EXPLANATORY NOTES

COMMENTARY ON SECTIONS

Part 16: General and Miscellaneous

Schedule 24: Harmonisation: exceptions

Effect

1004. This Schedule sets out the provisions of the Act to which the power in section 203 does not apply. These are largely provisions where all the equality provisions are clearly governed by European law or where power exists under other legislation to deal with any anomalies that may otherwise arise. Accordingly it will not be possible to amend these provisions using the power in section 203 to bring them into line, where needed, with changes in European law.
