93 Amendment of section 166 of the Energy Act 2004

(1) Section 166 of the Energy Act 2004 (indemnities) is amended as follows.

(2) After subsection (3) insert—

“(3AA) As soon as practicable after agreeing to indemnify persons under this section, the Secretary of State must lay a statement of the agreement before Parliament.”

(3) After subsection (6) insert—

“(6A) Where a sum has been paid out by the Secretary of State in consequence of an indemnity agreed to under this section, the Secretary of State must lay a statement relating to that sum before Parliament—

- (a) as soon as practicable after the end of the financial year in which that sum is paid out; and
- (b) (except where subsection (4) does not apply in the case of the sum) as soon as practicable after the end of each subsequent relevant financial year.

(6B) In relation to a sum paid out in consequence of an indemnity, a financial year is a relevant financial year for the purposes of subsection (6A) unless—

Status: This is the original version (as it was originally enacted).

- (a) before the beginning of that year, the whole of that sum has been repaid to the Secretary of State under subsection (4); and
- (b) the company in question is not at any time during that year subject to liability to pay interest on amounts that became due under that subsection in respect of that sum.”

Special administration under this Chapter

94 Energy supply company administration orders

- (1) An energy supply company administration order (referred to in this Chapter as an “esc administration order”) is an order which—
 - (a) is made by the court in relation to an energy supply company; and
 - (b) directs that, while the order is in force, the affairs, business and property of the company are to be managed by a person appointed by the court.
- (2) The person appointed in relation to a company for the purposes of an esc administration order is the energy administrator of the company.
- (3) The energy administrator of a company must manage its affairs, business and property, and exercise and perform all the powers and duties of an energy administrator, so as to achieve the objective set out in section 95.
- (4) In relation to an esc administration order applying to a non-GB company, references in this section to the affairs, business and property of the company are references only to its affairs and business so far as carried on in Great Britain and to its property in Great Britain.
- (5) In this Chapter—
 - “energy supply company” means a company which is the holder of a relevant licence; and
 - “relevant licence” means—
 - (a) a licence granted under section 7A(1)(a) or (b) of the Gas Act 1986 to supply gas, or
 - (b) a licence granted under section 6(1)(d) of the Electricity Act 1989 to supply electricity.

95 Objective of an energy supply company administration

- (1) The objective of an energy supply company administration is to secure—
 - (a) that energy supplies are continued at the lowest cost which it is reasonably practicable to incur; and
 - (b) that it becomes unnecessary, by one or both of the following means, for the esc administration order to remain in force for that purpose.
- (2) Those means are—
 - (a) the rescue as a going concern of the company subject to the esc administration order; and
 - (b) transfers falling within subsection (3).
- (3) A transfer falls within this subsection if it is a transfer as a going concern—
 - (a) to another company, or

Status: This is the original version (as it was originally enacted).

- (b) as respects different parts of the undertaking of the company subject to the esc administration order, to two or more different companies, of so much of that undertaking as it is appropriate to transfer for the purpose of achieving the objective of the energy supply company administration.
- (4) The means by which transfers falling within subsection (3) may be effected include, in particular—
 - (a) a transfer of the undertaking of the company subject to the esc administration order, or of a part of its undertaking, to a wholly-owned subsidiary of that company; and
 - (b) a transfer to a company of securities of a wholly-owned subsidiary to which there has been a transfer falling within paragraph (a).
- (5) The objective of an energy supply company administration may be achieved by transfers falling within subsection (3) to the extent only that—
 - (a) the rescue as a going concern of the company subject to the esc administration order is not reasonably practicable or is not reasonably practicable without such transfers;
 - (b) the rescue of that company as a going concern will not achieve that objective or will not do so without such transfers;
 - (c) such transfers would produce a result for the company’s creditors as a whole that is better than the result that would be produced without them; or
 - (d) such transfers would, without prejudicing the interests of those creditors as a whole, produce a result for the company’s members as a whole that is better than the result that would be produced without them.

96 Application of certain provisions of the Energy Act 2004 in relation to esc administration orders

- (1) Sections 156 to 167 of, and Schedules 20 and 21 to, the Energy Act 2004 (special administration regime for energy licensees) apply in relation to an esc administration order as they apply in relation to an energy administration order within the meaning given by section 154(1) of that Act, but with the modifications set out in subsections (2) to (4).

Status: This is the original version (as it was originally enacted).
