- (2) The annual borrowing costs of a loan of the amount required for the provision of a public sewer is the aggregate amount which would fall to be paid in any year by way of payments of interest and repayments of capital if an amount equal to so much of the costs reasonably incurred in providing that sewer as were not incurred in the provision of additional capacity had been borrowed, by the sewerage undertaker providing the sewer, on terms—
 - (a) requiring interest to be paid and capital to be repaid in twelve equal annual instalments; and

- (7) Any reference in this section to the drainage charges payable for the use during any year of any sewer provided by a sewerage undertaker is a reference to so much of the aggregate of any charges payable to the sewerage undertaker in respect of services provided in the course of that year as represents charges which—
- (a) have been imposed by the undertaker in relation to such of the premises connected with that sewer as are premises where there are buildings; and
 - (b) are reasonably attributable to the use of that sewer for the drainage for domestic sewerage purposes of those premises or to the disposal of effluent drained for any such purpose from those premises.
- (8) An approval or determination given or made by the Director for the purposes of subsection (2) above—

- (a) the period of six months beginning with the relevant day has expired; and
 - (b) the sewerage undertaker has not, before the end of that period, so laid the public sewer to be provided as to enable drains and private sewers to be used for the drainage of premises in that locality to communicate with the public sewer at the places determined under subsection (3) below.
- (2) The period mentioned in subsection (1)(a) above may be extended—
- (a) by agreement between the undertaker and the person or persons who required the provision of the public sewer; or

- (a) a person who has made an application to a sewerage undertaker under subsection (2) above has failed to comply with his obligation under this section to supplement that application with information required by the undertaker; and
 - (b) that requirement was made by the undertaker at such a time before the end of the period within which the undertaker is required, by virtue of section 105 below, to respond to the application as gave that person a reasonable opportunity to provide the required information within that period,

 - (b) that any such drain or private sewer is so defective as to admit subsoil water, the undertaker may examine the condition of the drain or sewer and, for that purpose, may apply any test, other than a test by water under pressure and, if the undertaker deems it necessary, open the ground.
- (2) If on examination the drain or sewer is found to be in proper condition, the undertaker shall, as soon as possible, reinstate any ground which has been opened by it and make good any damage done by the undertaker.

- (a) provide a sewer which is equally effective for his use for that purpose; and
 - (b) at the undertaker’s own expense, carry out any work necessary to make that person’s drains or sewers communicate with the sewer provided in pursuance of this subsection.
