PROTECTIVE PROVISIONS

PART II

PROTECTION AGAINST SILTATION OR SCOURING

2 If—

- (a) within the period beginning with the commencement of the construction of the bridge and ending ten years from the completion of that construction, any part of the river becomes subjected to silting or scouring which is wholly or partly caused by a tidal work; or
- (b) within the period of ten years beginning with the commencement of the carrying out of any tidal work in connection with the maintenance or improvement of the bridge, any part of the river becomes subjected to silting or scouring which is wholly or partly caused by that tidal work;

and that silting or scouring prejudices the stability or operation of, or, as the case may be, the access of vessels to or from, and the berthing of vessels at, any existing installation of a protected body specified in the following table, the Secretary of State, if so requested by notice given by that body within that period, shall carry out such works or operations in the river as may be necessary to make good the silting or scouring in so far as, in either case, that silting or scouring is attributable to a tidal work.
