- 3 Inspectors and escort team members shall wear some clear identification of their respective roles.
- 4 An inspector shall be deemed to have assumed his or her duties upon arrival at the point of entry/exit on the territory of the State Party where an inspection is to be carried out and shall be deemed to have ceased performing those duties after leaving the territory of that State Party through the point of entry/exit.

- 18 The inspected State Party shall not be obliged to provide a helicopter at any inspection site that is less than 20 square kilometres in area.
- 19 The inspected State Party shall have the right to delay, limit or refuse helicopter overflights above sensitive points, but the presence of sensitive points shall not prevent helicopter overflight of the remaining areas of the inspection site. Photography of or above sensitive points during helicopter overflights shall be permitted only with the approval of the escort team.
- 20 The duration of such helicopter overflights at an inspection site shall not exceed a cumulative total of one hour, unless otherwise agreed between the inspection team and the escort team.

Notwithstanding the provisions of paragraph 24 of this Section, inspectors shall enter the interior of such hardened aircraft shelters only with the approval of the escort team. - 28 The escort team shall have the right to deny access to sensitive points, the number and extent of which should be as limited as possible, to shrouded objects and to containers any dimension (width, height, length or diameter) of which is less than two metres. Whenever a sensitive point is designated, or shrouded objects or containers are present, the escort team shall declare whether the sensitive point, shrouded object or container holds any battle tanks, armoured combat vehicles,

- artillery, combat helicopters, combat aircraft, reclassified combat-capable trainer aircraft, armoured personnel carrier look-alikes, armoured infantry fighting vehicle look-alikes or armoured vehicle launched bridges and, if so, their number and type, model or version.
- 29 If the escort team declares that a sensitive point, shrouded object or container does contain any of the conventional armaments and equipment specified in paragraph 28 of this Section, then the escort team shall display or declare such conventional armaments and equipment to the inspection team and shall take steps to satisfy the inspection team that no more than the declared number of such conventional armaments and equipment are present.

Inspectors shall have the right to require the doors and/or hatches of the vehicle to be opened so that the interior can be visually inspected from outside the vehicle. Sensitive equipment in or on the vehicle may be shrouded.
- 33 If, during an inspection of an object of verification or within a specified area pursuant to Section VII or VIII of this Protocol, items of equipment declared by the escort team to have been reduced in accordance with the provisions in the Protocol on Reduction are present at an inspection site, the inspection team shall have the right to inspect such items of equipment to confirm that they have been reduced in accordance with the procedures specified in Sections III to XII of the Protocol on Reduction.

- 37 Inspectors shall have the right to take measurements to resolve ambiguities that might arise during inspections. Such measurements recorded during inspections shall be confirmed by a member of the inspection team and a member of the escort team immediately after they are taken. Such confirmed data shall be included in the inspection report.
- 38 States Parties shall, whenever possible, resolve during an inspection any ambiguities that arise regarding factual information. Whenever inspectors request the escort team to clarify such an ambiguity, the escort team shall promptly provide the inspection team with clarifications. If inspectors decide to document an unresolved ambiguity with photographs, the escort team shall, subject to the provision in paragraph 35 of this Section, co-operate with the inspection team's taking of appropriate photographs using a camera capable of producing instantly developed photographic prints. If an ambiguity cannot be resolved during the inspection, then the question, relevant clarifications and any pertinent photographs shall be included in the inspection report in accordance with Section XII of this Protocol.
- 39 For inspections conducted pursuant to Sections VII and VIII of this Protocol, the inspection shall be deemed to have been completed once the inspection report has been signed and countersigned.
- 40 No later than completion of an inspection at a declared site or within a specified area, the inspection team shall inform the escort team whether the inspection team intends to conduct a sequential inspection. If the inspection team intends to conduct a sequential inspection, the inspection team shall designate at that time the next inspection site. In such cases, subject to the provisions in Section VII, paragraphs 6 and 17 and Section VIII, paragraph 6, subparagraph (A) of this Protocol, the inspected State Party shall ensure that the inspection team arrives at the sequential inspection site as soon as possible after completion of the previous inspection. If the inspection team does not intend to conduct a sequential inspection, then the provisions in paragraphs 42 and 43 of this Section shall apply.

42 After completion of an inspection at a declared site or within a specified area, if no sequential inspection has been declared, then the inspection team shall be transported to the appropriate point of entry/exit as soon as possible and shall depart the territory of the State Party where the inspection was carried out within 24 hours.
