EXPLANATORY NOTES

COMMENTARY ON SECTIONS

Part 3: Miscellaneous

Sections 81 to 83 Water conservation
381.

Section 83: Water conservation by public authorities.

This section requires all public authorities, as defined in the section, to take into account, where relevant, the desirability of conserving water supplied to premises. This applies to both their actual use of water and where their functions might have an impact on water use. This is not intended to restrict justifiable water use, but to ensure consideration of water conservation in the development of policies and activities.
