which some other person might have been charged, the reference in subsection (1) above to articles or goods sold by or in the possession of the person charged shall be construed as a reference to articles or goods sold by or in the possession of that other person.
PART IV
Special powers of inspectors with respect to certain goods.

Powers of inspectors

38.—(1) Subsection (2) below applies where any person—

(a) makes in any manner any representation as to the quantity of any goods offered or exposed for sale by him, or

(b) has in his possession or charge awaiting or in the course of delivery to the buyer any goods which have been sold or agreed to be sold, and the sale is, or purports to be, or is required by or under this Part of this Act to be, by quantity expressed in a particular manner, or is such that the quantity of the goods sold is required by or under any provision of this Part other than section 26 to be made known to the buyer at or before a particular time, or

(c) has in his possession or charge for sale, or awaiting or in the course of delivery to a buyer after they have been sold or agreed to be sold—

(i) any goods pre-packed or otherwise made up in or on a container for sale or for delivery after sale which are required by or under this Part of this Act to be pre-packed, or to be otherwise so made up, as the case may be, only in particular quantities or only if the container is marked with particular information, or

(ii) any goods pre-packed in or on a container marked with an indication of quantity, or

(iii) any goods required by or under this Part of this Act to be made for sale only in particular quantities, or

(d) has in his possession or charge for sale, or awaiting or in the course of delivery to a buyer after they have been sold or agreed to be sold, any goods subject to a requirement imposed by virtue of section 22(1)(c) above.

(2) Where this subsection applies, the powers of an inspector under section 79 below shall, subject to subsection (4) below, include power to require the person referred to in subsection (1) above either to do in the presence of the inspector, or to permit the inspector to do, all or any of the following things, that is to say—

(a) weigh or otherwise measure or count the goods,

(b) weigh or otherwise measure any container in or on which the goods are made up,

(c) in the case of goods within subsection (1)(d) above, do anything else as respects the goods or container which is reasonably necessary to ascertain whether the
requirement there mentioned is complied with, and which does not damage or depreciate the goods or container,

(d) if necessary for any of the purposes of paragraphs (a) to (c) above, break open any container of goods, or open any vending machine in which goods are offered or exposed for sale,

and, in the case of any of the goods which are not already sold, power to require that person to sell any of them to the inspector.

(3) Where any container of goods is broken open under subsection (2) above and all requirements of, and of any instrument made under, this Part of this Act which are applicable to those goods are found to have been complied with, then—

(a) if the container can be resealed without injury to the contents, the inspector may reseal it with a label certifying that all such requirements have been complied with, and

(b) if he does not so reseal it or it cannot be so resealed without injury to the contents, the inspector shall at the request of the person referred to in subsection (1) above buy the goods on behalf of the local weights and measures authority.

(4) The powers conferred by subsection (2) above shall not be exercisable in relation to milk within the meaning of the Weights and Measures Act 1963 (Miscellaneous Foods) Order S.I. 1984/1316. 1984 except while the milk is on premises for the time being registered in pursuance of Milk and Dairies Regulations made under the Food Act 1984 or in pursuance of section 7 of the Milk and Dairies (Scotland) Act 1914.

39.—(1) An inspector, subject to the production of his credentials, may require the person in charge of any document required by or under this Part of this Act to be associated with any goods to produce that document for inspection.

(2) If the inspector has reasonable cause to believe that any document produced to him under subsection (1) above contains any inaccurate statement, he may either—

(a) seize and detain the document, giving in exchange a copy with an endorsement signed by him certifying that the original has been seized and giving particulars of any inaccuracy alleged, or

(b) without prejudice to any proceedings which may be taken by reason of any inaccuracy alleged, make
on the document an endorsement signed by him giving particulars of any such inaccuracy;

and, except where the context otherwise requires, any reference in this Part of this Act to any such document includes a reference to a copy given in pursuance of paragraph (a) above.

40.—(1) Subsection (2) below applies where, in the case of any goods being carried on a road vehicle,—

(a) the whole of the vehicle’s load is being carried for sale to, or for delivery after sale to, the same person, and

(b) any document produced in pursuance of section 39(1) above by the person in charge of the vehicle purports, or is required by or under this Part of this Act, to state the quantity of the goods.

(2) Where this subsection applies, the inspector may, for the purpose of the exercise of his powers under section 38(2) above do all or any of the following things, that is to say—

(a) require the goods to which the document relates to be unloaded from the vehicle;

(b) require the vehicle to be taken to the nearest suitable and available weighing or measuring equipment;

(c) require the person in charge of the vehicle to have it check-weighed.

(3) The powers conferred by subsection (2) above shall be exercised only to such extent as may appear to the inspector reasonably necessary in order to secure that the provisions of this Act (apart from Part V) and of any instrument made under those provisions are duly observed.

Miscellaneous and supplementary

41. Where any road vehicle is loaded with goods for sale by weight to a single buyer of the whole of the vehicle’s load, or for delivery to the buyer after they have been so sold, the buyer or seller of the goods, or any inspector who shows that he is authorised so to do by the buyer or seller of the goods, may require the person in charge of the vehicle to have it check-weighed, and if that person fails without reasonable cause to comply with any such requirement he shall be guilty of an offence.

42. A local weights and measures authority shall have power to make, or to authorise an inspector to make on their behalf, such purchases of goods as may appear expedient for the purpose of determining whether or not the provisions of this Part of this Act and any instrument made under this Part, and the provisions of Parts II and III of this Act and any instrument made under either of those Parts, are being complied with.
43.—(1) In ascertaining the quantity of any beer or cider for any of the purposes of section 25 or sections 28 to 31 above, or of the Weights and Measures Act 1963 (Intoxicating Liquor) Order 1984, the gas comprised in any foam on the beer or cider shall be disregarded and, for the purposes of this subsection, "beer" and "cider" have the meanings given by section 1 of the Alcoholic Liquor Duties Act 1979.

(2) This section shall come into force on such date as the Secretary of State may by order appoint, and different dates may be appointed for different purposes.

44. Where any goods are required by or under this Part of this Act to be sold only by quantity expressed in a particular manner—

(a) it shall be a sufficient compliance with that requirement in the case of any sale of, or agreement to sell, any such goods if the quantity of the goods expressed in the manner in question is made known to the buyer before the purchase price is agreed; and

(b) no person shall be guilty of an offence under section 25(1) above by reason of the exposing or offering for sale of such goods at any time if both the quantity of the goods expressed in the manner in question and the price at which they are exposed or offered for sale are made known at that time to any prospective buyer.

45.—(1) For the purposes of this Part of this Act, without prejudice to any other method of making known to a person the quantity of any goods expressed in a particular manner, that quantity shall be taken to be made known to that person—

(a) if the goods are weighed or otherwise measured or counted, as the case may require, in the presence of that person,

(b) if the goods are made up in or on a container marked with a statement in writing of the quantity of the goods expressed in the manner in question and the container is readily available for inspection by that person, or

(c) upon such a statement in writing being delivered to that person.

(2) The Secretary of State may by order provide that subsection (3) below shall apply, in the case of such goods in such circumstances as are specified in the order, to any requirement so specified of, or of any instrument made under, this Part of this Act with respect to the making known to the buyer of the quantity by weight of such goods sold by retail.
PART IV

Weighing in presence of a person.

(3) In any case to which this subsection applies, the requirement specified in the order shall be taken to be satisfied if the goods are bought at premises at which weighing equipment of such description as may be prescribed—

(a) is kept available by the occupier of those premises for use without charge by any prospective buyer of such goods for the purpose of weighing for himself any such goods offered or exposed for sale by retail on those premises, and

(b) is so kept available in a position on those premises which is suitable and convenient for such use of the equipment, and

(c) is reserved for use for that purpose at all times while those premises are open for retail transactions, and a notice of the availability of the equipment for such use is displayed in a position on the premises where it may be readily seen by any such prospective buyer.

46. For the purposes of this Part of this Act, a person shall not be taken to weigh or otherwise measure or count any goods in the presence of any other person unless he causes any equipment used for the purpose to be so placed, and so conducts the operation of weighing or otherwise measuring or counting the goods, as to permit that other person a clear and unobstructed view of the equipment, if any, and of the operation, and of any indication of quantity given by any such equipment as the result of that operation.

PART V

PACKAGED GOODS

Quantity control

47.—(1) It shall be the duty of a person who is the packer or importer of regulated packages to ensure that when a group of the packages marked with the same nominal quantity is selected in the prescribed manner and the packages in the group or such a portion of the group as is so selected are tested in the prescribed manner by an inspector—

(a) the total quantity of the goods shown by the test to be included in the packages tested divided by the number of those packages is not less than the nominal quantity on those packages, and

(b) the number of non-standard packages among those tested is not greater than the number prescribed as acceptable in relation to the number tested.
(2) It is hereby declared that a person discharges the duty imposed on him by subsection (1) above in respect of a group of packages if the quantity of goods in each package is or exceeds the nominal quantity on the package.

(3) Regulations in pursuance of subsection (1) above with respect to the manner of selecting or testing packages may, without prejudice to the generality of the powers to make regulations conferred by that subsection or to the generality of section 66(b) below, make provision by reference to a document other than the regulations (which may be or include a code of practical guidance issued by the Secretary of State).

(4) Where, as a result of a test in respect of a group of packages which is carried out when the packages are in the possession of the packer or importer of the packages or another person, it is shown that the packer or importer of the packages has failed to perform the duty imposed on him by subsection (1) above in respect of the packages, then, without prejudice to the liability of the packer or importer under section 50(1) below in respect of the failure, it shall be the duty of the person in possession of the packages to keep them in his possession—

(a) except so far as he is authorised by or under regulations to dispose of them, or

(b) if he is the packer or importer of them, until he has performed his duty under subsection (1) above in respect of the group.

48.—(1) It shall be the duty of a person who is the packer or importer of a regulated package to ensure that the container included in the package is marked before the prescribed time and in the prescribed manner with—

(a) a statement of quantity in prescribed units either of weight or of volume, as regulations require, and

(b) his name and address or a mark which enables his name and address to be readily ascertained by an inspector, or—

(i) if he is the packer of the package, the name and address of a person who arranged for him to make up the package or a mark which enables that name and address to be readily ascertained by an inspector,

(ii) if he is the importer of the package, the name and address of the packer of the package or of the person who arranged for the packer to make up the package or a mark which enables the name and address of the packer or that person to be readily ascertained by an inspector, and
(c) if regulations so provide, a mark allocated to him by a scheme in pursuance of section 58 below for the purpose of enabling the place where the package was made up to be ascertained.

(2) If at the time when a regulated package is made up or imported the container included in the package is not marked with such a statement as is mentioned in paragraph (a) of subsection (1) above, it shall be the duty of the packer or, as the case may be, the importer of the package—

(a) to decide what statement he proposes to mark on the container in pursuance of that paragraph, and

(b) to make at that time, and to maintain for the prescribed period, a record of the statement.

(3) Until the time mentioned in subsection (1) above or any earlier time at which the container is actually marked in the prescribed manner in pursuance of paragraph (a) of that subsection, it shall be treated for the purposes of this Part of this Act as marked with the statement in the record.

(4) A statement applied to a package in pursuance of subsection (1)(a) above shall be deemed not to be a trade description within the meaning of the Trade Descriptions Act 1968.

Duties as to equipment, checks and documentation.

49.—(1) It shall be the duty of a person who makes up packages either—

(a) to use suitable equipment of the prescribed kind in an appropriate manner in making up the packages, or

(b) to carry out at the prescribed time a check which is adequate to show whether he has performed the duty imposed on him by section 47(1) above in respect of the packages and—

(i) to use suitable equipment of the prescribed kind in an appropriate manner in carrying out the check, and

(ii) to make, and to keep for the prescribed period, an adequate record of the check.

(2) It shall be the duty of a person who is the importer of regulated packages—

(a) to carry out at the prescribed time such a check as is mentioned in paragraph (b) of subsection (1) above and to comply with sub-paragraphs (i) and (ii) of that paragraph in connection with the check, or

(b) to obtain before the prescribed time, and to keep for the prescribed period, documents containing such information about the packages as is adequate to show that
PART V

(3) Without prejudice to the generality of the powers to make regulations conferred by subsection (1) or (2) above or to the generality of section 66 below, regulations may provide—

(a) for equipment not to be suitable equipment for the purposes of the subsection in question unless it is made from materials and on principles specified in the regulations and is inspected, tested and certified as provided by the regulations,

(b) for questions as to the suitability of equipment, the appropriate manner of using equipment and the adequacy of checks, records and information to be determined for those purposes by reference to documents other than the regulations (which may be or include codes or parts of codes of practical guidance issued or approved by the Secretary of State), and

(c) that the use and the possession for use, for the purposes of subsection (1) or (2) above, of a thing which is suitable equipment for the purpose of the subsection in question shall not constitute a contravention of section 8(1)(b) above.

(4) Where regulations made by virtue of subsection (3)(a) above provide for inspection, testing and certification of equipment, a local weights and measures authority may charge such reasonable fees as they may determine for the inspection, testing and certification of the equipment.

Enforcement of control

50.—(1) A person who fails to perform a duty imposed on Offences, etc. him by section 47, 48 or 49 above shall be guilty of an offence.

(2) If a person purports to comply with his duty under—

Cast in 1845 Troughton & Simms, LONDON." and having near to each end a cylindrical hole sunk to the depth of about ¼ inch at the bottom of which is inserted in a smaller hole a golden plug about one-tenth of an inch in diameter with, cut upon its surface, three fine lines about one hundredth of an inch apart transverse, and two fine lines about three hundredths of an inch apart parallel, to the axis of the bar, measurement being made of the mean interval between the two plugs on their respective middle transverse lines between their respective longitudinal lines when the bar is at the temperature of 62° Fahrenheit and supported on bronze rollers placed under it in such manner as best to avoid flexure of the bar and to facilitate its free expansion and contraction from variations of temperature.

PART II

DESCRIPTION OF UNITED KINGDOM PRIMARY STANDARD OF THE POUND

A platinum cylinder about 1.35 inches in height and about 1.15 inches in diameter marked "PS 1844 1 lb", having its edges rounded off and a groove about 0.34 inch below the top of the cylinder.
PART III

DESCRIPTION OF UNITED KINGDOM PRIMARY STANDARD OF THE METRE

The British copy of the prototype metre, being a bar about 102 centimetres long with a cross-section of modified X-form and made of platinum-iridium alloy (90 per cent. platinum, 10 per cent. iridium), bearing at one end the markings “0°C & 20°C”, “A.16 SIP GENEVE 1956” and (on the cross-section) “1” and at the other end the markings “B.16” and (on the cross-section) “2”, and having engraved on the exposed neutral plane—

(a) near each end and also at the centre, two parallel longitudinal lines about 0.12 millimetre apart;
(b) near the end marked “1” and at the centre, one transverse line; and
(c) near the end marked “2”, two transverse lines about 0.17 millimetre apart,

measurement being made of the mean interval between the portions of the most widely separated transverse lines which are between the respective longitudinal lines when the bar is at the temperature of 0°C Celsius, is subjected to an atmospheric pressure of 1013.250 millibars, and is supported on two rollers at least one centimetre in diameter placed symmetrically 571 millimetres apart in the same horizontal plane.

PART IV

DESCRIPTION OF UNITED KINGDOM PRIMARY STANDARD OF THE KILOGRAM

The British copy of the prototype kilogram, being a solid cylinder marked “18” of height equal to its diameter made of platinum-iridium alloy (90 per cent. platinum, 10 per cent. iridium).

PART V

AUTHORISED COPIES OF UNITED KINGDOM PRIMARY STANDARDS OF THE YARD AND POUND

Copies of the bar and cylinder described in Parts I and II respectively of this Schedule of the same construction and form as that bar and cylinder are respectively marked and deposited as follows—

(a) a bronze bar marked “Copper 16 oz. Tin 2½ Zinc 1 Mr. Baily’s Metal No. 2 STANDARD YARD at 61°.94 Faht. Cast in 1845 Troughton & Simms, LONDON.”, and a platinum cylinder marked “No. 1 PC 1844 1 lb”, deposited at the Royal Mint;
(b) a bronze bar marked “Copper 16 oz. Tin 2½ Zinc 1 Mr. Baily’s Metal No. 3 STANDARD YARD at 62°.10 Faht. Cast in 1845 Troughton & Simms, LONDON.”, and a platinum cylinder marked “No 2 PC 1844 1 lb”, deposited at the premises of the Royal Society;
(c) a bronze bar marked “Copper 16 oz. Tin 2½ Zinc 1 Mr. Baily’s Metal No. 5 STANDARD YARD at 62°.16 Faht.
Sch. 2

Cast in 1845 Troughton & Simms, LONDON., and a platinum cylinder marked "No. 3 PC 1844 1 lb", deposited at the Royal Greenwich Observatory;

(d) a bronze bar marked "Copper 16 oz. Tin 2\(\frac{3}{4}\) Zinc 1 Mr. Baily's Metal No. 4 STANDARD YARD at 61°.98 Faht. Cast in 1845 Troughton & Simms, LONDON.," and a platinum cylinder marked "No 4 PC 1844 1 lb", immured in the Palace of Westminster;

(e) a bronze bar marked "Copper 16 oz. Tin 2\(\frac{3}{4}\) Zinc 1. BAILY'S METAL. PARLIAMENTARY COPY (VI) OF THE IMPERIAL STANDARD YARD. 41 & 42 VICTORIA, CHAPTER 49. STANDARD YARD AT 62° FAHT. CAST IN 1878. Troughton & Simms. London. H.J.C.", and a platinum-iridium cylinder marked "P.C. 5 1879" deposited at the National Weights and Measures Laboratory of the Department of Trade and Industry.

SCHEDULE 4
SAND AND OTHER BALLAST

PART I
GENERAL PROVISIONS

1. In this Schedule, “ballast” means any of the following materials, that is to say—

(a) sand, gravel, shingle, ashes and clinker of any description,

(b) broken slag, slag chippings, granite chippings, limestone chippings, slate chippings and other stone chippings (including such materials which have been coated with tar, bitumen or cement),

(c) any other material commonly used in the building and civil engineering industries as a hardcore or an aggregate, and

(d) any other material commonly known in those industries as ballast.

2. Subject to paragraphs 3 and 11 below, ballast shall be sold only by volume in a multiple of 0.2 cubic metre or by net weight.

3. There shall be exempted from the requirements of paragraph 2 above—

(a) ballast in a quantity both less than 2240 pounds and less than one cubic metre,

(b) any sale with a view to its industrial use of ballast of any description mentioned in paragraph 1 (b), (c) or (d) above,

(c) any sale in the case of which the buyer is to take delivery in or from a ship,

(d) any sale as a whole of ballast produced in the demolition or partial demolition of a building where the buyer is responsible for the removal of the ballast from the site of the building, and

(e) any sale in the state in which it was produced of clinker or ashes produced as a by-product, or of any other ballast produced as a casual product, of the carrying on of an industrial process on any premises or of the mining of coal where the buyer is responsible for the removal of the ballast from those premises or, as the case may be, from the colliery tip.

4. Without prejudice to section 15 of this Act, no article shall be used for trade as a cubic measure of ballast other than a receptacle (which may, if so desired, form part of a vehicle) which conforms with such requirements as to form, capacity, calibration and other matters as may be prescribed; and any person who uses for trade, or has in his possession for use for trade, as a cubic measure of ballast any article other than such a receptacle shall be guilty of an offence.
5. In measuring any ballast against a calibration mark on such a receptacle as mentioned in paragraph 4 above, the ballast shall be filled into all parts of the receptacle as far as, and be levelled off against, that calibration mark as nearly as the nature of the ballast will permit; and where any ballast is measured for the purposes of trade in such a receptacle, any person who—

(a) being the person carrying out the measuring, fails so to level off the ballast when it is loaded into the receptacle, or

(b) causes or permits a heaped load to be sent out in the receptacle,

shall be guilty of an offence.

PART II
CARRIAGE OF BALLAST BY ROAD

6. This Part of this Schedule shall have effect with respect to the carriage of ballast by a road vehicle on a journey any part of which is along a highway.

7.—(1) If any of the ballast is being carried for delivery to a buyer in pursuance of, or of an agreement for, its sale and paragraph 2 above applies to the sale, the following provisions of this paragraph shall have effect with respect to that ballast.

(2) There shall, before the journey begins, be delivered to the person in charge of the vehicle a document signed by or on behalf of the seller (in this paragraph referred to as “the delivery document”) stating—

(a) the name and address of the seller,

(b) the name of the buyer, and the address of the premises to which the ballast is being delivered,

(c) the type of the ballast,

(d) subject to sub-paragraph (4) below, the quantity of the ballast either by net weight or by volume,

(e) sufficient particulars to identify the vehicle, and

(f) the place, date and time of the loading of the ballast in the vehicle.

(3) Where the quantity of the ballast is stated in the delivery document by volume, the ballast shall be carried on the vehicle only in such a receptacle as is mentioned in paragraph 4 above.

(4) The statement referred to in sub-paragraph (2) (d) above shall not be required at any time while the vehicle is travelling between the place where it was loaded and the nearest suitable and available weighing equipment if the whole of the vehicle’s load is being delivered to the same person at the same premises and the delivery document states that the quantity of the ballast is to be expressed by net weight determined by means of that equipment and specifies the place at which the equipment is situated.

SCH. 4
(5) In any case to which sub-paragraph (4) above applies, the person in charge of the vehicle at the time when the net weight of the ballast is determined shall forthwith add to the delivery document a statement of that net weight, and if he fails so to do he shall be guilty of an offence.

(6) If any of the provisions of sub-paragraph (2) or (3) above is contravened, the seller shall be guilty of an offence.

(7) If the vehicle is carrying ballast as mentioned in sub-paragraph (1) above for delivery to each of two or more persons, sub-paragraphs (1) to (3) above shall apply separately in relation to each of those persons; but this sub-paragraph shall not be construed as prohibiting the use of the same receptacle such as is mentioned in sub-paragraph (3) above for the carriage of ballast for delivery to two or more different persons.

8.—(1) Subject to sub-paragraph (2) below, if all or any of the ballast on the vehicle is being carried in such circumstances that paragraph 7 above does not apply to it, there shall before the journey begins be delivered to the person in charge of the vehicle a document containing a statement to that effect signed by or on behalf of the person causing that ballast to be carried and giving the name and address of the last-mentioned person, and if this paragraph is contravened the last-mentioned person shall be guilty of an offence.

(2) Sub-paragraph (1) above shall not apply where all the ballast in the vehicle is being carried in such circumstances that paragraph 7 does not apply to it and is being so carried in a container which does not form part of the vehicle.

9. Any document required by paragraph 7 or 8 above shall at all times during the journey be carried by the person for the time being in charge of the vehicle and shall be handed over by him to any other person to whom he hands over the charge of the vehicle in the course of the journey; and in the case of any document such as is mentioned in paragraph 7 above, on the unloading of the ballast to which the document relates at the premises to which that ballast is to be delivered—

(a) before any of that ballast is so unloaded, the document shall be handed over to the buyer, or

(b) if the document cannot be so handed over by reason of the absence of the buyer, it shall be left at some suitable place at those premises;

and if at any time any of the provisions of this paragraph is contravened without reasonable cause, the person in charge of the vehicle at that time shall be guilty of an offence.

10. In the case of any document such as is mentioned in paragraph 7 above, if at any time during the journey or on unloading at the place of delivery the quantity of the ballast to which the document relates is found to be less than that stated
in the document, the statement shall nevertheless be deemed for the purposes of this Act to be correct if, but only if, it is proved that the deficiency is solely attributable to the draining away of normal moisture from, or the consolidation of, the ballast during the journey.

PART III
APPLICATION TO SCOTLAND

11.—(1) In Scotland, paragraph 2 above and Part II of this Schedule shall have effect only in such areas as the Secretary of State may by order specify.

(2) In relation to any area specified by order under sub-paragraph (1) above, a sale of ballast in a quantity both less than 4480 pounds and less than 2 cubic metres shall be exempted from the requirements of paragraph 2 above if the sale is effected, and the ballast is situated, in Scotland.

SCHEDULE 5

PART I
GENERAL

Introductory

1. This Schedule applies to goods of any of the following descriptions (in this Schedule referred to as “solid fuel”), that is to say—
   (a) coal,

Any multiple of 112 pounds.

(2) This paragraph shall not apply to any solid fuel pre-packed in a quantity not exceeding 30 kilograms in a securely closed container.

(3) References in this Schedule to solid fuel made up in an imperial quantity are references to solid fuel made up in one of the imperial quantities specified in the Table in sub-paragraph (1) above, and references to solid fuel made up in a metric quantity shall be construed in a corresponding way.

(4) This paragraph and paragraphs 4, 5 and 6 below have effect subject to the exemptions in paragraph 7.

Indication of quantity

4.—(1) This paragraph applies to solid fuel made up in a container for sale, or for delivery after sale, except where it is made up in a metric quantity in a container which is not securely closed.

(2) The solid fuel shall be made up in a container for sale, or for delivery after sale, only if the container is marked with an indication of quantity by net weight.

Loads on vehicles

5.—(1) Solid fuel made up in containers in the quantity of 140 pounds shall be carried on a road vehicle on a highway for sale, or for delivery after sale, only if all solid fuel carried on the vehicle which is made up in containers is so made up in that quantity.

(2) Solid fuel made up in metric quantities in containers which are not securely closed shall be carried on a road vehicle on a highway for sale, or for delivery after sale, only if all solid fuel carried on the vehicle in containers which are not securely closed is made up in metric quantities.

(3) If this paragraph is contravened the seller shall be guilty of an offence.
Information about containers made up in metric quantities

6.—(1) This paragraph applies where solid fuel is carried on a road vehicle on a highway for sale, or for delivery after sale, and is made up in metric quantities in containers which are not securely closed or is delivered from the vehicle in such containers in any metric quantity.

(2) There shall be displayed on the vehicle—

(a) an indication of the quantity, or quantities, by net weight of the fuel comprised in the containers (other than any securely closed containers) on, or delivered from, the vehicle, and

(b) a statement of the name and address of the seller.

(3) Regulations under section 23 of this Act may prescribe the manner in which the information required by sub-paragraph (2) above is to be displayed, and a person who contravenes any such regulation shall be guilty of an offence.

(4) If this paragraph is contravened, the seller, and any other person who is in charge of the vehicle at the time of the contravention, shall each be guilty of an offence.

Exemptions

7. There shall be exempted from all the requirements of paragraphs 3, 4, 5 and 6 above—

(a) solid fuel supplied under arrangements made in the coal industry for the supply of solid fuel to persons who are or have been employed in that industry or to the dependants of such persons;

(b) solid fuel made up in a container only for ease of handling as part of the load of a vehicle or ship where the whole of that load so far as it consists of solid fuel is being delivered to a single buyer.

Vending machines

8. Solid fuel shall be sold by means of, or offered or exposed for sale in, a vending machine only if there is displayed on or in the machine—

(a) an indication of the quantity by net weight of the fuel comprised in each item for sale by means of that machine; and

(b) except where the machine is on premises at which the seller carries on business, a statement of the name and address of the seller.

Byelaws

9. A local weights and measures authority may make byelaws, subject to the confirmation of the Secretary of State,—

(a) for securing that on any premises within their area on or from which solid fuel available for purchase in a quantity
of 224 pounds or less is sold or kept or exposed for sale, there is displayed a notice specifying the price of the fuel,

(b) prohibiting the sale on or from any such premises of any such fuel at a higher price than that so displayed in relation to that fuel, and

(c) prescribing penalties not exceeding level 2 on the standard scale for any offence under such byelaws.

Damping of fuel

10. Any person who with intent to defraud or deceive damps any solid fuel shall be guilty of an offence.

Sale of fuel from vehicles

11.—(1) This paragraph applies to any vehicle which is used on highways for carrying solid fuel for sale, or for delivery after sale; and in this paragraph "container" means any container in which solid fuel is carried on such a vehicle, or is delivered from such a vehicle.

(2) The Secretary of State may by order make provision—

(a) for securing the display on any such vehicle of an indication of the quantities in which solid fuel is made up in containers;

(b) for requiring all containers carried on or delivered from any one vehicle to be made up in the same quantity, or for regulating in any other way the quantities in which they are made up;

(c) for imposing any requirement as to the loading of the vehicle, or the delivery of solid fuel from the vehicle, which appears to the Secretary of State appropriate for securing that purchasers are not misled as to the quantity of fuel they purchase.

(3) An order under sub-paragraph (2) above may—

(a) make provision for any of the purposes mentioned in that sub-paragraph by means of amending, or of applying with or without modifications, or of excluding the application in whole or in part of, any of the preceding paragraphs of this Schedule;

(b) contain such consequential, incidental or supplementary provision, whether of such kinds as aforesaid or otherwise, as appear to the Secretary of State to be expedient;

(c) may in particular make provision, in respect of contraventions of the order for which no penalty is provided by this Act, for the imposition of penalties not exceeding those provided by section 84(6) of this Act for an offence under this Act.

12. An order under section 22 of this Act may amend or repeal any of the preceding paragraphs of this Schedule.
PART II

WEIGHING OF SOLID FUEL AT BUYER'S REQUEST

13. If in the case of any solid fuel sold otherwise than by means of a vending machine the buyer so requests—

(a) with respect to any of that fuel the delivery of which has not at the time of the request been completed, or

(b) if the request is made before the departure from the premises at which the fuel is delivered of the person delivering it, with respect to any of that fuel the delivery of which has been completed but which is still capable of identification, the seller shall cause the fuel to be weighed by means of suitable weighing equipment in the presence of the buyer and, in the case of any fuel such as is mentioned in sub-paragraph (a) of this paragraph, before the delivery of that fuel is completed; and if this paragraph is contravened, the seller shall be guilty of an offence.

14. Where a request under paragraph 13 above is made in respect of the whole load of a vehicle, the requirements of that paragraph shall be deemed to be satisfied, notwithstanding that the weighing is not done in the presence of the buyer, if the seller causes the vehicle to be check-weighed and the statements of the weights found by the person or persons attending to the check-weighing to be delivered to the buyer.

15. Where after any weighing in pursuance of a request under paragraph 13 above the weight of the solid fuel is found to be not less than that marked on any container in which the fuel was made up or than that stated by the seller in any document delivered to the buyer at or before the delivery of the fuel to him, the buyer shall be liable to repay to the seller all costs reasonably incurred by the seller in connection with the weighing.

PART III

CARRIAGE OF SOLID FUEL BY ROAD

16. This Part of this Schedule shall have effect with respect to the carriage by a road vehicle on a journey any part of which is along a highway of any solid fuel required by paragraph 2 above to be sold only by net weight (in this Part of this Schedule referred to as "relevant goods").

17.—(1) If the vehicle is carrying any relevant goods for delivery to a buyer in pursuance of, or of an agreement for, a sale of a quantity exceeding 224 pounds, then, subject to sub-paragraph (6) below, there shall before the journey begins be delivered to the person in charge of the vehicle a document signed by or on behalf of the seller (in this paragraph referred to as "the delivery document") stating—

(a) the name and address of the seller,

and if this sub-paragraph is contravened the seller shall be guilty of an offence.

(2) Where the whole of the vehicle's load consists of relevant goods not made up in containers and is being delivered to the same person at the same premises, the statement referred to in sub-paragraph (1)(d) above shall not be required at any time while the vehicle is travelling between the place where it was loaded and the nearest suitable and available weighing equipment if the delivery document states that the quantity of the relevant goods is to be expressed by net weight determined by means of that equipment and specifies the place at which the equipment is situated.

(3) In any case to which sub-paragraph (2) above applies, the person in charge of the vehicle at the time when the net weight of the relevant goods is determined shall forthwith add to the delivery document a statement of that net weight, and if he fails so to do he shall be guilty of an offence.

Any document required by paragraph 17 or 18 above shall at all times during the journey be carried by the person for the time being in charge of the vehicle and shall be handed over by him to any other person to whom he hands over the charge of the vehicle in the course of the journey; and in the case of any document such as is mentioned in paragraph 17 above, on the unloading of the goods to which the document relates at the premises to which those goods are to be delivered—

(a) before any of those goods are so unloaded, the document shall be handed over to the buyer, or

PART IV

CARRIAGE OF SOLID FUEL BY RAIL

20. Where any seller of solid fuel causes that fuel to be loaded into a rail vehicle by way of, or for the purpose of, the delivery of that fuel to, or to a person nominated in that behalf by, the buyer, and the fuel is not carried on the vehicle made up in containers, then, except where at the time of loading it is known to the seller that before the fuel is delivered to the consignee it is to be loaded into a ship, paragraphs 21 to 25 below shall apply in relation to that vehicle.

21. Subject to paragraphs 22 and 28 below, the vehicle shall not be loaded until its tare weight has been determined or redetermined by means of suitable weighing equipment at the place of loading.

22.—(1) Paragraph 21 above shall not apply to any rail vehicle which forms part of or is intended to form part of a train conveying only fuel destined for a particular generating station, gas works or other industrial undertaking if—

(a) the vehicle is loaded by equipment which weighs the fuel and discharges it directly into the vehicle, or
(b) the buyer has agreed with the seller that the weight of the load shall be ascertained at the vehicle's destination, or

(c) the buyer has agreed to accept as the tare weight of the vehicle a tare weight ascertained not more than three months before the time of loading and the vehicle has marked upon it in durable lettering a statement of the weight so ascertained and of the date and place at which it was ascertained, or

(d) all the vehicles comprised in the train are coupled together in such a manner that they may be weighed while in motion by equipment designed to determine the total weight of the train, and the buyer has agreed with the seller that the total net weight of fuel carried in the train shall be ascertained by deducting the total weight of the train so determined before loading from the total weight thereof so determined when loaded.

(2) Nothing in sub-paragraph (1)(c) above shall afford any exemption from the requirements of paragraph 21 above in the case of a vehicle which has undergone repairs or modification or has suffered substantial damage since its tare weight was last ascertained and marked as mentioned in that sub-paragraph.

23. Subject to paragraph 24 below, as soon as the loading has been completed and the seller has ascertained the weight of the vehicle with its load and the identity of the consignee, the seller shall cause to be attached to the vehicle a document stating—

(a) the name of the seller and the place and date of weighing,

(b) the name of the consignee and the destination of the vehicle,

(c) sufficient particulars to identify the vehicle,

(d) the tare weight of the vehicle as determined or redetermined in pursuance of paragraph 21 above or, if by virtue of paragraph 28 below paragraph 21 does not apply to the vehicle, the tare weight of the vehicle expressed to be as estimated by the seller,

(e) the weight attributed to the solid fuel in the vehicle by the seller for the purpose of calculating its purchase price, and

(f) the type of that fuel.

24.—(1) Paragraph 23 above shall not apply to any vehicle forming part or intended to form part of any such train as is mentioned in paragraph 22 above, but the seller shall before the departure of the train which includes that vehicle deliver to the authority responsible for railway traffic at the place of loading for carriage on that train a document (in this paragraph and paragraph 25 below referred to as “a train bill”) giving the information specified in sub-paragraph (2) below or, in the case of any such train as is mentioned in paragraph 22(1)(d) above, sub-paragraph (3) below.
(2) Except in a case to which sub-paragraph (3) below applies, the train bill shall contain the following information—

(a) the names of the seller and of the consignee and the destination of the train,

(b) sufficient particulars to identify each vehicle in the train,

(c) the date and place of loading of each vehicle,

(d) a statement of the type of fuel in each vehicle,

(e) except in the case of fuel which a buyer has agreed shall be weighed at the train's destination, the weight attributed by the seller to the fuel in each vehicle for the purpose of calculating its purchase price,

(f) where any vehicle is not exempted from paragraph 21 above, the tare weight of that vehicle,

(g) where any vehicle has been loaded by equipment which weighs fuel and discharges it directly into vehicles, a statement as to the vehicle which has been so loaded,

(h) where any vehicle is loaded with fuel the weight of which is to be ascertained at the train's destination, a statement as to the vehicle so loaded,

(i) where any vehicle is exempted from paragraph 21 above by reason of paragraph 22(1)(c) above, a statement of the tare weight and related particulars marked upon that vehicle, and

(j) where any vehicle is so exempt by reason of any certificate or direction under paragraph 28 below, a weight stated to be the seller's estimate of the tare weight of that vehicle.

(3) In the case of any such train as is mentioned in paragraph 22 (1)(d) above, the train bill shall contain the following information—

(a) the names of the seller and the consignee and the destination of the train,

(b) the date and place of loading of the train,

(c) the number of vehicles in the train,

(d) the total net weight of fuel carried in the train,

(e) a statement of the type of fuel carried in the train, and

(f) a statement that the buyer has agreed that the total net weight of fuel carried in the train shall be ascertained in the manner mentioned in paragraph 22(1)(d) above.

(4) If the requirements of sub-paragraph (1) above are contravened, the seller shall be guilty of an offence.

25.—(1) The following provisions of this paragraph apply—

(a) in a case where by virtue of paragraph 24 above a train bill is carried, when the train reaches its destination, and

(b) in any other case, when the vehicle in question reaches its destination.
(2) The authority responsible for railway traffic at the destination of the train or vehicle, as the case may be, shall—

(a) permit the consignee and, subject to the production if so requested of his credentials, any inspector to inspect the document required by paragraph 23 or, as the case may be, 24 above,

(b) permit the consignee either to take possession of that document after the train or vehicle is unloaded or to make a copy of the particulars stated therein, and

(c) if so requested by the consignee with respect to any such copy which the authority is satisfied is accurate, certify the accuracy thereof,

and if any of the provisions of this sub-paragraph is contravened the authority shall be guilty of an offence.

(3) Subject to sub-paragraphs (5) and (6) below, any of the following persons, that is to say—

(a) any inspector, subject to the production if so requested of his credentials, or

(b) the consignee, subject to his undertaking to pay any cost reasonably incurred,

may require the vehicle to be weighed either before or after or both before and after it is unloaded, and the vehicle shall be weighed accordingly unless it is certified by or on behalf of the authority mentioned in sub-paragraph (2) above that in the circumstances of the particular case the carrying out of the weighing would cause undue dislocation of railway traffic at the vehicle's destination; and any inspector who is present at any such weighing shall if so requested certify the weight found.

(4) If when the fuel is unloaded from the vehicle it is weighed accurately with accurate weighing equipment in the presence of an inspector, the inspector shall if so requested certify that it was so weighed and state in his certificate the weight found.

(5) Where by virtue of paragraph 24 above a train bill is carried and the buyer has agreed that the weight of the fuel in any vehicle is to be ascertained at the train's destination, sub-paragraph (3) above shall not apply in relation to that vehicle.

(6) In a case falling within paragraph 22(1)(d) above, sub-paragraph (3) above shall have effect—

(a) with the omission of paragraph (b), and

(b) as if any reference to a vehicle were a reference to a train.

26. Where, in the case of any rail vehicle used on a journey to carry solid fuel which is not made up in containers, paragraphs 21 to 25 above do not apply, the consignor shall cause to be attached to the vehicle before it starts on the journey a document stating the name of the consignor and the place of loading of the vehicle.

27.—(1) If paragraph 21 or 23 above is contravened, the seller shall be guilty of an offence.
(2) If paragraph 26 above is contravened, the consignor shall be guilty of an offence.

(3) If, in the case of any rail vehicle used on a journey to carry solid fuel—

(a) the authority responsible for railway traffic at the place of loading or any person employed by that authority wilfully prevents or impedes the attachment to the vehicle of the document required by paragraph 23 or 26 above, or

(b) any person, being a person concerned in the sale, carriage or delivery of that fuel, wilfully removes, defaces or alters any such document attached to the vehicle,

that authority or person shall be guilty of an offence.

28.—(1) Paragraph 21 above shall not apply to any rail vehicle loaded at a mine of coal with respect to which it is certified by or on behalf of the National Coal Board—

(a) that in no year is the aggregate amount of solid fuel loaded as mentioned in paragraph 20 above likely to exceed 224 million pounds; or

(b) that owing to a shortage of rail vehicles compliance with paragraph 21 above would for the time being cause undue dislocation of the working of the mine.

(2) If any seller of solid fuel who uses any place, other than a mine to which sub-paragraph (1) above applies, for causing solid fuel to be loaded as mentioned in paragraph 20 above makes representations to the Secretary of State that the provision at that place of weighing equipment suitable for determining the tare weight of rail vehicles is not reasonably practicable or would be unjustified on economic grounds and the Secretary of State is satisfied that there are grounds for those representations, the Secretary of State may direct, that subject to such conditions and for such period as may be specified in the direction, paragraph 21 above shall not apply to any vehicle loaded at that place.

(3) The National Coal Board shall cause notice in writing to be given forthwith to the local weights and measures authority within whose area the mine in question is situated of the issue or withdrawal of any certificate such as is mentioned in sub-paragraph (1)(b) above, and if without reasonable cause they fail so to do they shall be guilty of an offence.

Powers of entry and inspection

1. An inspector may, within the area for which he is appointed an inspector and on production if so requested of his credentials, at all reasonable times—

(a) enter any premises (except premises used only as a private dwelling-house) as to which he has reasonable cause to believe that packages are made up on the premises or that imported packages belonging to the importer of them are on the premises or that regulated packages intended for sale are on the premises;

(b) inspect and test any equipment which he has reasonable cause to believe is used in making up packages in the United Kingdom or in carrying out a check mentioned in subsections (1) and (2) of section 49 of this Act;

(c) inspect, and measure in such manner as he thinks fit, any thing which he has reasonable cause to believe is or contains or is contained in a package and, if he considers it necessary to do so for the purpose of inspecting the thing or anything in it, break it open;

(f) require any person to give to the inspector such information as the person possesses about the name and address of the packer and of any importer of a package which the inspector finds on premises he has entered by virtue of this paragraph or paragraph 2 below.

(a) is satisfied that there is reasonable ground to believe that—

(i) a package or a thing containing a package, or

(ii) any such equipment, record, document or certificate as is mentioned in paragraph 1 above,

is on any premises or that an offence under section 50 or 63 of this Act is being or is about to be committed on any premises, and

(b) is also satisfied either—

(i) that admission to the premises has been refused or that a refusal is apprehended and that notice of the intention to apply for a warrant has been given to the occupier, or

(ii) that an application for admission or the giving of such a notice would defeat the object of the entry or that the premises are unoccupied or that the occupier is temporarily absent and it might defeat the object of the entry to await his return,

the justice may by warrant under his hand, which shall continue in force for a period of one month, authorise an inspector to enter the premises if need be by force.

In the application of this paragraph to Scotland "justice of the peace" includes a sheriff.

3.—(1) An inspector entering any premises by virtue of paragraph 1 or 2 above may take with him such other persons and such equipment as he considers necessary.

Where an inspector has reasonable cause to believe that an offence under section 50, 54 or 63 of this Act or this Schedule has been committed and that any equipment, record, document, package or thing containing or contained in a package may be required as evidence in proceedings for the offence he may seize it and detain it for as long as it is so required.
5.—(1) An inspector may serve, on any person carrying on business as the packer or importer of packages in the area for which the inspector is appointed an inspector, a notice requiring that person—

(a) to furnish the inspector from time to time with particulars of the kind specified in the notice of any marks which, otherwise than in pursuance of section 48(1)(c) of this Act, are applied from time to time to packages made up in that area by that person or (as the case may be) to packages imported by him, for the purpose of enabling the place where the packages were made up to be ascertained, and

(b) if the person has furnished particulars of a mark in pursuance of the notice and the mark ceases to be applied to such packages for that purpose, to give notice of the cesser to the inspector.

(2) A notice given by an inspector under this paragraph shall not require a person to furnish information which he does not possess.

Purchase of goods

6.—(1) A local weights and measures authority shall have power to purchase goods, and to authorise any of its officers to purchase goods on behalf of the authority, for the purpose of ascertaining whether an offence under section 50, 54(2) or 63 of this Act has been committed.

(2) If an inspector breaks open a package in pursuance of paragraph 1(c) above otherwise than on premises occupied by the packer or importer of the package and the package is not inadequate, it shall be the duty of the inspector, if the owner of the package requests him to do so, to buy the package on behalf of the local weights and measures authority for the area in which he broke it open.

Failure to provide assistance or information

7. Any person who without reasonable cause fails to comply with a requirement made of him in pursuance of paragraph 1(e) or (f) or 5 above shall be guilty of an offence.
