- (a) P is certified as having capacity to renew consent to storage of the gametes, and
 - (b) P renews consent to storage of the gametes by informing K in writing that P consents to their storage.
- (12) In a case where P renews consent under sub-paragraph (11)(b), this paragraph applies subsequently as if references to a consent period were to—
- (a) the period of 10 years beginning with the day on which P so renewed consent, and
 - (b) each successive period of 10 years.
- 11B (1) For the purposes of paragraph 11A, each of the following is a “consent period”—
- (a) the period of 10 years beginning with the relevant day, and
 - (b) each successive period of 10 years.
- (2) In sub-paragraph (1)(a) “relevant day” means—
- (a) the day on which the gametes are first placed in storage, or
 - (b) in a case where sub-paragraph (3) or (5) applies, the day on which P gives consent to the storage of the gametes.
- (3) This sub-paragraph applies where the gametes are taken from or provided by P before P attains the age of 18 years and, at the time the gametes are first stored—
- (a) P has not attained the age of 16 years and is not competent to deal with the issue of consent to storage of the gametes, or
 - (b) P has attained that age but, although not lacking capacity to consent to the storage of the gametes, is not competent to deal with the issue of consent to their storage.
- (4) In relation to Scotland, sub-paragraph (3) is to be read as if, for paragraphs (a) and (b), there were substituted “P does not have capacity (within the meaning of section 2(4) of the Age of Legal Capacity (Scotland) Act 1991) to consent to storage of the gametes”.
- (5) This sub-paragraph applies where the gametes are taken from or provided by P after P attains the age of 16 years and, at the time the gametes are first stored, P lacks capacity to consent to their storage.
- (6) In paragraph 11A “the renewal period”, in relation to a consent period, means the period which—
- (a) begins 12 months before the end of the consent period, and
 - (b) ends 6 months after the end of the consent period.
- (7) In paragraph 11A “certified” means certified in writing by a registered medical practitioner.
- (8) In paragraph 11A and this paragraph, in relation to Scotland, references to a person lacking or having capacity to consent or renew consent are to be read as references to the person being or not being incapable (within the meaning of section 1(6) of the Adults with Incapacity (Scotland) Act 2000) of consenting or renewing consent.

Renewal of consent to storage of embryos

- (b) the embryo is being kept for use for the purposes of providing treatment services to—
 - (i) a person (“P”) whose gametes or human cells were used to bring about the creation of the embryo, or
 - (ii) P and another person together,
 - (c) P’s consent to the storage of the embryo is required under paragraph 8(2), and
 - (d) there is effective consent from P to the storage of the embryo.
- (2) The person keeping the embryo in storage (“K”) must, in each consent period, request P to renew consent to storage of the embryo within the renewal period.
- For the meaning of “consent period” and “renewal period”, see paragraph 11D.
- (3) A request under sub-paragraph (2) must be given in writing before the start of the renewal period.
- (4) The duty in sub-paragraph (2) ceases to apply if—
- (a) K is notified that P has died, or
 - (b) K is notified under paragraph 4A(1)(c) of the withdrawal of a person’s consent to storage of the embryo.
- (5) The duty in sub-paragraph (2) does not apply in relation to any consent period if—
- (a) K has at any time been informed in writing that P has been certified as lacking capacity to renew consent to storage of the embryo, and
 - (b) K has not subsequently been informed in writing, before the start of the renewal period which relates to that consent period, that P has been certified as having capacity to renew consent to storage of the embryo.
- (6) P renews consent by informing K in writing that P consents to the storage of the embryo.
- (7) If P’s consent is not renewed under sub-paragraph (6) before the end of the consent period, K must, as soon as possible after the end of that period, give a notice to P stating that if P does not renew consent before the end of the renewal period, the embryo will be removed from storage and disposed of.
- (8) P’s consent to the storage of the embryo is to be taken as having been withdrawn at the end of a renewal period that relates to a consent period if—
- (a) K has complied with the requirements of sub-paragraphs (2) and (7) in relation to that consent period, and
 - (b) P’s consent is not renewed under sub-paragraph (6) before the end of the renewal period.

But this is subject to sub-paragraphs (9) and (10).

- (9) If, in a case referred to in sub-paragraph (8)(a) and (b), P dies before the end of the renewal period—
- (a) P’s consent is not to be taken as withdrawn under sub-paragraph (8), but
 - (b) if at the end of the period of 10 years beginning with the day on which P died there is still effective consent from P to the storage, P’s consent is to be taken as withdrawn at that time.
- (10) If, in a case referred to in sub-paragraph (8)(a) and (b), before the end of the renewal period P is certified as lacking capacity to renew consent—

- (a) P’s consent is not to be taken as withdrawn under sub-paragraph (8), but
 - (b) if at the end of the period of 10 years beginning with the day on which P was so certified there is still effective consent from P to the storage, P’s consent is to be taken as withdrawn at that time.
- (11) But P’s consent is not to be taken as withdrawn under sub-paragraph (10)(b) if, before the time it would be taken to be withdrawn under that sub-paragraph—
- (a) P is certified as having capacity to renew consent to storage of the embryo, and
 - (b) P renews consent to storage of the embryo by informing K in writing that P consents to its storage.
- (12) In a case where P has renewed consent under sub-paragraph (11)(b), this paragraph applies subsequently as if references to the consent period were to—
- (a) the period of 10 years beginning with the day on which P so renewed consent, and
 - (b) each successive period of 10 years.
- (13) Where P’s consent is taken as withdrawn under this paragraph, K must, as soon as possible, take all reasonable steps to give notice of the withdrawal to each person whose gametes or human cells were used to bring about its creation.
- (14) Storage of the embryo remains lawful until—
- (a) the end of the period of 6 months beginning with the day on which P’s consent is taken as withdrawn under this paragraph, or
 - (b) if, before the end of that period, K receives a notice from each person notified under sub-paragraph (13) stating that the person consents to the disposal of the embryo, the time at which the last of those notices was received.

- (a) the period of 10 years beginning with the day on which the embryo is first placed in storage, and

- (4) Condition C is that the person responsible under the licence has no reason to believe that P had refused such consent at a time when P had that capacity.
- (5) Condition D is that it appears unlikely that P will at some time have that capacity.
- (6) Condition E is that any embryo or human admixed embryo to be created *in vitro* is to be used for the purposes of a project of research which is intended to increase knowledge about—
- (a) the disease, disability or medical condition mentioned in sub-paragraph (2) or any similar disease, disability or medical condition, or
- (b) the treatment of, or care of persons affected by, that disease, disability or medical condition or any similar disease, disability or medical condition.
- (7) Condition F is that there are reasonable grounds for believing that research of comparable effectiveness cannot be carried out if the only human cells that can be used to bring about the creation *in vitro* of embryos or human admixed embryos for use for the purposes of the project are the human cells of persons who—
- (a) have attained the age of 18 years and have capacity to consent to the use of their human cells to bring about the creation *in vitro* of an embryo or human admixed embryo for use for the purposes of the project, or

- (2) R must take reasonable steps to identify a person who—
 - (a) otherwise than in a professional capacity or for remuneration, is engaged in caring for P or is interested in P's welfare, and
 - (b) is prepared to be consulted by R under this paragraph of this Schedule.
- (3) If R is unable to identify such a person R must nominate a person who—
 - (a) is prepared to be consulted by R under this paragraph of this Schedule, but
 - (b) has no connection with the project.
- (4) R must provide the person identified under sub-paragraph (2) or nominated under sub-paragraph (3) (“F”) with information about the proposed use of human cells to bring about the creation *in vitro* of embryos or human admixed embryos for use for the purposes of the project and ask F what, in F's opinion, P's wishes and feelings about the use of P's human cells for that purpose would be likely to be if P had capacity in relation to the matter.
- (5) The condition referred to in paragraph 16(1)(c) is that, on being consulted, F has not advised R that in F's opinion P's wishes and feelings would be likely to lead P to decline to consent to the use of P's human cells for that purpose.
- (6) In relation to Scotland, the references in sub-paragraphs (1) and (4) to P lacking, or having, capacity to consent are to be read respectively as references to P being, or not being, incapable (within the meaning of section 1(6) of the Adults with Incapacity (Scotland) Act 2000) of giving such consent.

Effect of acquiring capacity

- 19
- (1) Paragraph 16 does not apply to the use of P's human cells to bring about the creation *in vitro* of an embryo or human admixed embryo if, at a time before the human cells are used for that purpose, P—
 - (a) has capacity to consent to their use, and
 - (b) gives written notice to the person keeping the human cells that P does not wish them to be used for that purpose.
 - (2) Paragraph 16 does not apply to the storage or use of an embryo or human admixed embryo whose creation *in vitro* was brought about with the use of P's human cells if, at a time before the embryo or human admixed embryo is used for the purposes of the project of research, P—
 - (a) has capacity to consent to the storage or use, and
 - (b) gives written notice to the person keeping the human cells that P does not wish them to be used for that purpose.
 - (3) In relation to Scotland, the references in sub-paragraphs (1)(a) and (2)(a) to P having capacity to consent are to be read as references to P not being incapable (within the meaning of section 1(6) of the Adults with Incapacity (Scotland) Act 2000) of giving such consent.

Use of cells or cell lines in existence before relevant commencement date

- 20 (1) Where a licence authorises the application of this paragraph in relation to qualifying cells, this Schedule does not require the consent of a person (“P”)—
- (a) to the use of qualifying cells of P to bring about the creation *in vitro* of an embryo or human admixed embryo for use for the purposes of a project of research, or
 - (b) to the storage or the use for those purposes of an embryo or human admixed embryo in relation to which P is a relevant person by reason only of the use of qualifying cells of P.
- (2) “Qualifying cells” are human cells which—
- (a) were lawfully stored for research purposes immediately before the commencement date, or
 - (b) are derived from human cells which were lawfully stored for those purposes at that time.
- (3) The “commencement date” is the date on which paragraph 9(2)(a) of Schedule 3 to the Human Fertilisation and Embryology Act 2008 (requirement for consent to use of human cells to create an embryo) comes into force.

Conditions for grant of exemption in paragraph 20

- 21 (1) A licence may not authorise the application of paragraph 20 unless the Authority is satisfied—
- (a) that there are reasonable grounds for believing that scientific research will be adversely affected to a significant extent if the only human cells that can be used to bring about the creation *in vitro* of embryos or human admixed embryos for use for the purposes of the project of research are—
 - (i) human cells in respect of which there is an effective consent to their use to bring about the creation *in vitro* of embryos or human admixed embryos for use for those purposes, or
 - (ii) human cells which by virtue of paragraph 16 can be used without such consent, and
 - (b) that any of the following conditions is met in relation to each of the persons whose human cells are qualifying cells which are to be used for the purposes of the project of research.
- (2) Condition A is that—
- (a) it is not reasonably possible for the person responsible under the licence (“R”) to identify the person falling within sub-paragraph (1)(b) (“P”), and
 - (b) where any information that relates to P (without identifying P or enabling P to be identified) is available to R, that information does not suggest that P would have objected to the use of P’s human cells to bring about the creation *in vitro* of an embryo or human admixed embryo for use for the purposes of the project.
- (3) Condition B is that—
- (a) the person falling within sub-paragraph (1)(b) (“P”) is dead or the person responsible under the licence (“R”) believes on reasonable grounds that P is dead,
 - (b) the information relating to P that is available to R does not suggest that P would have objected to the use of P’s human cells to bring about the creation

- (4) Condition C is that—
- (a) the person responsible under the licence (“R”) has taken all reasonable steps to contact—
- (i) the person falling within sub-paragraph (1)(b) (“P”), or
- (ii) in a case where P is dead or R believes on reasonable grounds that P is dead, persons who could give consent for the purposes of sub-paragraph (3)(c),
